Chairman's Report

for the period ended 30 June 2021

Dear Unitholders,

We are pleased to present the Annual Financial Report for Magellan Sustainable Fund (the "Fund"). The Fund is a managed investment scheme for which Magellan Asset Management Limited ("MAM") acts as both Responsible Entity and Investment Manager.

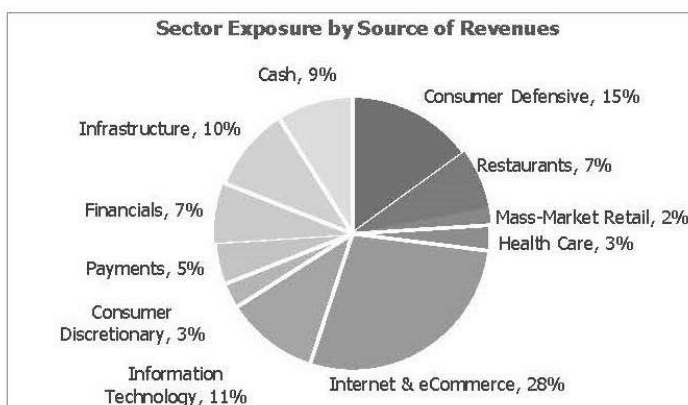

On 15 December 2020 the Fund commenced trading on Chi-X securities exchange (ticker code: MSUF). As at 30 June 2021, the Fund had net assets of \$7.7 million and a net asset value of \$2.7109 per unit after providing for a distribution of 5.0 cents per unit for the period and in addition passed on foreign income tax offsets of 0.0155 cents per unit.

The Fund's portfolio is actively managed by MAM. The Fund seeks to lower carbon risks on its investments and is designed to achieve attractive risk-adjusted returns over the medium to long term for unitholders and preserve capital in adverse markets. To achieve this, the Fund invests in a portfolio of between 20 and 50 high-quality global securities within a framework that considers Environmental, Social and Governance (ESG) risks, and has the ability to manage equity market risk by holding up to 20% of its net assets in cash. Since inception on 11 December 2020 to 30 June 2021, the Fund returned 10.6% net of fees. This compares with the return of the index (MSCI World NTR Index (AUD)) of 15.9% over the same period.

We would encourage you to read our annual investor communication [Magellan InReview 2021](#), published in July each year, which shares a collection of thought-provoking investment perspectives from across the Magellan investment team. You can access InReview 2021 at 2021.magellaninreview.com.au. We would also encourage you to read our monthly and quarterly Fund Reports available on our website www.magellangroup.com.au, which provide valuable insight into the investment strategies and portfolio managers' thoughts.

As at 30 June 2021, the Fund consisted of investments in 28 companies, with the top 10 investments (listed below) representing 47.2% of the Fund. The Fund's cash position was 9% of the portfolio which was predominantly held in US Dollars. The Fund's industry exposure by source of revenues is highlighted below.

Top 10 holdings (as at 30 June 2021)	% of Fund
Microsoft	7.7
Alphabet - class C shares	7.6
Facebook - class A shares	6.7
Netflix	4.0
Alibaba Group Holding	3.9
Reckitt Benckiser Group	3.7
Novartis	3.5
Chipotle Mexican Grill	3.5
Unilever	3.3
Yum! Brands	3.3
Top 10 Total	47.2

Robert Fraser

Chairman

Sydney, 31 August 2021

Responsible Entity's Report

for the period ended 30 June 2021

The Directors of Magellan Asset Management Limited (ABN 31 120 593 946) ("MAM"), the Responsible Entity of Magellan Sustainable Fund (the "Fund" or "MSUF") present their first annual report on the Fund for the period 5 November 2020 to 30 June 2021.

1. Directors

The following persons were Directors of MAM during the period and up to the date of this report:

		Appointed
Robert Fraser	Chairman	23 April 2014
Brett Cairns	Chief Executive Officer	22 January 2007
John Eales	Non-executive Director	1 July 2017
Colette Garnsey	Non-executive Director	30 November 2020
Paul Lewis	Non-executive Director	20 December 2006
Hamish McLennan	Non-executive Director	1 March 2016
Kirsten Morton	Chief Financial Officer	5 October 2018
Karen Phin	Non-executive Director	23 April 2014

2. Principal Activity

The Fund is a registered managed investment scheme domiciled in Australia and quoted on Chi-X Australia Pty Ltd Securities Exchange ("Chi-X") (ticker code: MSUF). It was registered on 5 November 2020 and commenced trading on 15 December 2020. The Fund's principal place of business is Level 36, 25 Martin Place, Sydney, New South Wales 2000.

The Fund primarily invests in securities of companies listed on stock exchanges around the world. The Fund's portfolio will comprise 20 to 50 stocks at any one time but will also have some exposure to cash. The Fund may, from time to time, manage the foreign currency exposures of the Fund arising from investments in overseas markets and may use exchange-traded derivatives, in a limited manner, for risk management purposes. As a temporary measure during unusual economic or market conditions, the Fund may take steps to reduce the Fund's exposure to market risk through the use of futures contracts.

The Fund's investment objectives are to achieve attractive risk-adjusted returns over the medium to long term, while reducing the risk of permanent capital loss, in accordance with its investment strategy (as detailed in the Product Disclosure Statement, issued 3 December 2020). These objectives incorporate consideration of environmental, social and governance risks and the application of a proprietary low carbon framework.

MAM, as Responsible Entity, is responsible for overseeing the operations of the Fund. As the Investment Manager, it is responsible for selecting and managing the assets of the Fund. In addition, the Responsible Entity, on behalf of the Fund, may also provide trading liquidity to investors on the securities exchange by acting as a buyer and seller of units in the Fund. The Responsible Entity has appointed an independent market participant to act as its agent to execute its market making activities.

3. Significant Changes in State of Affairs

There were no significant changes in the state of affairs of the Fund during the period.

Responsible Entity's Report

for the period ended 30 June 2021

4. Review of Financial Results and Operations

4.1. Financial Results for the Period

The performance of the Fund, as represented by the results of its operations for the period 5 November 2020 to 30 June 2021, was as follows:

	5 Nov 2020 to 30 Jun 2021 ¹
Results	
Total net investment income (\$)	769,998
Total expenses (\$)	(59,710)
Profit/(Loss) (\$)	710,288
Distributions	
Distribution paid and payable (\$)	141,138
Distribution paid and payable (CPU) ²	5.00
Unit Price (NAV per unit) (\$)³	2.7109
Chi-X Reported (NAV per unit) (\$)⁴	2.7615

¹ The Fund commenced trading on 15 December 2020.

² Cents Per Unit.

³ The Net Asset Value ("NAV") per unit represents the net assets of the Fund presented in the Statement of Financial Position at 30 June divided by the number of units on issue at 30 June (refer Note 8 of the Financial Statements).

⁴ The NAV per unit reported to Chi-X differs to the NAV per unit at balance date due to distributions payable and fee accruals.

Distribution Components

Distribution components, which can be found in 'Our Funds' section of the MFG website, www.magellangroup.com.au are as follows:

	30 Jun 2021 Final Distribution CPU
Foreign Sourced Income	0.1112
Foreign income tax offsets	0.0155
Capital Gains (NTARP)	
Discounted	-
Other	4.8560
AMIT CGT Gross up	-
Other non-attributable amounts (tax deferred amounts)	0.0328
Attribution amount	5.0155
Tax offsets	
Foreign income tax offsets (FITO) gross up	(0.0155)
Cash Distribution	5.0000

Responsible Entity's Report

for the period ended 30 June 2021

4.2. Total Indirect Cost Ratio

The Total Indirect Cost Ratio ("ICR") is the ratio of the Fund's actual management costs over the average portfolio value expressed as a percentage. Management costs, accrued within the Fund's unit prices on a daily basis, include management and performance fees but do not include transactional and operational costs such as brokerage or foreign withholding tax.

	5 Nov 2020 to 30 Jun 2021 % ¹
Management fee	0.75
Performance fee ²	-
Total Indirect Cost Ratio	0.75

¹ The cost ratio was measured from the date the first unit was issued on 11 December 2020 and to 30 June 2021.

² Performance fees are calculated on six monthly measurement periods ending on 30 June and 31 December of each calendar year. The Performance fees component of the ICR is calculated on an accrual basis for each measurement period.

4.3. Performance Returns

The performance returns, have been calculated using the redemption unit prices for the Fund, which is after fees and expenses, assuming the reinvestment of distributions. The returns are calculated daily, compounded to produce longer period returns.

	5 Nov 2020 to 30 Jun 2021 % ¹
Growth return ²	8.6
Distribution return ³	2.0
Total Return⁴	10.6

¹ Whilst the fund commenced trading on 15 December 2020, the first unit in the Fund was issued on 11 December 2020 and as a result, the performance returns were measured from 11 December 2020 to 30 June 2021.

² The Growth return is calculated daily as a percentage by dividing the unit price (ex-distribution) by the previous day's unit price (ex-distribution) minus 1; the daily Growth returns are then compounded to produce longer period returns.

³ The Distribution return is calculated as a percentage by subtracting the Growth return from the Total Return.

⁴ The Total Return is calculated daily as a percentage by dividing the unit price (cum-distribution) by the previous day's unit price (ex-distribution) minus 1; the daily Total Returns are then compounded to produce longer period returns.

5. Strategy and Future Outlook

The Fund's investment objective is unchanged. The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Therefore, investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The Fund provides daily unit prices, monthly fund updates, quarterly portfolio disclosures and annual investor reports, which can be found in the 'Our Funds' section of the MFG website, www.magellangroup.com.au. Fund updates and investor reports include detailed discussions in relation to some investee companies from time to time along with general outlook commentary.

6. Interest in the Fund

The movement in units on issue in the Fund is disclosed in Note 8 to the Financial Statements.

7. Likely Developments and Expected Results of Operations

The Fund will continue to invest in companies and businesses in accordance with the investment strategy as set out in the PDS.

The method of operating the Fund is not expected to change in the foreseeable future. However the results of the Fund's operations may be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed and past returns should not be used to predict future returns.

Responsible Entity's Report

for the period ended 30 June 2021

8. Subsequent Events

In a release to Chi-X on 3 August 2021, the Fund reported a NAV per unit of \$2.8377 and 2,850,678 units on issue as at 30 July 2021.

Other than the items disclosed throughout this Responsible Entity's Report there have been no matters or circumstances arising after the end of the period that have significantly affected, or may significantly affect, the Fund's operations, the results of its operations, or the Fund's state of affairs in future financial periods. Asset prices move daily and intraday indicative NAV per unit and daily NAV per unit are available on the MFG website and also the Chi-X website.

9. Indemnification and Insurance of Directors and Officers

The Directors and Officers of the Responsible Entity, are insured to the extent permitted by law for losses, liabilities, costs and charges in defending any legal proceedings arising out of their conduct while acting in their capacity of Directors and Officers of the Responsible Entity, other than for conduct involving a wilful breach of duty in relation to the Responsible Entity.

During the period, MAM paid an insurance premium to insure the Directors and Officers of the Responsible Entity. The terms of the contract prohibit the disclosure of the premiums paid.

10. Auditor's Independence Declaration

A copy of the Auditor's Independence Declaration as required under section 307C of the *Corporations Act 2001* is set out on page 8.

This report is made in accordance with a resolution of the Directors of the Responsible Entity.

Robert Fraser

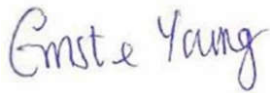

Chairman

Sydney, 31 August 2021

Auditor's Independence Declaration to the Directors of Magellan Asset Management Limited as responsible entity of Magellan Sustainable Fund

As lead auditor for the audit of the financial report of Magellan Sustainable Fund for the financial period ended 30 June 2021, I declare to the best of my knowledge and belief, there have been:

1. no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. no contraventions of any applicable code of professional conduct in relation to the audit.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

Overview

The Fund is a registered managed investment scheme under the *Corporations Act 2001* and quoted on Chi-X Australia Pty Ltd Securities Exchange ("Chi-X") (ticker code: MSUF). The Fund was registered on 5 November 2020 and in accordance with the Fund's Constitution, commenced on the date that the first unit was issued, which was 11 December 2020. The Fund terminates on the day immediately preceding the 80th anniversary of the date of commencement, unless terminated earlier in accordance with the Fund's Constitution.

MAM (ABN 31 120 593 946) is the Responsible Entity of the Fund.

This financial report was authorised for issue by the Directors of the Responsible Entity on 31 August 2021. The Directors have the power to amend and reissue this financial report.

The Fund is considered a for-profit unit trust for the purpose of this financial report.

1. Basis of Preparation

This general purpose financial report is presented in Australian Dollars and has been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards ("AASB") and Interpretations issued by the Australian Accounting Standards Board, other mandatory professional reporting requirements and the Fund's Constitution. The financial report also complies with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board.

The Statement of Financial Position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within 12 months, except for financial assets and liabilities at fair value through profit or loss. These fair value assets and liabilities comprise mainly investments that are managed based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. Consequently, the investments that may be realised within 12 months cannot be determined at balance date.

1.1. Accounting Policies

The accounting policies adopted in the preparation of this financial report are contained within the notes to which they relate. The accounting policies adopted in the preparation of this financial report are consistent with those of the previous financial period except for the adoption of the revised Conceptual Framework ("Conceptual Framework") on 1 July 2020. The Conceptual Framework included amendments to the definition and recognition criteria for assets, liabilities, income and expenses, guidance on measurement and derecognition, and other relevant financial reporting concepts and resulted in no impact on the Fund. The Fund has not early adopted any accounting standard, interpretation or amendment that has been issued but is not yet effective at balance date.

1.2. Foreign Currency Translation

The functional and presentation currency of the Fund is the Australian Dollar, as determined in accordance with AASB 121 *The Effects of Changes in Foreign Exchange Rates*. Transactions denominated in foreign currencies are translated into Australian Dollars at the foreign currency exchange rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to Australian Dollars at the foreign currency closing exchange rate at balance date.

Foreign currency exchange differences arising on translation, and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to Australian Dollars at the foreign currency closing exchange rates at the dates that the values were determined. Foreign currency exchange differences relating to monetary items, including cash and cash equivalents, are presented separately in profit or loss.

1.3. Investment Income

Dividend and Distribution Income

Dividend and distribution income is recognised on the applicable ex-dividend/distribution date gross of withholding tax, which is recorded as an expense in profit or loss. Dividends and distributions received are presented net of withholding tax in the Statement of Cash Flows.

Net Change in Fair Value of Investments

Realised and unrealised gains and losses on investments measured at fair value through profit or loss are recognised in the Statement of Profit or Loss and Comprehensive Income. The net change in fair value does not include dividend and distribution income.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

Interest Income

Interest income is recognised on an accrual basis using the effective interest rate method.

1.4. Expenses

All expenses are recognised in profit or loss on an accruals basis.

1.5. Income Tax

On 5 May 2016, the Attribution Managed Investment Trust ("AMIT") regime was established under the *Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016*. The AMIT regime allows Managed Investment Trusts that meet certain requirements to make an irrevocable choice to be an AMIT. The Fund has elected into the AMIT regime from 5 November 2020.

Under current income tax legislation, the Fund is not subject to income tax provided the Fund attributes the entirety of its taxable income to unitholders.

The Fund currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in profit or loss. The benefits of foreign withholding tax paid, and of imputation credits attaching to Australian franked dividends, are passed onto unitholders.

1.6. Goods and Services Tax

The Goods and Services Tax ("GST") incurred on the costs of various services provided to the Fund by third parties, such as custodial services and management fees have been passed onto the Fund. The Fund qualifies for Reduced Input Tax Credits ("RITC") at a rate of 55%- 75% and is also eligible to recover GST on offshore transactions. Management and performance fees and other expenses have been recognised in profit or loss net of the amount of GST recoverable from the Australian Taxation Office. Receivables and payables are stated inclusive of GST. The net amount of GST recoverable from, or payable to, the taxation authority is included in the Statement of Financial Position as a receivable or payable. Cash flows are included in the Statement of Cash Flows on a gross basis.

1.7. Critical Accounting Estimates and Judgements

The preparation of the Fund's financial statements requires the Directors to make judgements, estimates and assumptions that affect the amounts reported in the financial statements. The Directors base their judgements and estimates on historical experience and various other factors they believe to be reasonable under the circumstances, but which are inherently uncertain and unpredictable. As a result, actual results could differ from those estimates.

Where listed equities have no active market the Directors determine fair value with reference to external observable information and conditions existing at balance date. Fair values may however move materially with movements in market prices (refer Note 12). As most investments are valued with reference to the listed quoted prices and the Fund's cash is held with strongly rated financial institutions, the Fund's financial assets are not subject to significant judgement or complexity nor are the Fund's liabilities.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

2. Distributions to Unitholders

Distributions are determined by the Responsible Entity of the Fund and are payable as set out in the Fund's PDS. Distributable income includes capital gains arising from the disposal of financial assets and liabilities. Unrealised gains and losses on financial assets and liabilities that are recognised as income are transferred to unitholders' equity and are not assessable or distributable until realised. Net realised capital losses and tax losses are not distributed to unitholders but are retained to be offset against any realised capital gains and future assessable income respectively.

For the first four semi-annual distributions commencing 30 June 2021, the Responsible Entity intends to pay a Target Cash Distribution ("TCD") of 5.00 cent per unit, equal to 2% of the initial unit price being \$2.50 per unit. Thereafter, the TCD for each period will be determined by using the average of the month-end NAV per unit over a two year rolling period ending on the last business day of the prior distribution period.

Distributions to unitholders are recognised directly in equity and presented in the Statement of Changes in Equity. A distribution payable is recognised in the Statement of Financial Position where the distribution has been declared but remains unpaid at balance date.

Distributions for the period ended 30 June are as follows:

	\$	CPU	Date Paid
Period ended 30 June 2021			
Final distribution payable	141,138	5.00	21 Jul 2021

The Fund did not pay an interim distribution for the period ended 31 December 2020.

The Fund paid total distributions of 5.0 cents per unit for the period and in addition passed on foreign income tax offsets of 0.0155 cents per unit.

Distribution Reinvestment Plan

A Distribution Reinvestment Plan ("DRP") operated for the Fund during the current period. Unitholders may request their distributions to be applied as subscriptions for additional units in the respective Fund at the Issue Price (as defined in the Fund's Constitution). DRP details for the final distributions are as follows:

	30 June 2021 Final Distribution
DRP issue price (\$)	2.7115
DRP unitholder participation rate (%)	15.38
Number of units issued under DRP	2,475
Value of units issued under DRP (\$)	6,711
DRP issue date	21 Jul 2021

3. Cash and Cash Equivalents

	30 Jun 2021 \$
Cash at bank - denominated in Australian Dollars	47,886
Cash at bank - denominated in foreign currency:	
United States Dollars	578,402
British Pounds	11,854
Euro	21,839
Swiss Francs	12,524
Hong Kong Dollars	2,369
Total Cash and Cash Equivalents	674,874

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

Cash comprises cash at bank. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

4. Statement of Cash Flows Reconciliation

	30 Jun 2021
	\$
Reconciliation of Cash Flows from Operating Activities	
Profit/(loss)	710,288
Net changes in fair value of investments	(698,830)
Net (gain)/loss on foreign currency transactions and cash settlements	(4,203)
Net (increase)/decrease in receivables	(14,479)
Net increase/(decrease) in payables	9,245
Net Cash Inflow/(Outflow) from Operating Activities	2,021

5. Receivables

	30 Jun 2021
	\$
Due from brokers - receivable for securities sold	151,968
Dividend and distribution receivable	6,863
Recoverable GST and foreign withholding tax	7,616
Other receivables	525
Total Receivables	166,972

Receivables comprise amounts due from brokers for sales of assets unsettled at balance date, dividends and trust distributions declared but not yet received, and reclaimable taxes. They are recognised and carried at amortised cost using the effective interest rate method and adjusted for changes in foreign exchange rates where applicable. A provision is deducted from receivables for uncollectible amounts based on expected credit losses, if applicable. Expected credit losses are calculated as the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive, discounted at an approximation of the original effective interest rate. The Fund applies the simplified approach for receivables whereby the loss allowance is based on lifetime expected credit losses at each balance date.

At balance date, the Fund's receivables, excluding recoverable GST and foreign withholding tax, were due within 0 to 30 days. Recoverable GST is due within 30 to 90 days. Foreign withholding tax is due within 2 to 4 years depending on the jurisdiction. No amounts are impaired or past due at 30 June 2021.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

6. Investments and Derivatives

The Fund classifies its equity securities and derivatives as financial assets and liabilities at fair value through profit or loss. The Fund discloses the fair value measurements of financial assets and financial liabilities using a three-level fair value hierarchy to reflect the source of valuation inputs used when determining the fair value as follows:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities. The fair value of these securities is based on the closing price for the security as quoted on the relevant exchange.
- Level 2: valuation techniques using observable inputs either directly (as prices) or indirectly (derived from prices). The fair value of derivatives is based on a discounted cash flow analysis using quoted market inputs (spot and forward rates, volatility) adjusted for specific features of the instruments and applied debit and credit valuation adjustments based on the Fund's, or the derivative counterparties' current credit worthiness.
- Level 3: valuation techniques using non-market observable inputs.

	30 Jun 2021 \$
Investments (Level 1)	
Australian listed equity securities	210,264
International listed equity securities:	
United States	5,042,765
Switzerland	531,126
Hong Kong	238,500
United Kingdom	286,861
Germany	252,486
Netherlands	259,979
Italy	155,615
Spain	140,362
Total Investments	7,117,958

The Fund does not hold any level 3 financial assets or liabilities. There have been no transfers between any of the three levels in the hierarchy during the period and the Fund's policy is to recognise transfers into and out of fair value hierarchy levels as at balance date.

Financial assets and liabilities held at fair value through profit or loss are measured initially at fair value, which in the case of the Fund is the transaction price. Brokerage costs are expensed immediately in the profit or loss. Subsequent to initial recognition, all financial assets and liabilities classified at fair value through profit or loss are measured at fair value. Changes in fair value are recognised in profit or loss. The net change in fair value does not include dividend or distribution income.

Purchases and sales are recognised on trade date, being the date the Fund commits to purchase or sell the asset. Financial assets are derecognised when the contractual rights to the cash flows from the assets expire or are transferred. A transfer occurs when substantially all the risks and rewards of ownership are passed to a third party. Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expired.

The fair value of equity securities traded in active markets is based on their quoted market prices at balance date without any deduction for estimated future selling costs. The quoted market price used for securities held by the Fund is the closing price for the security as quoted on the relevant stock exchange. If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange-traded financial instruments, the fair value of the instrument is estimated using valuation techniques including recent arm's length market transactions, reference to the current fair value of other instruments that are substantially the same, discounted cash flow techniques, option pricing models or any other valuation techniques commonly used by market participants.

Derivatives are contracts whose value is derived from one or more underlying price, index or other variable. Derivatives are included in the Statement of Financial Position as an asset when the fair value at balance date is positive and classified as a liability when the fair value at balance date is negative.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

The equity securities, including stock exchange domicile, held by the Fund are:

Company Name	Exchange Listing	30 Jun 2021 Holding	30 Jun 2021 \$
Microsoft	United States	1,658	598,271
Alphabet - Class C	United States	177	590,901
Facebook - Class A	United States	1,132	524,286
Netflix	United States	448	315,202
Alibaba Group	United States	1,020	308,113

7. Payables

	Note	30 Jun 2021 \$
Management fees payable	11	9,245
Due to brokers - payable for securities purchases		156,051
Redemptions payable		1,076
Total Payables		166,372

Payables comprise trade creditors and accrued expenses owing by the Fund at balance date. Amounts due to brokers relating to the purchase of investments are usually settled between two and five days after trade date. Payables and accruals are recognised at amortised cost, using the effective interest rate method, at the point where the Fund becomes obliged to make payments in respect of the purchase of these goods and services.

At balance date, all payables mature in 0 to 90 days.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

8. Unitholders' Equity

	5 Nov 2020 to 30 Jun 2021 No. of Units
Units on Issue	
Opening balance	-
Units issued	2,827,740
Units redeemed	(4,983)
Units on Issue at end of the Period	2,822,757

Entering and exiting the Fund

The Fund commenced trading on Chi-X on 15 December 2020. Investors can enter or exit the Fund via buying/selling units on Chi-X or by applications/withdrawals direct to/from the Responsible Entity. The method of entry into the Fund does not affect the method of exit from the Fund. The entry and exit price received and investment minimums are set out in the Fund's PDSs at www.magellangroup.com.au.

Ordinary Units

Applications received are recorded net of entry fees. Redemptions from the Fund are recorded gross of exit fees. The Fund recognises the units issued, redeemed or switched when settled, which is the trade date.

Each unit confers upon the unitholder an equal interest in the Fund, and is of equal value to other units in the Fund. A unit does not confer upon the holder any interest in any particular asset or investment of the Fund. The rights of unitholders are contained in the Fund's Constitution and include:

- the right to receive a distribution determined in accordance with the provisions of the Fund's Constitution;
- the right to attend and vote at meetings of unitholders;
- the right to participate in the termination and winding up of the Fund; and
- the right to redeem units, subject to restrictions disclosed in the Fund's PDS. Those restrictions may include where trading in units on the securities exchange is suspended for five consecutive business days. In this case, unitholders may apply to the Responsible Entity to make an off-market withdrawal of their investment from the Fund when the Fund is liquid. Where the Fund ceases to be liquid, units may only be withdrawn once an offer is made to all investors in the Fund in accordance with the Fund's Constitution.

There may be other circumstances where off-market withdrawals from the Fund are suspended for up to 28 days, including where:

- it is impracticable for the Responsible Entity, or the Responsible Entity is unable, to calculate the Net Asset Value ("NAV") of the Fund;
- the payment of withdrawal proceeds involves realising a significant portion of the Fund's assets which would, in the Responsible Entity's opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage or diminution of the value of units held;
- the Responsible Entity reasonably considers it would be in the interests of investors, or it is otherwise permitted by law; or
- the Responsible Entity receives withdrawal requests of an aggregate value that in its reasonable estimate exceeds 5% of the Fund's assets.

There are no separate classes of units and each unit in the Fund has the same rights attaching to it as all other units of the Fund.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

9. Earnings per Unit

Basic Earnings Per Unit ("EPU") is calculated as profit/(loss) for the period divided by the weighted average number of units on issue. Diluted earnings per unit is calculated by adjusting the basic earnings per unit to take into account the effect of any changes in income or expense associated with dilutive potential units and the weighted average number of additional ordinary units that would have been outstanding assuming the conversion of all dilutive potential ordinary units.

	30 Jun 2021
Basic EPU	
Profit/(loss) attributable to unitholders (\$)	710,288
Weighted average number of units for basic EPU ¹	2,583,053
Basic EPU (Cents)	27.50
Diluted EPU	
Profit/(loss) attributable to unitholders (\$)	710,288
Weighted average number of units for diluted EPU ¹	2,583,053
Diluted EPU (Cents)	27.50
Earnings Reconciliation	
Profit/(loss) used in the calculation of basic and diluted EPU (\$)	710,288

¹ The weighted average number of units is calculated from 11 December 2020, when the Fund's first unit was allotted, to 30 June 2021.

As the Fund has no potential, dilutive units, basic and diluted EPU are equal. Since the end of the period, the Fund has issued ordinary units under the DRP (refer to Note 2).

10. Net Asset Value per Unit

The NAV per unit represents the net assets of the Fund presented in the Statement of Financial Position at balance date divided by the number of units on issue at balance date (refer Note 8). The NAV per unit at balance date differs from the NAV per unit reported to Chi-X at 30 June 2021 due to distributions payable and fee accruals.

	30 Jun 2021
NAV per unit	2.7109

In a release to Chi-X on 3 August 2021 the Fund reported a NAV per unit of \$2.8377 and 2,850,678 units on issue as at 30 July 2021.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

11. Related Parties

Responsible Entity

The Responsible Entity of the Fund is MAM. MAM is a wholly-owned subsidiary of MFG, the immediate and ultimate parent entity of the Responsible Entity and both are considered to be related parties of the Fund.

Key Management Personnel

Key management personnel ("KMP") are those persons or corporate entities who have authority and responsibility for planning, directing and controlling the activities of the Fund. The Responsible Entity is responsible for managing the activities of the Fund and is considered to be a KMP. The Fund does not employ personnel in its own right.

The Directors of MAM are considered to be KMP. The Directors of MAM during the period and up to the date of this report are: Dr Brett Cairns, Mr John Eales, Mr Robert Fraser, Ms Colette Garnsey, Mr Paul Lewis, Mr Hamish McLennan, Ms Kirsten Morton and Ms Karen Phin. The Fund did not pay any compensation to the Directors of the Responsible Entity.

Responsible Entity Fees

Compensation is paid to the Responsible Entity in the form of fees as follows:

Management Fees

The Responsible Entity is entitled to receive management fees from the Fund for managing the assets and overseeing the operations of the Fund. The management fee is 1.35% per annum of the value of the Fund, calculated daily. The Responsible Entity pays operating expenses of the Fund, such as audit and tax compliance fees, distribution costs, investor reporting, custody and fund administration costs. Management fees are calculated daily based on the Net Asset Value of each Fund (before fees). Management fees are reflected in the daily unit prices of the Fund and are payable at the end of each month.

Performance Fees

Performance fees are calculated on six monthly calculation periods ending on 30 June and 31 December of each year. The Responsible Entity is entitled to 10% of the excess return of Units in the Fund above the higher of the index relative hurdle and the absolute return hurdle over each 6 monthly period ending 31 December and 30 June, subject to exceeding the applicable high watermark and an overall cap. Performance fees crystallise at the end of a calculation period. The first performance fee calculation period was from 11 December 2020 to 30 June 2021. Further details of the performance fees can be found in the Fund's PDS which is available at www.magellangroup.com.au.

Total Management and Performance Fees

The fees paid/payable by the Fund are net of any applicable reduced input tax credits (refer Note 1.6). The management and performance fees paid/payable by the Fund are as follows:

	5 Nov 2020 to 30 Jun 2021 \$
Management fee	49,699
Total Fees Expensed in the Statement of Profit or Loss and Comprehensive Income	49,699
Total Fees Payable in the Statement of Financial Position	9,245

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

Transactions with Related Parties

Number of units held by each KMP, including their personally-related parties, in the Fund for the period ended 30 June is as follows:

		Units Acquired During the Year Number	Units Disposed During the Year Number	Units Held at End of Year Number	Units %	Distribution Paid or Payable \$ ¹
MFG	2021	2,000,000	-	2,000,000	71%	100,000

¹ Represents the final distribution payable for the period, comprising cash paid and DRP units issued.

Transactions between the Fund and related parties are subject to the same terms and conditions as those entered into by other unitholders. Unless specified above, no other KMP held units in the Fund.

12. Capital and Financial Risk Management

Financial Risk Management

The Fund's investment portfolio primarily comprises listed equity investments. The investment objectives of the Fund are to achieve attractive risk-adjusted returns over the medium to long-term, whilst reducing the risk of permanent capital loss, in accordance with its investment strategy (as detailed in the current PDS). The Fund's investing activities expose it to various types of risks including concentration risk, market risk, liquidity risk and credit risk.

Financial risk management is carried out under policies approved by the Responsible Entity. The risk management programme focuses on ensuring compliance with the Fund's PDS and seeks to maximise the returns derived for the level of risk to which the Fund is exposed.

The following disclosures in relation to the various risks of the Fund's portfolio have been based on the Fund's direct holdings.

Concentration Risk

Concentration indicates the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. The Fund holds a concentrated portfolio of investments, and the returns of the Fund may be dependent upon the performance of individual companies. The concentrated exposure may lead to increased volatility in the Fund's unit price, and also increases the risk of poor performance. The Fund's concentration risk is managed in accordance with the portfolio risk controls for the Fund, which are approved by MAM's Investment Committee.

Market Risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as equity prices, foreign exchange rates, and interest rates.

Equity Price Risk

Equity price risk is the risk that the fair value of equities decreases as a result of changes in market prices, whether those changes are caused by factors specific to the individual stock or factors affecting all instruments in the market. The size and diversification of the portfolio is sufficient to ensure the Fund's returns are not overly correlated to a single company, industry specific or macroeconomic risk but the returns of the portfolio are not expected to be perfectly correlated to any market or sector index. If equity markets as a whole rise or fall by 5%, the return of the Fund may increase or decrease by different amounts.

For illustrative purposes an increase of 5% in the market price of each of the Fund's investments held at balance date, assuming all other variables remain constant, would have had the following impact on the Fund's profit/(loss) and unitholders' equity.

	30 Jun 2021 \$
Impact on unitholders' equity and profit/(loss)	355,898

A decrease of 5% in the market price of each of the Fund's investments would have had an equal but opposite effect on the Fund's profit/(loss) and unitholders' equity.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

Currency Risk

Currency risk is the risk that the fair value of financial assets and liabilities will fluctuate due to changes in foreign exchange rates. Assets and liabilities that the Fund may typically own and that can be affected by foreign exchange rate fluctuations include equities listed on foreign exchanges, cash, forward foreign currency contracts, outstanding broker settlements, and outstanding receipts of income from foreign companies.

The Fund invests in financial assets denominated in currencies other than the Australian Dollar and is therefore exposed to the risk that the movement in the foreign exchange rates will cause fluctuations in profit or loss. The Fund uses forward foreign currency contracts to mitigate this risk by hedging the underlying exposure to financial assets denominated in currencies other than the Australian Dollar.

Due to daily changes in the fair value of underlying assets, the face value of hedging contracts will not always completely eliminate currency exposure. The appropriateness of the amounts hedged is monitored daily and adjusted if the total net exposure of the Fund to any individual foreign currency is greater than 5% of the net assets of the Fund.

The Fund's total net exposure to fluctuations in foreign currency exchange rates at balance date is:

	30 Jun 2021
	\$
Assets and liabilities denominated in:	
United States Dollars	5,619,190
Euro	837,013
Swiss Francs	546,645
British Pounds	298,715
Hong Kong Dollars	240,869

For illustrative purposes the changes in net assets attributable to unitholders that would arise from a 5% increase or decrease in the Australian Dollar, at balance date, relative to each currency to which the Fund is exposed (based on assets and liabilities) are as follows:

	30 Jun 2021	
	5% increase A\$	5% decrease A\$
Assets and liabilities denominated in:		
United States Dollars	(267,580)	295,747
Euro	(39,858)	44,053
Swiss Francs	(26,031)	28,771
British Pounds	(14,225)	15,722
Hong Kong Dollars	(11,470)	12,677

Interest Rate Risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market interest rates. The primary exposure to interest rates arises on cash balances held by the Fund, which are all held in floating interest rate accounts. Based on the Australian and US Dollar cash balances held by the Fund, an increase of 10 basis points in floating interest rates, assuming all other variables remain constant, would have the following impact on the Fund's net operating profit and unitholders' equity at balance date:

	30 Jun 2021
	\$
Australian Dollar cash balances	48
United States Dollars cash balances	578

A decrease of 10 basis points in floating interest rates would have an equal but opposite effect on interest income earned. The level of cash held by the Fund may vary from time to time, depending on the level of recent capital flows into and out of the Fund, and on the Responsible Entity's judgement. The cash balances held by the Fund as at balance date may therefore not be typical of the amounts of cash generally held by the Fund.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

The Fund does not hold other significant cash balances exposed to interest rates in other currencies. In addition the Fund did not have any borrowings or other financial liabilities or assets with direct exposure to changes in interest rates.

Market Making Risk

The Responsible Entity, on behalf of the Fund, may provide liquidity to investors on the securities exchange by acting as a buyer and seller of units in the Fund. At the end of each Business Day, the Responsible Entity, on behalf of the Fund, may create or cancel units by applying for or redeeming its net position in units bought or sold on the securities exchange. The Responsible Entity has appointed an independent market participant to act as its agent to transact and facilitate settlement on its behalf. Market making risk comprises:

- the risk that the market making agent makes an error in executing the Fund's market making services. If the market making agent does not fulfil its settlement processing obligations in a correct and timely manner, the Fund could suffer a loss; and
- the risk of an error in the execution of market making activities, or in the price at which units are transacted on the securities exchange. As many overseas stock exchange markets in which the Fund invests are closed during the securities exchange trading day, it is not possible for the Responsible Entity to hedge the Fund's market making activities. This may result in either a cost or a benefit to the Fund.

In order to mitigate this risk, the Responsible Entity, on behalf of the Fund, has the discretion to increase the spread at which it makes a market and also has the right to cease making a market subject to its obligations under the securities exchange operating rules.

Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities on the due date or will be forced to sell financial assets at a value which is less than they are worth.

This risk is managed by the Fund maintaining sufficient cash reserves to meet its normal operating requirements and holding investments that are traded in active markets and can be readily disposed. The majority of the Fund's listed securities are considered readily realisable as they are listed on stock exchanges around the world.

In addition, the Fund's Constitution and PDS allow the Responsible Entity to suspend capital withdrawals from the Fund for up to 28 days, at its discretion, if withdrawal requests would require the disposal of 5% or more of the Trust Property of the Fund, the payment of withdrawals would disadvantage remaining unitholders by imposing a disproportionate share of capital gains tax liabilities, or if the Responsible Entity reasonably considers it to be in the interests of remaining unitholders of the Fund.

At balance date, the Fund had an obligation to settle payables (including distribution payable) of \$307,510 maturing in less than one month. The Fund had cash and receivables totalling \$841,846 to cover these liabilities.

Credit Risk

Credit risk represents the loss that would be recognised if counterparties failed to perform as contracted. Market prices generally incorporate credit assessments into valuations and risk of loss is implicitly provided for in the carrying value of financial assets and liabilities when valued at fair value.

The Fund minimises concentrations of credit risk by undertaking transactions with numerous reputable brokers, and by ensuring cash balances are held with and managed by counterparties that are reputable financial intermediaries with acceptable credit ratings determined by a recognised rating agency. In addition, the credit rating and financial positions of the brokers used by the Fund are regularly monitored to further mitigate this risk. Credit risk relating to outstanding settlements is considered small due to the short settlement period involved.

The Responsible Entity has appointed The Northern Trust Company ("NT") as the custodian of the Fund. In acting as custodian, NT is required to comply with the relevant provisions of the Corporations Act 2001, applicable ASIC regulatory guides, legislative instruments and class orders relating to registered managed investment scheme property arrangements with custodians. The credit quality of NT's long-term deposit/debt is rated at balance date, by Standard and Poor's as AA- and by Moody's as Aa2.

At balance date, the Fund's maximum exposure to credit risk is the carrying value of the financial assets recognised in the Statement of Financial Position.

Notes to the Financial Statements

for the period 5 November 2020 to 30 June 2021

13. Segment Information

An operating segment is a distinguishable component of the Fund that is engaged in business activity from which the Fund earns revenues and incurs expenses, whose operating results are regularly reviewed by the Fund's chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance, and for which discrete financial information is available. The chief operating decision maker has been determined as Dr Brett Cairns.

The Fund's investments are managed on a single portfolio basis and in one business segment being equity investment, as well as in one geographic segment being Australia. The Fund continues to have foreign exposures as it invests in companies which operate internationally.

14. Auditor's Remuneration

The following amounts were paid or payable by the Responsible Entity on behalf of the Fund for services provided by the auditor of the Fund, Ernst & Young Australia:

	30 Jun 2021
	\$
Fees for audit and review of statutory financial reports	19,400
Fees for audit related assurance services ¹	1,267
Fees for other services:	
Taxation compliance services ²	7,700
Total Auditor's Remuneration	28,367
% of non-audit fees paid to auditor	31.6%

¹ Comprises review of ICR calculations.

² Comprises review of income tax returns and distribution calculations.

Auditor Tenure

Since 2008, Ernst & Young have been appointed as external auditor of the Funds where MAM is a Responsible Entity or Trustee. The external audit was last put out to tender in 2018, which aligned to the auditor's 10 year anniversary, and Ernst & Young was reappointed auditor as it scored highest across all requirements and the Board of the Responsible Entity was satisfied that appropriate safeguards were in place to ensure the required independence of Ernst & Young. The next audit tender will take place within 10 years of their appointment. Ms Clare Sporle has served as lead audit partner since August 2019. In accordance with the *Corporations Act 2001* the next rotation of the lead audit partner is planned to occur after the completion of the 30 June 2024 financial year audit.

15. Contingent Assets, Contingent Liabilities and Commitments

At balance date the Fund has no contingent assets, contingent liabilities or commitments.

16. Subsequent Events

Other than the items disclosed throughout this financial report there have been no matters or circumstances arising after the end of the period that have significantly affected, or may significantly affect, the Fund's operations, the results of its operations, or the Fund's state of affairs in future financial periods. Asset prices move daily and intraday indicative NAV per unit and daily NAV per unit are available on the MFG website and also the Chi-X website.

Directors' Declaration

for the period 5 November 2020 to 30 June 2021

In the Directors' opinion,

- a. the financial statements and notes on pages 9 to 25 are in accordance with the *Corporations Act 2001*, including:
 - i. giving a true and fair view of the financial position of the Fund as at 30 June 2021 and of its performance as represented by the results of its operations and cash flows for the period ended on that date; and
 - ii. complying with Australian Accounting Standards, the *Corporations Regulations 2001*, International Financial Reporting Standards as disclosed in Note 1 and other mandatory professional reporting requirements; and
- b. there are reasonable grounds to believe that the Fund will be able to pay its debts as and when they become due and payable.

This declaration has been made after receiving the declarations required to be made to the Directors in accordance with section 295A of the Corporations Act 2001 for the year ended 30 June 2021.

Signed in accordance with a resolution of the Directors of the Responsible Entity.

Robert Fraser

Chairman

Sydney, 31 August 2021

Independent Auditor's Report to the members of Magellan Sustainable Fund

Report on the audit of the financial report

Opinion

We have audited the financial report of Magellan Sustainable Fund (the Scheme), which comprises the statement of financial position as at 30 June 2021, the statement of profit or loss and comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Magellan Sustainable Fund is in accordance with the *Corporations Act 2001* including:

1. giving a true and fair view of the Scheme's financial position as at 30 June 2021 and of its financial performance for the year ended on that date; and
2. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Scheme in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES110 *Code of Ethics for Professional Accountants* (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial report. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial report.

1. Investment existence and valuation

Why significant

The Scheme has a significant investment portfolio consisting of listed equities. As at 30 June 2021, the fair value of these investments were 89.4% of the total assets of the Scheme.

As detailed in the Scheme's accounting policy, described in Note 6 of the financial report, these financial assets are recognised at fair value through profit or loss in accordance with Australian Accounting Standards.

Pricing, exchange rates and other market drivers can have a significant impact on the value of these financial assets and the financial report. Accordingly, existence and valuation of the investment portfolio was considered a key audit matter.

How our audit addressed the key audit matter

We assessed the effectiveness of the controls relating to the recognition and valuation of investments.

We obtained and considered the assurance report on the controls of the Scheme's administrator in relation to Fund Administration Services for the year ended 30 June 2021 and considered the auditor's qualifications and objectivity and the results of their procedures.

We agreed all investment holdings, including cash accounts, to third party confirmations as at 30 June 2021. We assessed the fair value of all listed investments in the portfolio held at 30 June 2021 by comparing to independently sourced market prices.

We assessed the adequacy of the disclosures in Note 6 and 12 of the financial report in accordance with the requirements of Australian Accounting Standards.

Information other than the financial report and auditor's report

The directors are responsible for the other information. The other information comprises the information included in Scheme's 2021 Annual Report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Scheme's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Scheme or cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Scheme's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Scheme to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated to the directors, we determine those matters that were of most significance in the audit of the financial report of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
