<sup>#</sup> Sectors are internally defined. Geographical exposure is calculated on a look through basis based on underlying revenue exposure of individual companies held within the portfolio. Cash exposure includes profit/loss on currency hedging. Exposures may not add to 100% due to rounding.

The Trust is currently exercising its ability to hedge some of the capital component of the foreign currency exposure of the Trust arising from investments in overseas markets back to Australian Dollars.

Calculations are based the ASX released net asset value with distributions reinvested, after ongoing fees and expenses but concluded in individual tax member fore and other for its preficiently.
