Magellan Asset Management Limited as responsible entity for Magellan Sustainable Fund (Managed Fund)

About the Magellan Sustainable Fund (Managed Fund)

The Fund offers investors an opportunity to invest in a specialised and focused global equity fund that invests in the securities of outstanding companies at attractive prices within a framework that considers Environmental, Social and Governance (ESG) risks and delivers very low carbon exposure, while exercising a deep understanding of the macroeconomic environment to manage investment risk. The Fund's portfolio will comprise between 20 to 50 stocks at any one time but will also have some exposure to cash. The primary objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, while reducing the risk of permanent capital loss. It is not our intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.
