- Rebalanced quarterly, and continuously monitored, to ensure relevant and updated views on ESG, quality, value and risk
- Investors can buy or sell units on the Cboe securities exchange like any other listed security or apply and redeem directly with the Responsible Entity

ESG Philosophy and integration

- Integrated proprietary ESG risk assessment process and low carbon framework
- Companies with material exposures to operations considered detrimental to society are removed from the universe.[^]
- Companies are reviewed and scored for the materiality of their exposure to E, S and G issues. The assessment is a direct input into portfolio management
- We overlay our proprietary low carbon framework to deliver a portfolio with meaningfully lower carbon intensity than broader equity markets
