# Letter from the Chairman

Dear Unitholder,

On 3 August 2020, Magellan Asset Management (**Magellan**) announced a restructure proposal to simplify its global equities retail product offering. The restructure proposal, should it proceed, will have the effect of combining the Magellan Global Equities Fund (**MGE**) and the Magellan Global Trust (**MGG**) with the Magellan Global Fund.

On behalf of the Directors of Magellan, as responsible entity of MGE (**Directors**), I am pleased to provide you with this Explanatory Memorandum which contains details about the restructure proposal and the implications for you as an existing investor in MGE.

## Overview of the Restructure

As a unitholder in MGE, your investment is managed by Magellan in accordance with our flagship global equities strategy that is managed by Hamish Douglass, the co-founder of Magellan and Chief Investment Officer (the **Global Equities Strategy**).

Should the proposed restructure be implemented, your money will continue to be invested in accordance with our Global Equities Strategy, however you will instead be invested in and hold units in the Magellan Global Fund.

The Magellan Global Fund will have two unit classes on issue:

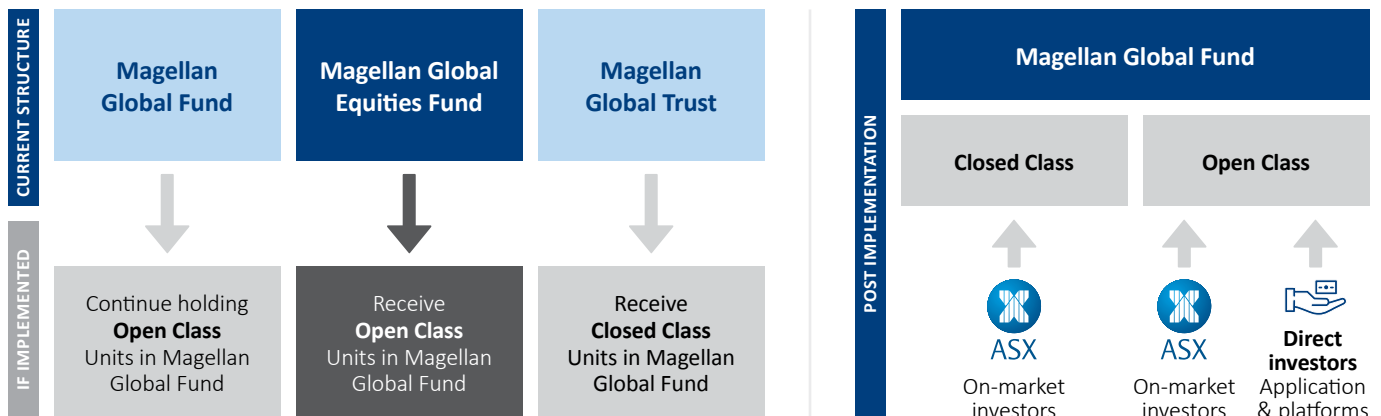

- Open Class Units, which will be quoted on the ASX under the AQUA Rules but will also allow the holders of those units to apply and redeem units directly with Magellan, in its capacity as responsible entity of Magellan Global Fund (**Magellan Global Fund RE**); and
- Closed Class Units, which will be quoted on the ASX under the ASX Listing Rules.

To effect the restructure, Magellan Global Fund is proposing to acquire all of the units in MGE and all the units in MGG by way of two separate but inter-conditional trust schemes.

As a unitholder in MGE, you will receive Open Class Units in exchange for your existing units in MGE, with the exchange ratio based on the respective net asset values on the Effective Date. The Open Class Units will, in many respects, look and feel similar to the units in MGE you hold today. You will continue to be able to trade your investment on the ASX, however you will also gain the ability to apply for or redeem your investment directly with Magellan Global Fund RE. This feature is not currently available to MGE unitholders, other than in limited circumstances.

Separately, unitholders in MGG will be offered Closed Class Units in exchange for their existing units in MGG. The terms of the Closed Class Units have been designed to substantially replicate the experience of unitholders in MGG today. That is, unitholders in MGG will continue to be able to buy and sell Closed Class Units in the ordinary course on the ASX.

The structure of the Magellan Global Fund following implementation of the restructure is detailed in the following diagram:

## MGF Partnership Offer

Should the restructure proceed, and subject to the necessary regulatory approvals, Magellan Global Fund RE intends to offer all unitholders in the Magellan Global Fund, following implementation of the restructure, the ability to subscribe for new Closed Class Units (**MGF Partnership Offer**). Magellan Global Fund RE expects to launch the MGF Partnership Offer in January 2021.

The subscription price for the new Closed Class Units under the MGF Partnership Offer will be the NAV per Closed Class Unit on the Business Day immediately prior to their allotment. Successful applicants will also receive:

- a valuable benefit in the form of additional Closed Class Units worth 7.5% of their subscription; and
- a MGF Option for each new Closed Class Unit allotted, which will be exercisable into one Closed Class Unit with the exercise price set at a 7.5% discount to the prevailing net asset value of Closed Class Units at the time of exercise. The MGF Options will have a three year term and be exercisable in the period commencing three months following their issue. It is intended that MGF Options will be quoted on ASX.

As part of Magellan Group's partnership approach with investors in Closed Class Units and to minimise dilution, Magellan Group will fund both the 7.5% additional Closed Class Unit partnership benefit and the 7.5% MGF Option exercise price discount.

Further details of the MGF Partnership Offer are outlined in Section 7.24.

# Letter from the Chairman

## MGE Trust Scheme and Magellan Directors' Recommendation

As noted above, the restructure will involve the acquisition of all of the units in MGE by Magellan Global Fund RE in exchange for Open Class Units by way of a trust scheme (the **MGE Trust Scheme**). It is the MGE Trust Scheme that is the subject of this Explanatory Memorandum and on which MGE Unitholders are being asked to vote at a virtual Meeting proposed to be held at 10.30am (Sydney time) on 25 November 2020.

The Notice of Meeting contained in Schedule 1 provides further details about how to vote and the arrangements for the virtual Meeting.

The Directors unanimously recommend that MGE Unitholders vote in favour of the MGE Trust Scheme in the absence of a Superior Proposal. Each Director intends to vote all MGE units held or controlled by them in favour of the MGE Trust Scheme.

The Directors believe that the restructure will provide a range of meaningful benefits to MGE unitholders, including:

- greater flexibility in how you enter and exit your investment;
- the potential for greater efficiency in ASX trading of your Open Class Units; and
- the opportunity to participate in Magellan Group “partnership benefits” including the MGF Partnership Offer.

Section 3.4 of this Explanatory Memorandum provides a further explanation of the key benefits, disadvantages and risks for the MGE Trust Scheme.

When considering the recommendation of Directors, MGE Unitholders should note that Dr. Brett Cairns' (CEO of the Magellan Group and director of MGE RE) annual short-term incentive payment takes into account, amongst a range of criteria, the delivery of key strategic projects, such as the restructure. The implementation of the restructure may contribute to the total annual short-term incentive payable to Dr. Cairns for the 2021 financial year. The maximum amount payable to Dr. Cairns, should he satisfactorily achieve all of the conditions governing the payment of his short term incentives, as a result of the delivery of key strategic projects including implementation of the restructure, is \$193,125. This matter and other interests of the MGE RE directors in relation to the restructure are set out in Sections 12.1 and 12.2. Dr. Cairns considers that, despite these arrangements, it is appropriate for him to make a recommendation on the restructure. The MGE RE Board (excluding Dr. Cairns) also considers that it is appropriate for him to make a recommendation on the MGE Trust Scheme given his role in the operation and management of MGE and his deep industry knowledge.

The MGE Trust Scheme and restructure are subject to a number of conditions, including approvals by unitholders in MGE, Magellan Global Fund and MGG, regulatory approvals (including ASX quotation) and receipt of judicial advice from the Court.

## Independent Expert's Opinion

The Directors have appointed Lonergan Edwards & Associates Limited as the Independent Expert to provide an opinion on the MGE Trust Scheme (set out in Schedule 2).

The Independent Expert has concluded that the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders in the absence of a Superior Proposal.

## Conclusion

If, after reading this Explanatory Memorandum, you have any questions regarding the restructure or the MGE Trust Scheme, please call the MGE Unitholder Information Line on +61 1800 206 847, between 7.00am and 8.00pm Monday to Friday (Sydney time), or consult your legal, investment or other professional adviser.

I look forward to your participation at the Meeting on 25 November 2020 and encourage you to vote in favour of the MGE Trust Scheme.

Yours sincerely

**Robert Fraser**  
Chairman

**Magellan Asset Management Limited**  
as responsible entity of Magellan Global Equities Fund

<b>The Restructure</b>		
<b>1 What is the Restructure?</b>	<p>The Restructure is a proposed series of transactions which will have the effect of consolidating three of Magellan’s existing global equities retail funds, being the Magellan Global Fund, MGE and MGG into a single trust (the Magellan Global Fund) which has two unit classes: an Open Class and a Closed Class.</p> <p>There are three key components to the Restructure:</p> <ul style="list-style-type: none"> <li>– Amendments to the Magellan Global Fund constitution to enable it to offer Closed Class Units and Open Class Units (the <b>MGF Constitutional Amendments</b>);</li> <li>– The acquisition of units in MGE by Magellan Global Fund RE in exchange for Open Class Units of Magellan Global Fund by way of a trust scheme (the <b>MGE Trust Scheme</b>); and</li> <li>– The acquisition of units in MGG by Magellan Global Fund RE in exchange for Closed Class Units of Magellan Global Fund by way of a trust scheme (the <b>MGG Trust Scheme</b>),</li> </ul> <p>(together, the <b>Restructure</b>).</p> <p>If the Restructure is implemented, on an indicative basis having regard to funds under management as at 30 September 2020, the restructured Magellan Global Fund would have approximately \$16.0 billion of assets.</p>	Section 3
<b>2 Why is the Restructure being undertaken?</b>	The Directors of the MGE RE believe that the Restructure will deliver a number of benefits to MGE Unitholders and simplify Magellan’s Global Equities Strategy retail product offering.	Section 3.4
<b>3 What are the benefits of the MGE Trust Scheme?</b>	<p>The Directors of MGE RE consider that the MGE Trust Scheme offers a number of benefits to MGE Unitholders, including:</p> <ul style="list-style-type: none"> <li>– Greater choice in how to invest in open-ended units;</li> <li>– Greater efficiency in ASX trading of Open Class Units; and</li> <li>– The opportunity to participate in Magellan Group “partnership benefits” including the MGF Partnership Offer.</li> </ul>	Section 3.4
<b>4 What are the potential disadvantages and risks of the MGE Trust Scheme?</b>	<p>While the Directors of MGE RE have recommended that MGE Unitholders vote in favour of the MGE Trust Scheme, there are various disadvantages and risks which MGE Unitholders should consider. <b>5 What will I receive if the MGE Trust Scheme becomes Effective and is implemented?</b>	<p>If the MGE Trust Scheme is implemented, MGE Trust Scheme Participants (being MGE Unitholders other than Ineligible Foreign MGE Unitholders) will receive Open Class Units in Magellan Global Fund.</p> <p>MGE Trust Scheme Participants will receive that number of Open Class Units in Magellan Global Fund that is equal to the Exchange Ratio multiplied by the number of MGE Units that they hold at 7:00pm (Sydney time) on the MGE Trust Scheme Record Date being 1 December 2020.</p> <p>The Exchange Ratio will be calculated as the NAV of MGE per MGE Unit divided by the NAV per Open Class Unit in Magellan Global Fund as at the Effective Date.</p>	Section 3.3

<b>7 What is a Magellan Global Fund Closed Class Unit?</b>	<p>The Closed Class Units are a class of units to be issued by the Magellan Global Fund, subject to the approval of the MGF Constitutional Amendments.</p> <p>Closed Class Units are intended to be quoted on the official list of ASX under the ASX Listing Rules. Closed Class Units are expected to trade under the security code: MGF.</p> <p>Holders of Closed Class Units will have the ability to buy or sell their Closed Class Units on the ASX.</p> <p>Similar to an investment company or investment trust quoted on the official list of ASX, Closed Class Unitholders do not have the ability to apply for or redeem units directly with Magellan Global Fund RE. <b>Independent Expert opinion and the Directors' recommendation</b>		
<b>21 What is the opinion of the Independent Expert?</b>	<p><b>The Independent Expert has concluded that the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders in the absence of a Superior Proposal.</b></p> <p>The reasons why the Independent Expert reached these conclusions are set out in the Independent Expert's Report, a copy of which is included in Schedule 2 of this Explanatory Memorandum. The Directors strongly encourage you to read this report in its entirety.</p>	Independent Expert's Report (Schedule 2)
<b>22 Do the Directors recommend the MGE Trust Scheme?</b>	<p>The Directors consider that the MGE Trust Scheme is in the best interests of MGE Unitholders and the Directors unanimously recommend that MGE Unitholders vote in favour of the MGE Trust Scheme in the absence of a Superior Proposal.</p> <p>In relation to the recommendation of Dr. Brett Cairns (CEO of the Magellan Group and director of MGE RE), MGE Unitholders should have regard to the fact that Dr. Cairns is eligible to receive an annual short-term incentive payment in respect of a financial year. This short-term incentive payment is determined having regard to a range of criteria which the MFG Board, in consultation with Dr. Cairns, will agree each year. Such criteria may include performance metrics relating to the delivery of key strategic projects, such as the Restructure. Accordingly, implementation of the MGE Trust Scheme may contribute to the total short-term incentive payable to Dr. Cairns for the 2021 financial year. The maximum amount payable to Dr. Cairns, should he satisfactorily achieve all of the conditions governing the payment of his short term incentives, as a result of the delivery of key strategic projects including implementation of the Restructure, is \$193,125.</p> <p>MGE Unitholders should have regard to these arrangements when considering Dr. Cairns' recommendation on the MGE Trust Scheme, which appears throughout this Explanatory Memorandum. Dr. Cairns considers that, despite these arrangements, it is appropriate for him to make a recommendation on the MGE Trust Scheme. The MGE RE Board (excluding Dr. Cairns) also considers that it is appropriate for him to make a recommendation on the MGE Trust Scheme given his role in the operation and management of MGE and his deep industry knowledge.</p>	Section 3.5

<b>26 What are the differences between the investment objectives or investment strategy of the Magellan Global Fund and MGE?</b>	<p>There are no differences.</p> <p>Both the Magellan Global Fund and MGE employ the Global Equities Strategy, Magellan's flagship investment strategy which is managed by Magellan's Chief Investment Officer, Hamish Douglass. It offers investors a focused portfolio of outstanding companies that Magellan believes can generate attractive risk-adjusted investment returns over time, while reducing the risk of permanent capital loss.</p> <p>Magellan Global Fund seeks to invest in outstanding companies at attractive prices, while exercising a deep understanding of the macroeconomic environment to manage investment risk.</p>	Sections 7.4 and 8
<b>27 Who is the portfolio manager of Magellan Global Fund?</b>	<p>The lead portfolio manager of the Magellan Global Fund is Hamish Douglass.</p> <p>The co-portfolio manager is Arvid Streimann.</p>	Section 8
<b>28 What are the fees on the Magellan Global Fund and how do these differ to MGE?</b>	<p>The level of Magellan Global Fund fees are the same as MGE. Please refer to Section 10 for a detailed explanation of fees and costs.</p> <p>At the Effective Date, any accrued management fees and any accrued performance fees in Magellan Global Fund and MGE will be crystallised and become payable to Magellan Global Fund RE and MGE RE respectively. The crystallisation of fees and reset of the High Water Mark should not impact the value of your MGE Units or the value of the Open Class Units since the accrued management fee and any accrued performance fee is already included in the NAV per Unit for MGE.</p> <p>A new performance fee Calculation Period will commence after the Effective Date and end on 30 June 2021. The High Water Mark for Magellan Global Fund, MGE, or MGG, whichever is the furthest above the respective fund's NAV per Unit at the Effective Date (in relative terms), will determine the new High Water Mark for Magellan Global Fund Open Class Units.</p>	Section 10
<b>29 What distributions will I receive?</b>	<p>Magellan Global Fund RE intends to target a cash distribution yield of 4% per annum (<b>Target Cash Distribution</b>).</p> <p>For the first four semi-annual distributions following the Restructure, Magellan Global Fund RE intends to pay a Target Cash Distribution per Open Class Unit equal to 2% of the issue price of Open Class Units under the MGE Trust Scheme. This amount will be paid for each six month period ending 30 June 2021, 31 December 2021, 30 June 2022 and 31 December 2022.</p> <p>Due to the timing of the Restructure, MGE RE intends to pay a distribution of 7.38 cents per MGE Unit in respect of the six months ending 31 December 2020. This is expected to be paid to MGE Unitholders in November 2020, prior to the implementation of the MGE Trust Scheme.</p> <p>After 31 December 2022, the Target Cash Distribution will be paid semi-annually based on the average of the month-end NAV per Open Class Unit over a two year rolling period ending on the last Business Day of the prior distribution period.</p> <p>Magellan intends to announce the Target Cash Distribution per Open Class Unit on ASX at the beginning of each semi-annual distribution period.</p> <p>Magellan Global Fund RE retains the discretion to amend the distribution policy of the Magellan Global Fund.</p>	Section 7.10
<b>30 Will the activities of one unit class impact the NAV of the other unit class?</b>	<p>While a Unit will confer on its holder an undivided absolute, vested and indefeasible beneficial interest in Magellan Global Fund as a whole, operationally, the assets and liabilities of Magellan Global Fund will be allocated proportionately between the Closed Class Units and Open Class Units based on their respective net asset values as at the Effective Date. The calculation of the NAV of a unit class will include the impact of transactions specific to that unit class so that they do not impact the NAV per unit of the other unit class. For example, the impact from redemptions of Open Class Units will only impact the NAV of the Open Class and, similarly, the impact from buy-backs of Closed Class Units will only impact the NAV of the Closed Class.</p> <p>As Magellan Global Fund is an AMIT investors will be assessed for tax on the net income and net capital gains generated by Magellan Global Fund that are attributed to them. Magellan Global Fund RE intends to attribute an estimate of net capital gains realised as a result of the transactions specific to a unit class (such as redemptions of Open Class Units and buy-backs of Closed Class Units) to unitholders in the relevant unit class.</p>	Sections 7.9 and 7.12

## 2 Meeting Details and How to Vote

The MGE RE is closely monitoring and responding to the impact of the COVID-19 pandemic in Australia and is following guidance issued by the federal and state governments. In light of government restrictions on meetings in public venues, the Meeting will be held virtually and there will not be a physical meeting where MGE Unitholders can attend.

Under this arrangement, MGE Unitholders will be provided with alternative ways to participate in the Meeting, including the ability to ask questions online.

If it becomes necessary to make further alternative arrangements for the Meeting, MGE Unitholders will be given as much notice as possible. For information on how to vote and participate at the Meeting online, refer to the Notice of Meeting in Schedule 1.

### 2.1 MGE Unitholder Approvals

MGE Unitholders will be asked to consider, and if thought fit, pass the following MGE Trust Scheme Resolutions:

- a) a special resolution for the purposes of section 601GC(1) of the Corporations Act to approve amendments to the MGE Constitution as set out in the Supplemental Deed Poll (the **Constitutional Amendment Resolution**); and
- b) an ordinary resolution for the purposes of Part 2E.1 of the Corporations Act (as modified by Part 5.7C of the Corporations Act) to approve the MGE Trust Scheme (the **Related Party Resolution**).

The MGE Trust Scheme Resolutions are inter-dependent and the MGE Trust Scheme will only proceed if all of the MGE Trust Scheme Resolutions are passed at the Meeting by the requisite majorities.

### 2.2 Required voting majority, eligibility to vote and voting exclusions

#### a) Persons eligible to vote at the Meeting

Subject to the voting exclusions set out in Section 2.2(b) of this Explanatory Memorandum, each MGE Unitholder who is on the MGE Register at the Voting Record Date is entitled to participate and vote at the Meeting either in person (via an online platform), by proxy, by attorney, or in the case of a body corporate, by its corporate representative appointed in accordance with section 253B of the Corporations Act.

In a resolution of MGE determined by poll, each MGE Unitholder present in person (via an online platform) or by proxy, by attorney, or in the case of a body corporate, by its corporate representative appointed in accordance with section 253B of the Corporations Act, has one vote for every dollar of its total interest held in MGE (held via MGE Units). The value of an MGE Unitholder's total interest in MGE will be calculated by reference to the dollar value of their MGE Units based on the last sale price on ASX on the trading day immediately before the day on which the poll is taken.

#### b) Required voting majority

For the MGE Trust Scheme Resolutions to be approved:

- i) The Constitutional Amendment Resolution must be passed by at least 75% of the total number of votes cast on the resolution by MGE Unitholders entitled to vote on the resolution at the Meeting.

##### Voting exclusions

For the purposes of the Constitutional Amendment Resolution, in accordance with section 253E of the Corporations Act, MGE RE and its Associates are not entitled to vote their interests if they have an interest in the resolution other than as a member of MGE.

- ii) The Related Party Resolution must be passed by at least 50% of the total number of votes cast on the resolution by MGE Unitholders entitled to vote on the resolution at the Meeting.

##### Voting exclusions

For the purposes of the Related Party Resolution, in accordance with section 253E of the Corporations Act, MGE RE and its Associates are not entitled to vote their interests if they have an interest in the resolution other than as a member of MGE.

## 2 Meeting Details and How to Vote

### 2.3 How to vote

The Meeting will be held as a virtual meeting using an online platform which will allow MGE Unitholders to vote, ask questions and participate electronically in real-time, rather than attend the meeting at a physical venue. ## 3 Overview of the Restructure

### 3.1 Overview of the Restructure

On 3 August 2020, Magellan announced a restructure proposal to simplify its Global Equities Strategy retail product offering. The Restructure is a proposed series of transactions which will have the effect of consolidating three of Magellan's existing retail funds, being the Magellan Global Fund, MGE and MGG, into a single trust (the **Magellan Global Fund**). Should the Restructure be implemented, the Magellan Global Fund will have two-unit classes on issue: Open Class Units and Closed Class Units.

Both Open Class Units and Closed Class Units provide investors with interests in the same underlying pool of assets in the Magellan Global Fund, however:

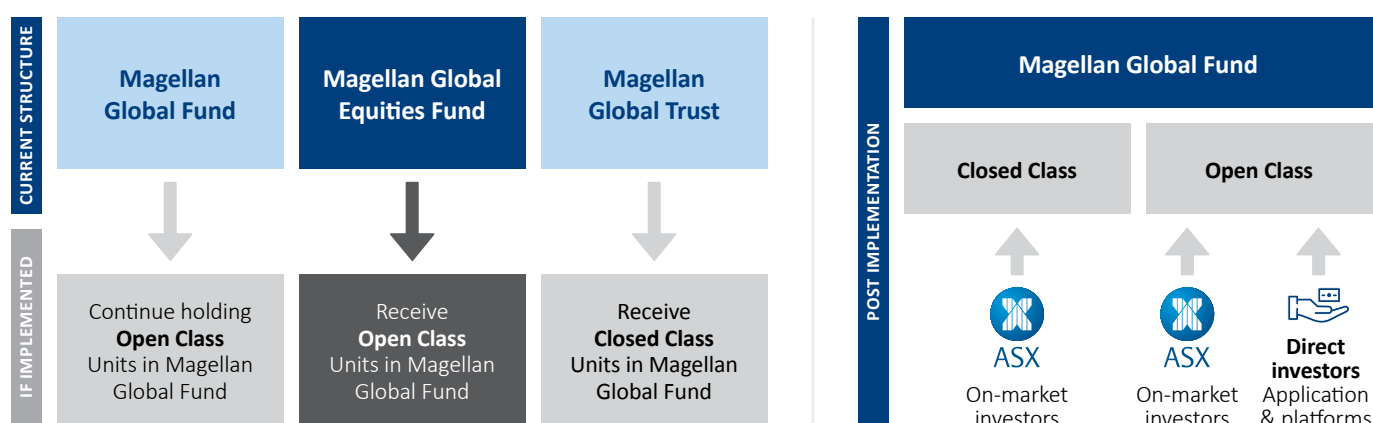

- Open Class Units will be quoted on the ASX under the AQUA Rules and will provide the holders of these units with the ability to buy and sell units on the ASX or apply and redeem their investment directly with Magellan, in its capacity as responsible entity of the trust, on a daily basis; and
- Closed Class Units will be quoted on the ASX under the ASX Listing Rules.

There are three key components to the Restructure:

- Amendments to the Magellan Global Fund Constitution to enable it to offer Open Class Units and Closed Class Units (the **MGF Constitutional Amendments**);
- The acquisition of units in MGE by Magellan Global Fund RE in exchange for Open Class Units in the Magellan Global Fund by way of a trust scheme (the **MGE Trust Scheme**); and
- The acquisition of units in MGG by Magellan Global Fund RE in exchange for Closed Class Units in the Magellan Global Fund by way of a trust scheme (the **MGG Trust Scheme**).

The structure of the Magellan Global Fund following implementation of the Restructure is detailed in the following diagram:

### 3.2 Overview of the MGE Trust Scheme

The MGE Trust Scheme is the proposed acquisition of MGE Unitholders' interests in MGE by Magellan Global Fund in exchange for Open Class Units in the Magellan Global Fund.

It is proposed that all of the units in MGE will be transferred to the Magellan Global Fund by way of a trust scheme facilitated by amendments to the MGE Constitution. MGE Scheme Participants (being MGE Unitholders other than Ineligible Foreign MGE Unitholders) will receive Open Class Units in the Magellan Global Fund. Ineligible Foreign MGE Unitholders will receive cash through the Sale Facility instead of Open Class Units.

This Explanatory Memorandum contains information that is prescribed by law or which the MGE RE Board considers is material to MGE Unitholders in making a decision whether or not to vote in favour of the MGE Trust Scheme.

MGE Unitholders are being asked to consider, and if thought fit, pass the MGE Scheme Resolutions which comprise the Constitutional Amendments Resolution and the Related Party Resolution.

If the MGE Scheme Resolutions are approved by the requisite majorities of MGE Unitholders at the Meeting and the Magellan Global Fund Unitholder Resolutions and the MGG Trust Scheme are also approved, MGE RE will apply to the Court for the Second Judicial Advice (being a confirmation from the Court that MGE RE is, amongst other things, justified in proceeding to implement the MGE Trust Scheme).

The Second Judicial Advice is currently scheduled for 26 November 2020 (the **Second Judicial Advice Date**).

## 3 Overview of the Restructure

### 3.3 Scheme Consideration

If the Restructure (including but not limited to the MGE Trust Scheme) is implemented, MGE Trust Scheme Participants (being MGE Unitholders other than Ineligible Foreign MGE Unitholders) will receive Open Class Units in Magellan Global Fund.

MGE Trust Scheme Participants will receive that number of Open Class Units in Magellan Global Fund that is equal to the Exchange Ratio multiplied by the number of MGE Units that they hold at 7:00pm (Sydney time) on the MGE Trust Scheme Record Date being 1 December 2020.

The Exchange Ratio is calculated as the NAV of MGE per MGE Unit divided by the NAV per Open Class Unit in Magellan Global Fund, each as at the Effective Date.

The number of Open Class Units received by MGE Trust Scheme Participants will be different to the number of MGE Units they hold on the Effective Date as a result of the calculation described above.

By way of example, based on the NAV per MGE Unit of MGE of \$3.9598 and a NAV per Open Class Unit of Magellan Global Fund of \$2.6065 on 30 September 2020, each MGE Unitholder would be issued with approximately 1.5192 Open Class Units for each MGE Unit they hold (rounded to the nearest whole unit). The actual number of Open Class Units that will be issued may be more or less than this depending on the NAV per unit of both MGE and Magellan Global Fund on the Effective Date, subject to rounding to the nearest whole unit.

If the MGE Trust Scheme becomes Effective, Ineligible Foreign MGE Unitholders will not receive Open Class Units and will instead receive cash through the Sale Facility. Further details of the Sale Facility are set out in Section 3.12.

A summary of the key differences between MGE Units and Open Class Units in Magellan Global Fund is provided below.

### 3.4 Summary of the key benefits, risks and disadvantages of the MGE Trust Scheme

The table below provides, in no particular order, a summary of the anticipated benefits of the MGE Trust Scheme, as well as the potential risks and disadvantages.

#### Summary of key benefits of the MGE Trust Scheme

##### Greater choice in how to invest in open-ended units

The Open Class Units in Magellan Global Fund bring together the key characteristics of both an unlisted managed investment scheme which provides unitholders with the ability to apply for and redeem units directly with the Magellan Global Fund RE on a daily basis and an Active ETF which gives unitholders the ability to buy and sell units in the secondary market on ASX. This will not only provide unitholders with greater flexibility in how they enter and exit their investment but also how and where they hold or administer their unitholding.

As a consequence of holding Open Class Units, MGE Unitholders will gain the ability to apply for or redeem Open Class Units directly with the Magellan Global Fund RE. This ability is not currently available to MGE Unitholders, other than in limited circumstances.

##### Greater efficiency in ASX trading of Open Class Units

MGE RE is of the view that secondary market trading in open-ended funds becomes more efficient as the number of unitholders who transact through the ASX increases. This is because, with increased liquidity, it is more likely that trading will occur at prices closer to the prevailing value of the units.

The combination of unitholders in MGE and Magellan Global Fund has the potential to increase the volume of trading that takes place on the ASX. This benefit would not be available to MGE Unitholders within a reasonable timeframe without the MGE Trust Scheme.

##### Magellan Group “partnership benefits” offered to all members

Magellan Group does not currently consider it to be commercially viable to offer partnership benefits to unitholders in open ended vehicles, such as MGE.

However, if the Restructure is implemented, Magellan Global Fund RE intends to provide Magellan Global Fund Unitholders with the opportunity to participate in the MGF Partnership Offer.

The MGF Partnership Offer, outlined in Section 7.24, is expected to be an offer to MGE Trust Scheme Participants to subscribe for Closed Class Units and receive a valuable benefit in the form of additional Closed Class Units worth 7.5% of their subscription. Under the MGF Partnership Offer, subscribers are also expected to receive MGF Options which are exercisable at a 7.5% discount to the prevailing net asset value of Closed Class Units. These benefits will be funded by Magellan Group in accordance with the terms of the MFG Equity Commitment Deed outlined in Section 7.21.

The MFG Equity Commitment Deed will automatically terminate if Magellan Global Fund RE is removed or retires as responsible entity of Magellan Global Fund and is not replaced by a related body corporate of Magellan Group. If that happens, Magellan Group will not be obligated to fund the benefits outlined above. This may act as a disincentive to Magellan Global Fund Unitholders voting to replace Magellan Global Fund RE until Magellan Group has met its obligations under the MFG Equity Commitment Deed.

There is also a risk that Magellan Group will not be able to pay amounts to Magellan Global Fund when they are due. If Magellan Group is unable or not obligated to pay amounts to Magellan Global Fund, the MGF Partnership Offer and MGF Options, when exercised, will be dilutive to Closed Class Unitholders. Magellan Group credit risk is described in more detail in Section 9.4.

Over time, the opportunity may arise for holders of Open Class Units to receive additional partnership benefits, with Magellan Group funding the partnership benefit from its own resources.

## 3 Overview of the Restructure

### 3.4 Summary of the key benefits, risks and disadvantages of the MGE Trust Scheme *continued*

#### Summary of key disadvantages and risks of the MGE Trust Scheme

*These disadvantages and risks are in addition to those described under Magellan Group “partnership benefits” in the table above.*

##### **An MGE Unitholder’s relative voting power and how votes on certain matters may be impacted**

Following implementation of the MGE Trust Scheme, the Magellan Global Fund will be a larger fund compared to MGE on a standalone basis. As a result, an MGE Unitholder’s relative voting power (as a percentage of the total) will be lower than the MGE Unitholder’s present percentage interest in MGE. MGE RE observes that this change in voting power is a feature of any open-ended managed investment scheme, including MGE, and changes in relative voting power already occur for MGE Unitholders on a daily basis as a result of units issued and redeemed in respect of the provision of liquidity on the ASX by MGE RE.

As further explained in Section 7.8, in some cases, holders of Open Class Units and Closed Class Units will be required to vote separately to approve a matter or proposal before it can be implemented. As a result, even if holders of one class supported a resolution by voting in favour of it by the required majority, the resolution would not be approved unless the other class similarly voted in favour.

The Magellan Global Fund Constitution will contain the class rights attached to the Open Class Units and Closed Class Units and the implications for voting, which may be either along class lines or voting as a whole. The Magellan Global Fund Constitution is compliant with the Corporations Act and the ASX Listing Rules and AQUA Rules (each as varied by applicable waivers and exemptions).

The Corporations Act requires that, on a vote of the Magellan Global Fund decided by a poll, each Magellan Global Fund Unitholder will have one vote for each dollar of value of Closed Class Units or Open Class Units held. The value of Closed Class Units and Open Class Units will be determined based on the last sale price on the ASX trading day immediately prior to the day the poll is taken. As the ASX secondary market price of Closed Class Units and Open Class Units may differ, where a vote is taken as a whole, this may have the result of decreasing the relative voting power of the holders of one unit class in Magellan Global Fund compared with the holders of the other unit class.

##### **Borrowing by the Magellan Global Fund may expose holders of a specific unit class to cross-collateralisation default risk**

Holders of Open Class Units and Closed Class Units have an interest in the same single pool of assets held by Magellan Global Fund RE on trust for all members. Any creditors of Magellan Global Fund RE may have security over or claims in relation to that single pool of trust assets. Magellan Global Fund RE intends to only borrow where the predominant purpose is expected to benefit all members (including Magellan Global Fund Unitholders).

Further, borrowing is limited to 5% of the gross asset value of each unit class which reduces the ability for one unit class to disproportionately expose the other unit class to cross-collateralisation default risk.

##### **MGE Trust Scheme implementation and execution risk**

MGE Unitholders may be subject to execution risk if the MGE Trust Scheme is approved by MGE Unitholders and is subsequently implemented. There is a risk that there are inadequacies with systems and procedures or the skill of the personnel managing implementation of the MGE Trust Scheme, which could lead to some or all of the expected benefits of the MGE Trust Scheme not being achieved.

### 3.5 Recommendations of the Directors

The Directors of MGE RE unanimously recommend that MGE Unitholders vote in favour of the MGE Trust Scheme in the absence of a Superior Proposal as they consider that the MGE Trust Scheme is in the best interests of the MGE Unitholders and that the benefits of the MGE Trust Scheme outweigh the risks and disadvantages.

In forming its recommendation, the Directors of MGE RE have had regard to:

- the benefits, risks and disadvantages of the MGE Trust Scheme for MGE Unitholders, as set out in Section 3.4 of this Explanatory Memorandum;
- alternative initiatives that may be attractive to MGE Unitholders, as set out in Section 3.7 of this Explanatory Memorandum; and
- the report from the Independent Expert, which concludes that the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders in the absence of a Superior Proposal.

Each Director intends to vote all MGE Units held or controlled by them in favour of the MGE Trust Scheme. The interests of each Director are disclosed in Section 12.1.

In relation to the recommendation of Dr. Brett Cairns (CEO of the Magellan Group and director of MGE RE), MGE Unitholders should have regard to the fact that Dr. Cairns is eligible to receive an annual short-term incentive payment in respect of a financial year. This short-term incentive payment is determined having regard to a range of criteria which the MFG Board, in consultation with Dr. Cairns, will agree each year. Such criteria may include performance metrics relating to the delivery of key strategic projects, such as the Restructure. Accordingly, implementation of the MGE Trust Scheme may contribute to the total short-term incentive payable to Dr. Cairns for the 2021 financial year. The maximum amount payable to Dr. Cairns, should he satisfactorily achieve all of the conditions governing the payment of his short term incentives, as a result of the delivery of key strategic projects including implementation of the Restructure, is \$193,125.

MGE Unitholders should have regard to these arrangements when considering Dr. Cairns’ recommendation on the MGE Trust Scheme, which appears throughout this Explanatory Memorandum. Dr. Cairns considers that, despite these arrangements, it is appropriate for him to make a recommendation on the MGE Trust Scheme. The MGE RE Board (excluding Dr. Cairns) also considers that it is appropriate for him to make a recommendation on the MGE Trust Scheme given his role in the operation and management of MGE and his deep industry knowledge.

## 3 Overview of the Restructure

### 3.6 Other considerations for MGE Unitholders in respect of their vote

Notwithstanding the benefits, risks and disadvantages summarised in Section 3.4, there may be other considerations for MGE Unitholders in deciding whether or not to vote in favour of the MGE Trust Scheme:

a) **You may disagree with the MGE RE Directors' recommendation and the opinion of the Independent Expert that the MGE Trust Scheme is fair and reasonable and in your best interests in the absence of a Superior Proposal.**

Despite the recommendation of the MGE RE Board and the opinion of the Independent Expert that the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders, in the absence of a Superior Proposal, you may believe that the MGE Trust Scheme is not in your best interests or that of other MGE Unitholders.

b) **You may consider that it is in your best interests to maintain your current investment in MGE.**

You may wish to retain your MGE Units as you may want to preserve your investment with the specific characteristics of MGE as a registered managed investment scheme.

c) **You may believe that there is the potential for a Superior Proposal to be made in the future.**

You may believe that there is a potential for a Superior Proposal to be made in the future. Since the execution of the Implementation Deed and as at the date of this Explanatory Memorandum, no Superior Proposal has been received by the MGE RE Board.

### 3.7 Alternatives to the MGE Trust Scheme

MGE RE considered the alternatives to the MGE Trust Scheme, specifically:

- a) amending the MGE Constitution to allow applications and redemptions directly with the MGE RE;
- b) whether an alternative transaction could be pursued with MGF involving the acquisition of MGE but no acquisition of MGG; and
- c) not undertaking the MGE Trust Scheme and retaining the status quo,

but determined that it would deny some or all of the benefits that MGE RE expects the MGE Trust Scheme to bring. The MGE RE Board considers the MGE Trust Scheme to be superior to the alternatives considered and that the MGE Trust Scheme is in the best interests of MGE Unitholders.

### 3.8 Independent Expert's conclusion

The MGE RE Board appointed the Independent Expert to prepare the Independent Expert's Report to opine on whether the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders.

The Independent Expert has concluded that the MGE Trust Scheme is fair and reasonable and in the best interests of MGE Unitholders in the absence of a Superior Proposal.

The reasons why the Independent Expert reached these conclusions are set out in the Independent Expert's Report, a copy which is included in Schedule 2 of this Explanatory Memorandum, and the Directors strongly encourage you to read this report in its entirety.

### 3.9 Conditions Precedent

The MGE Trust Scheme is subject to a number of Conditions Precedent as set out in the Implementation Deed, including:

- a) All regulatory approvals required to implement the Restructure are granted or obtained;
- b) Magellan Global Fund Unitholders approve the Magellan Global Fund Unitholder Resolutions by the requisite majorities;
- c) MGG unitholders approve the MGG Trust Scheme Resolutions by the requisite majorities;
- d) No government or Governmental Agency action prohibits, materially restricts, makes illegal or restrains the completion of the Restructure;
- e) No prescribed occurrence occurs (including insolvency, change in responsible entity, delisting, deregistration as a managed investment scheme under Chapter 5C of the Corporations Act) with respect to MGE;
- f) The Court provides the Second Judicial Advice in respect of the MGE Trust Scheme;
- g) The Court provides the second judicial advice to Magellan Global Fund RE in respect of the Restructure;
- h) ASX approves the admission of the Magellan Global Fund to the official list of ASX and the official quotation of the Closed Class Units; and
- i) ASX approves the admission to Trading Status of the Open Class Units.

Further details regarding the Conditions Precedent and their status are set out in Section 12.7 of this Explanatory Memorandum.

## 3 Overview of the Restructure

### 3.10 Tax Implications of the MGE Trust Scheme

For detailed tax implications of the MGE Trust Scheme, refer to the Taxation Report in Section 11 of this Explanatory Memorandum which sets out the general Australian taxation implications for MGE Unitholders in respect of the MGE Trust Scheme.

### 3.11 Implications if MGE Trust Scheme not approved

If the MGE Trust Scheme is not approved, or any other Conditions Precedent are not satisfied or waived (if applicable), and the MGE Trust Scheme does not proceed:

- a) MGE Unitholders will not receive Open Class Units;
- b) MGE Unitholders will retain their MGE Units;
- c) MGE will remain as a registered managed investment scheme quoted under the AQUA rules and will continue to be managed by Magellan; and
- d) MGE Unitholders will not have the opportunity to participate in the MGF Partnership Offer.

Any one-off transaction costs that have already been incurred or will be incurred will be paid by Magellan Group (and will not be paid from the assets of MGE) regardless of whether or not the MGE Trust Scheme is implemented.

### 3.12 Ineligible Foreign MGE Unitholders

Ineligible Foreign MGE Unitholders will not be issued Open Class Units and will automatically participate in the Sale Facility. The Open Class Units to which Ineligible Foreign MGE Unitholders would otherwise be entitled will be issued to the Sale Nominee to be disposed of on behalf of the Ineligible Foreign MGE Unitholders, and the proceeds of the sale (net of transaction costs) will be paid to the Ineligible Foreign MGE Unitholders. Please refer to Section 4.10 for more details on the treatment of Ineligible Foreign MGE Unitholders.

### 3.13 Nominees and custodians

Nominees and custodians that hold one or more parcels of MGE Units will treat each parcel as though it was held by a separate MGE Trust Scheme Participant for the purposes of calculating the Scheme Consideration. For further information please contact the MGE Unitholder Information Line on +61 1800 206 847.

### 3.14 Court approval

If the MGE Trust Scheme Resolutions are approved by the requisite majorities of MGE Unitholders at the Meeting and the Magellan Global Fund Unitholder Resolutions and the MGG Trust Scheme and associated related party resolution are also approved, MGE RE will apply to the Court for the Second Judicial Advice in respect of the MGE Trust Scheme.

See the 'Important Notices & Disclaimer' section of this Explanatory Memorandum for further information.

### 3.15 No brokerage or stamp duty

If you subsequently sell your Open Class Units, brokerage may be payable to your executing stockbroker or financial adviser.

## 4 Implementation of the MGE Trust Scheme

### 4.1 Implementation Deed

On 2 August 2020, MGE RE and the Magellan Global Fund RE entered into an Implementation Deed in relation to the MGE Trust Scheme under which MGE RE agreed to put the MGE Trust Scheme Resolutions to MGE Unitholders at the Meeting. The implementation of the MGE Trust Scheme is subject to a number of Conditions Precedent which are summarised in Sections 3.9 and 12.7 of this Explanatory Memorandum. The MGE Trust Scheme will not proceed unless all of these conditions are satisfied or waived (if applicable) in accordance with the Implementation Deed.

MGE RE and the Magellan Global Fund RE have agreed to use best endeavours to satisfy, or procure the satisfaction of, the Conditions Precedent.

### 4.2 Deed Poll

On 14 October 2020, Magellan Global Fund RE executed the Deed Poll, pursuant to which Magellan Global Fund RE has agreed, in favour of all MGE Unitholders, to fulfil all obligations contemplated of Magellan Global Fund RE under the MGE Trust Scheme, including the obligation to issue Open Class Units to MGE Trust Scheme Participants and the Sale Nominee, subject to the MGE Trust Scheme becoming Effective.

### 4.3 Steps to implement the MGE Trust Scheme and Restructure

The implementation of the Restructure (including the MGE Trust Scheme) involves five steps. The Restructure will only be implemented if each of the five steps are completed. The steps are:

- a) Magellan Global Fund will amend the Magellan Global Fund Constitution to enable it to offer Open Class Units and Closed Class Units under the MGE Trust Scheme and the MGG Trust Scheme, respectively;
- b) MGE and MGG will each amend their respective constitutions to facilitate the Restructure;
- c) Magellan Global Fund RE will acquire all MGE Units from MGE Trust Scheme Participants by way of a trust scheme of arrangement in exchange for a number of new Open Class Units in Magellan Global Fund that is equal to the Exchange Ratio multiplied by the number of MGE Units that MGE Trust Scheme Participants hold at 7:00pm (Sydney time) on the MGE Trust Scheme Record Date. Under the terms of the Supplemental Deed Poll, each MGE Trust Scheme Participant will be registered as a holder of Open Class Units before their MGE Units are transferred to Magellan Global Fund RE;
- d) Magellan Global Fund RE will acquire all MGG Units from eligible participants in the MGG Trust Scheme by way of a trust scheme of arrangement in exchange for new Closed Class Units in Magellan Global Fund; and
- e) Magellan Global Fund will be quoted on the ASX, with Open Class Units to be quoted under the AQUA Rules and Closed Class Units to be quoted under the ASX Listing Rules.

### 4.4 Effective Date

The MGE Trust Scheme will, subject to the MGE Trust Scheme Resolutions being passed at the Meeting and receipt of the Second Judicial Advice, become Effective on the Effective Date. Following the Second Judicial Advice hearing, the Supplemental Deed Poll will be lodged with ASIC.

If the MGE Trust Scheme proceeds, MGE Units will be suspended from quotation on the ASX at the close of trading on the Effective Date and this will be the last day that MGE Units will trade on ASX.

### 4.5 Determination of persons entitled to Open Class Units

#### a) MGE Trust Scheme Record Date

Persons who are recorded as MGE Unitholders (other than Ineligible Foreign MGE Unitholders) on the MGE Register on the MGE Trust Scheme Record Date (expected to be 7.00pm on 1 December 2020) will become entitled to Open Class Units in respect of the MGE Units they hold at that time.

Ineligible Foreign MGE Unitholders on the MGE Register on the MGE Trust Scheme Record Date (expected to be 7.00pm on 1 December 2020) will not be able to receive Open Class Units and will instead participate in the Sale Facility as described in Section 4.10.

#### b) Dealings on or prior to the MGE Trust Scheme Record Date

For the purposes of calculating entitlements under the MGE Trust Scheme, any dealing in MGE Units will only be recognised if the transferee is registered in the MGE Register as the holder of the relevant MGE Units by the MGE Trust Scheme Record Date.

Subject to the Corporations Act and the MGE Constitution, MGE RE must register registrable transmission applications or transfers of the kind recognised above which are effected by 7.00pm on the MGE Trust Scheme Record Date.

MGE RE will not accept for registration or recognise for any purpose any transfer or transmission application in respect of MGE Units received after 7.00pm on the MGE Trust Scheme Record Date (other than as contemplated by the MGE Trust Scheme in relation to the transfer of the MGE Units to the Magellan Global Fund RE) or received prior to that time but not in registrable form.

## 4 Implementation of the MGE Trust Scheme

### 4.5 Determination of persons entitled to Open Class Units *continued*

#### c) Dealings after the MGE Trust Scheme Record Date

For the purposes of determining the entitlement to Open Class Units, MGE RE will, until: (i) Open Class Units have been issued to the MGE Trust Scheme Participants and the Sale Nominee; and (ii) the Magellan Global Fund RE has been registered as the holder of the MGE Units, maintain the MGE Register (subject to the comments in Section 4.5(a) of this Explanatory Memorandum) in its form as at the MGE Trust Scheme Record Date. The MGE Register in this form will solely determine entitlements to Open Class Units.

From the MGE Trust Scheme Record Date, except as evidence of entitlement to Open Class Units in respect of the MGE Units relating to that entry, all statements of holding in respect of MGE Units cease to have effect as documents of title in respect of such MGE Units and each entry on the MGE Register will cease to be of any effect.

### 4.6 Issue of Open Class Units

If the MGE Trust Scheme becomes Effective and is implemented:

- a) all of the MGE Units will be transferred to Magellan Global Fund RE, without the need for any further act by an MGE Unitholder, by MGE RE:
  - i) by virtue of its appointment as attorney for each MGE Unitholder, procuring the delivery to MGE RE of a duly completed and executed transfer form on behalf of each MGE Unitholder to transfer all of the MGE Units to Magellan Global Fund RE; and
  - ii) entering the name of Magellan Global Fund RE in the MGE Register as the holder of all of the MGE Units.
- b) MGE Unitholders (other than Ineligible Foreign MGE Unitholders) will receive Open Class Units. Ineligible Foreign MGE Unitholders will be entitled to receive the proceeds from the sale by the Sale Nominee of the new Open Class Units which would otherwise have been issued to them if they have been entitled to participate in the MGE Trust Scheme (see Section 4.10).

### 4.7 Deemed warranty on transfer of MGE Units to Magellan Global Fund RE

Under the changes to the MGE Constitution to be effected through the Supplemental Deed Poll, MGE Unitholders are taken to have warranted to the Magellan Global Fund RE, and have authorised MGE RE to warrant, to the Magellan Global Fund RE, that:

- a) all of their MGE Units (including any rights and entitlements attaching to those securities) will, at the date of transfer to the Magellan Global Fund RE, be fully paid and free from encumbrances; and
- b) they have full power and capacity to sell and to transfer their MGE Units (including any rights and entitlements attaching to those securities) to the Magellan Global Fund RE under the MGE Trust Scheme.

### 4.8 Appointment of MGE RE as attorney and agent for MGE Unitholders

Under the changes to the MGE Constitution to be effected through the Supplemental Deed Poll:

- a) MGE RE will have the power to do all things which it considers are necessary, desirable or reasonably incidental to effect the MGE Trust Scheme, including completing and signing a transfer form for the transfer of MGE Units to Magellan Global Fund RE and completing and signing an application form for Magellan Global Fund Units; and
- b) subject to the issuance of Open Class Units, on and from the Implementation Date until MGE RE registers the Magellan Global Fund RE as the holder of the MGE Units in the MGE Register, each MGE Unitholder irrevocably appoints MGE RE as attorney and agent (and directs MGE RE in such capacity to appoint the Magellan Global Fund RE and each of its directors from time to time, jointly and each of them individually) as its sole proxy, and where applicable, corporate representative, to attend unitholder meetings, exercise the votes attaching to MGE units registered in its name, and sign any unitholder resolution.

## 4 Implementation of the MGE Trust Scheme

### 4.9 Overseas Unitholders

MGE Unitholders who have a registered address in Australia, New Zealand, Hong Kong or Singapore will be eligible to receive Open Class Units. Ineligible Foreign MGE Unitholders will not be eligible to receive Open Class Units.

#### a) New Zealand

##### **IMPORTANT NOTICE FOR NEW ZEALAND INVESTORS.**

This offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act 2001 (Aust) and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

This offer and the content of the offer document are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act 2001 (Aust) and the Corporations Regulations made under that Act set out how the offer must be made.

There are differences in how securities are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to this offer. If you need to make a complaint about this offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian securities is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the securities will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the securities are able to be traded on a financial product market and you wish to trade the securities through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

### 4.9 Overseas Unitholders *continued*

#### c) Singapore

This Explanatory Memorandum and any other document relating to the Restructure or the Open Class Units have not been, and will not be, registered as a prospectus with the Monetary Authority of Singapore and the Restructure is not regulated by any financial supervisory authority under any legislation in Singapore. Accordingly, statutory liabilities in connection with the contents of prospectuses under the Securities and Futures Act, Cap. 289 (the **SFA**) will not apply.

This Explanatory Memorandum and any other document in connection with the offer, sale or distribution, or invitation for subscription, purchase or receipt of Open Class Units may not be offered, sold or distributed, or be made the subject of an invitation for subscription, purchase or receipt, whether directly or indirectly, to persons in Singapore except pursuant to exemptions in Subdivision (4) Division 1, Part XIII of the SFA or otherwise pursuant to, and in accordance with the conditions of, any other applicable provisions of the SFA.

Any offer is not made to you with a view to Open Class Units being subsequently offered for sale to any other party. You are advised to acquaint yourself with the SFA provisions relating to on-sale restrictions in Singapore and comply accordingly.

This Explanatory Memorandum is being furnished to you on a confidential basis and solely for your information and may not be reproduced, disclosed, or distributed to any other person.

Magellan Global Fund RE is not in the business of dealing in securities or hold itself out or purport to hold itself out to be doing so. As such, Magellan Global Fund RE is neither licensed nor exempted from dealing in securities or carrying out any other regulated activities under the SFA or any other applicable legislation in Singapore.

### 4.10 Treatment of Ineligible Foreign MGE Unitholders – Sale Facility

- a) If you are an Ineligible Foreign MGE Unitholder you will not be eligible to receive Open Class Units.
- b) Restrictions in certain foreign countries make it impractical or unlawful for Magellan Global Fund RE to offer, or for MGE Unitholders to receive, Open Class Units in those countries. Accordingly, Magellan Global Fund RE will not issue Open Class Units to Ineligible Foreign MGE Unitholders.
- c) If you are an Ineligible Foreign MGE Unitholder, you must participate in the Sale Facility which operates as follows:
  - i) By the end of the Implementation Date, Magellan Global Fund RE will transfer each Ineligible Foreign MGE Unitholder's MGE Units to the Sale Nominee.
  - ii) Magellan Global Fund RE will issue the aggregate number of Open Class Units to which Ineligible Foreign MGE Unitholders would otherwise have been entitled to the Sale Nominee to be disposed of on behalf of the Ineligible Foreign MGE Unitholders. The proceeds of the sale will be paid to the Ineligible Foreign MGE Unitholders. The sale proceeds will depend upon the market price of the Open Class Units after deduction of any costs, expenses or taxes associated with the sale.
  - iii) The Sale Nominee will be the legal owner of those Open Class Units and will sell the Open Class Units within 20 Business Days after the Implementation Date (the **Ineligible Foreign MGE Unitholder Sale Period**).
  - iv) All Ineligible Foreign MGE Unitholder Open Class Units to be sold by the Sale Nominee will be sold on the ASX.
  - v) The Sale Nominee will seek to achieve the best price on the ASX for the Ineligible Foreign MGE Unitholder Open Class Units that is reasonably obtainable bearing in mind a number of factors, including the prevailing market conditions. None of Magellan Global Fund RE, MGE RE or the Sale Nominee gives any assurance as to the price that will be achieved for the sale of Open Class Units and the sale of the Open Class Units will be at the risk of the Ineligible Foreign MGE Unitholder.
  - vi) The prices at which Ineligible Foreign MGE Unitholder Open Class Units are sold may be adversely affected by the requirement that the sales be conducted within the Ineligible Foreign MGE Unitholder Sale Period.
  - vii) Ineligible Foreign MGE Unitholders will be entitled to receive a cash amount for each Open Class Unit being sold by the Sale Nominee, which is equivalent to an amount equal to the proceeds of sale of all Ineligible Foreign MGE Unitholder Open Class Units sold divided by the total number of Ineligible Foreign MGE Unitholder Open Class Units that are sold by the Sale Nominee.
  - viii) Cash proceeds from the sale of the Ineligible Foreign MGE Unitholder Open Class Units will be dispatched to Ineligible Foreign MGE Unitholders within 5 Business Days after the Ineligible Foreign MGE Unitholder Sale Period to either the bank account nominated by the relevant Ineligible Foreign MGE Unitholder to the MGE Registry for the payment of distributions, or by cheque posted to its address shown on the MGE Registry as at the Record Date.
- d) Ineligible Foreign MGE Unitholders who are required to participate in the Sale Facility should note that the sale proceeds resulting from the Sale Facility is not fixed and is dependent on fluctuations in the trading price of Open Class Units. The cash amount Ineligible Foreign MGE Unitholders will ultimately receive under the Sale Facility may be lower than the issue price of the Open Class Units on the Implementation Date.
- e) As noted in Section 12.12, MGE RE has applied to ASIC for relief in respect of certain provisions of the Corporations Act to enable Ineligible Foreign MGE Unitholders to be treated in the manner set out in this Section 4.10.

## 4 Implementation of the MGE Trust Scheme

### 4.11 Delisting MGE

MGE RE will apply for removal of MGE Units from Trading Status on ASX, with effect after the Effective Date.

### 4.12 Trading in Magellan Global Fund Units

Subject to ASX admitting Magellan Global Fund to the official list of ASX and approving the quotation of Open Class Units and Closed Class Units, these units will commence trading on ASX on a deferred settlement basis on the first Business Day following the Effective Date.

Normal trading of the units on a T+2 settlement basis is expected to commence on the Business Day following the Implementation Date. All units traded during the Deferred Settlement trading period will settle on the same date as units traded on the first day of normal trading in units, being two Business Days after the commencement of normal trading.

MGE Unitholders should note that their Magellan Global Fund Open Class Units will not be issued to them until the Implementation Date. MGE Unitholders who sell Open Class Units prior to the Implementation Date will be exposed to the risk that they will not be able to settle their trade on the settlement date if they have made an error in calculating the number of new Open Class Units that will be issued to them on the Implementation Date. Also, an investor's stockbroker may not support a sale of Open Class Units during this period. Investors should consult with their stockbroker or financial adviser prior to selling Open Class Units during the deferred settlement trading period.

### 4.13 Deregistration of MGE

MGE RE will apply for deregistration of MGE as a managed investment scheme under Chapter 5C of the Corporations Act following the Implementation Date.

### 4.14 MGE Commitment Deed

MFG has entered into a Commitment Deed with MGE RE whereby MFG covenants in favour of MGE RE to pay the costs and expenses associated with the MGE Trust Scheme (***MGE Commitment Deed***).

MFG has no right to terminate the MGE Commitment Deed. The MGE Commitment Deed will automatically terminate where the Implementation Deed is terminated, if the MGE Trust Scheme does not become Effective by 2 August 2021, or on the retirement or removal of MGE RE as responsible entity of MGE.

## 7 Information about the Magellan Global Fund

### 7.4 Investment strategy

The investment strategy of Magellan Global Fund is the same as the investment strategy of MGE. A summary of the investment strategy is set out in Section 8.

### 7.5 Units in the Magellan Global Fund

If the MGF Constitutional Amendments are approved by Magellan Global Fund unitholders, the Magellan Global Fund will have two unit classes on issue: Open Class Units and Closed Class Units.

Both Open Class Units and Closed Class Units will confer on its holder an undivided absolute, vested and indefeasible beneficial interest in Magellan Global Fund as a whole, subject to Magellan Global Fund's liabilities, not in parts of or single assets. A Magellan Global Fund Unitholder holds a unit in Magellan Global Fund subject to the rights and obligations attaching to that unit.

### 7.6 Capital structure

As at 30 September 2020 the capital structure of Magellan Global Fund is:

Class of units	Number of units on issue
Ordinary (to be renamed Open Class)	4,580,932,860

The number of Units on issue shown above has been rounded to the nearest whole number.

When the Open Class Units and Closed Class Units in Magellan Global Fund are quoted on ASX on or around 30 November 2020, the number of Units on issue at that time will be different to the number of Units on issue as at 30 September 2020 due to applications and redemptions of units in Magellan Global Fund being accepted up to and including the Effective Date. ### 7.9 Valuation, location and custody of assets

The Magellan Global Fund’s NAV is calculated daily using a framework for the valuation of financial instruments that is consistent with current industry practice and regulatory requirements.

The Magellan Global Fund’s NAV is an estimate of the value of the Magellan Global Fund at the close of trading in each market in which the Magellan Global Fund invests. The estimated NAV per Unit for each unit class is the total value of the Magellan Global Fund’s NAV attributable to that unit class divided by the number of units on issue in that class.

The estimated NAV per Unit of each unit class may fluctuate each day as the market value of the Magellan Global Fund’s assets rises or falls. Magellan’s NAV Permitted Discretions Policy provides further information about how the NAV per Unit is calculated. Investors can request a copy of the policy free of charge by contacting Magellan.

## 7 Information about the Magellan Global Fund

### 7.9 Valuation, location and custody of assets *continued*

Operationally, the assets and liabilities of Magellan Global Fund will be allocated proportionally between the Open Class Units and Closed Class Units based on their respective net asset values as at the Effective Date. The calculation of the NAV of a unit class will include the impact of transactions specific to that unit class so that they do not impact the NAV per unit of the other unit class. The estimated NAV per Unit of each unit class will be based on the NAV of each unit class divided by the number of units on issue in the relevant class as at the end of each Business Day.

Northern Trust has been appointed by Magellan Global Fund RE to hold the assets of the Magellan Global Fund under a Master Custody Agreement. As custodian, Northern Trust will safe-keep the assets of the Magellan Global Fund, collect the income of the Magellan Global Fund's assets and act on Magellan Global Fund RE's directions to settle the Magellan Global Fund's trades. Northern Trust does not make investment decisions in respect of the Magellan Global Fund's assets that it holds.

### 7.10 Distribution policy

On 24 September 2020, Magellan Global Fund RE announced a new distribution policy for Magellan Global Fund.

Under the updated distribution policies, Magellan Global Fund RE intends to target, in respect of each unit class, a cash distribution yield of 4% per annum (**Target Cash Distribution**). The Target Cash Distribution in respect of each unit class will be paid semi-annually (for the periods ending 30 June and 31 December of each year), with the actual amount for each period determined by using the average of the month-end NAV per Unit for each unit class over the two year period ending on the last Business Day of the prior distribution period.

As a result of the timing of the MGE Trust Scheme, MGE RE intends to pay the first Target Cash Distribution of 7.38 cents per Unit for the six month period ending 31 December 2020, on 19 November 2020, prior to the implementation of the MGE Trust Scheme. This distribution will be paid on this date irrespective of whether or not the MGE Trust Scheme is implemented.

For the first four semi-annual distributions following the Restructure, Magellan Global Fund RE intends to pay a Target Cash Distribution per Unit for each of the Open and Closed Class equal to 2% of the issue price of Open and Closed Class Units under the MGE Trust Scheme and MGG Trust Scheme respectively. These amounts will be paid for each six month period ending 30 June 2021, 31 December 2021, 30 June 2022 and 31 December 2022.

Magellan intends to announce the Target Cash Distribution per Unit for each of the Open and Closed Class on ASX at the beginning of each semi-annual distribution period. Magellan Global Fund RE expects that the distribution policy will provide Unitholders with greater certainty on the amount of upcoming distributions.

The Magellan Global Fund may distribute a payment out of the capital invested in addition to a distribution of net income or net capital gains or where the Magellan Global Fund has not generated any net income during the income year.

To be eligible to receive a distribution in respect of Magellan Global Fund Units for a distribution period, you must:

- hold that unit on the last day of the distribution period; or
- have purchased (either on-market or off-market) that unit on or before the last day of the distribution period; or
- in the case of Open Class Units, have applied directly with the Responsible Entity using an Application Form for that unit on or before the last day of the distribution period.

You will not be eligible to receive a distribution in respect of a distribution period on a unit you have sold or redeemed on or before the last day of the distribution period. The distribution is not calculated on a pro-rata basis according to the time that Magellan Global Fund Unitholders have held their Units.

Under the AMIT rules, investors will be assessed for tax on the income of the Magellan Global Fund attributed to them. Where the income of the Magellan Global Fund exceeds the Target Cash Distribution, Magellan Global Fund RE may, in a particular year retain or accumulate in the Magellan Global Fund the amount of income of the Magellan Global Fund that exceeds the Target Cash Distributions, in which case the income of the Magellan Global Fund that is attributed to you (and must be included in your income tax return) will be more than the cash distribution paid. The tax cost base of your units will increase to the extent that the income of the Magellan Global Fund attributed to investors exceeds the cash distribution paid. For more information see Section 7.12.

Distributions paid in cash will be paid directly into Magellan Global Fund Unitholders' Australian dollar or New Zealand dollar bank accounts. Magellan Global Fund Unitholders should contact the Unit Registry or, if applicable, their stockbroker or financial adviser to ask how they can provide bank account details.

Magellan Global Fund RE retains the discretion to amend the distribution policy of Magellan Global Fund. The Magellan Global Fund Constitution permits Magellan Global Fund RE to accumulate part or all of the Magellan Global Fund's income in the Magellan Global Fund and / or reinvest part or all of your distribution, subject to the ASX Listing Rules.

### 7.11 Distribution Reinvestment Plan

Magellan Global Fund RE has established a distribution reinvestment plan (**DRP**) in respect of distributions made by each unit class in Magellan Global Fund. In respect of each Target Cash Distribution, Magellan Global Fund RE may elect to offer or not offer the DRP. Under the DRP, Unitholders may elect to have all, or part of their Target Cash Distribution reinvested as additional Units in Magellan Global Fund. The DRP Rules provide detail on the methodology for determining the price at which Magellan Global Fund Units are issued to Magellan Global Fund Unitholders and can be found at [www.magellangroup.com.au](http://www.magellangroup.com.au).

## 7 Information about the Magellan Global Fund

### 7.11 Distribution Reinvestment Plan *continued*

Elections to participate in the DRP in respect of the Target Cash Distribution must be made by the election date announced by Magellan Global Fund RE in respect of each relevant Target Cash Distribution.

MGE Unitholders who have elected to participate in the DRP in respect of their MGE Unitholding will also be taken to have elected to participate in the DRP in respect of the Magellan Global Fund. You will need to update your elections with the MGE Registry if you do not want to participate in DRP.

#### a) Open Class Units DRP

Magellan Global Fund RE intends to offer Open Class Unitholders who elect to participate in the DRP the ability to reinvest all or part of their Target Cash Distribution in additional Open Class Units issued at a price equal to the NAV per Unit of the Open Class Units, as provided in the Magellan Global Fund DRP Rules.

#### b) Closed Class Units DRP

Magellan Global Fund RE intends to offer Closed Class Unitholders who elect to participate in the DRP the ability to reinvest all or part of their Target Cash Distribution in additional Closed Class Units at a price equal to a 7.5% discount to the NAV per Closed Class Unit, as provided in the Magellan Global Fund DRP Rules.

The application, and the extent of, a DRP discount, in respect of any Target Cash Distribution will be at the discretion of Magellan Global Fund RE.

As an additional benefit to Closed Class Unitholders and to ensure that Closed Class Unitholders who elect not to participate in the DRP are not diluted as a result of the discount, the Magellan Group will pay the Magellan Global Fund an amount of consideration equal to the dilutive effect of this discount in accordance with the terms of the MFG DRP Commitment Deed and subject to the approval of MFG of each particular discounted DRP offer.

As a result of the DRP issue price being set with reference to the NAV per Unit of the Closed Class Units, the DRP issue price for Closed Class Unitholders could be at a premium to the trading price of Closed Class Units on ASX.

### 7.12 Taxation

The Magellan Global Fund has elected to become an Attribution Managed Investment Trust (**AMIT**). Accordingly, investors will be subject to tax on the income of the Magellan Global Fund that is attributed to them under the AMIT rules each year ending 30 June. If there is income of the Magellan Global Fund that is not attributed to an investor, the Magellan Global Fund will be subject to tax at the highest marginal rate (plus the Medicare levy) on that non-attributed income. The Magellan Global Fund Constitution permits Magellan Global Fund RE to accumulate part or all of the Magellan Global Fund's income in the Magellan Global Fund and / or reinvest part or all of your distribution, subject to the ASX Listing Rules, in which case the income of the Magellan Global Fund that is attributed to you (and which must be included in your income tax return) will be more than the total cash distribution you receive.

Investors will be assessed for tax on the net income and net capital gains generated by the Magellan Global Fund that is attributed to them under the AMIT rules. Investors will receive a tax statement after the end of each financial year (referred to as an AMIT Member Annual Statement) that will provide them with details of the amounts that have been attributed to them by the Magellan Global Fund to assist them in the preparation of their tax return.

Magellan Global Fund may attribute an estimate of net capital gains generated as a result of redemptions of Open Class Units and buy-backs of Closed Class Units to the unitholders of the relevant class. Net capital gains that are otherwise generated in the ordinary operations of the Magellan Global Fund, including as a result of portfolio management will be attributed between unit classes and unitholders on a proportionate basis.

If the Magellan Global Fund was to incur a tax loss for an income year then the Magellan Global Fund could not attribute that loss to investors. However, subject to the Magellan Global Fund meeting certain conditions, the Magellan Global Fund may be able to recoup such a loss against taxable income of the Magellan Global Fund in subsequent income years.

Depending on an investor's particular circumstances, they may also be liable to pay capital gains tax (or income tax if they hold their units on revenue account) when they withdraw units.

Any Closed Class Units acquired by Magellan Global Fund RE under a buy-back will be immediately cancelled, as required by the Corporations Act. Magellan Global Fund RE will need to obtain Closed Class Unitholder approval for a buy-back and comply with any restrictions in the Corporations Act, ASX Listing Rules and Constitution if it intends to buy back more than 10% of the smallest number of Closed Class Units on issue over the 12 months prior to the buy-back. Units redeemed based on the exit price	3,839.2137	

1. This worked example assumes that your correctly completed withdrawal form was received by the Unit Registry before 2pm (Sydney time) on 30 September 2020.

2. As at 30 September 2020, based on the NAV per Unit of Magellan Global Fund of \$2.6065, adjusted for transaction costs.

#### **b) Restrictions on withdrawals**

No withdrawals or switches, or payment of withdrawal proceeds shall be permitted where the calculation of the NAV of the Open Class Units or withdrawals are suspended. Withdrawals or switches may be suspended for up to 28 days including where:

- i) it is impracticable for the Magellan Global Fund RE, or it is unable, to calculate the NAV of the Open Class Units, for example, because of financial market disruptions or closures;
- ii) redemption would cause Magellan Global Fund RE to breach any applicable law, regulation or obligation;
- iii) the quotation of Units on a securities exchange is suspended, halted or revoked;
- iv) the approval of the Magellan Global Fund RE as an issuer is suspended or revoked;
- v) Magellan Global Fund's investments suspend, delay or restrict the redemption, issue or payment of redemption proceeds (as applicable), or are unable to provide a withdrawal piece;
- vi) the realisation of assets cannot be effected at prices which would be obtained if assets were realised in an orderly fashion over a reasonable period in a stable market;
- vii) the payment of withdrawal proceeds involves realising a significant portion of the Magellan Global Fund's assets which would, in the Magellan Global Fund RE's opinion, result in remaining investors bearing a disproportionate amount of capital gains tax or expenses, or suffering any other disadvantage or diminution of the value of units held;
- viii) Magellan Global Fund RE reasonably considers it would be in the interests of investors, or it is otherwise permitted by law; or
- ix) Magellan Global Fund RE receives withdrawal requests of an aggregate value that in the Magellan Global Fund RE's reasonable estimate exceeds 5% of the Magellan Global Fund's assets.

The withdrawal process, including the calculation of the NAV per Open Class Unit, applies only when the Magellan Global Fund is 'liquid' (within the meaning given to that term in the Corporations Act). Where the Magellan Global Fund ceases to be liquid, Open Class Units may only be withdrawn pursuant to a withdrawal offer made to all investors in the Open Class Units in accordance with the Constitution and the Corporations Act. Magellan Global Fund RE is not obliged to make such offers.

Where withdrawals or switches have been suspended, Open Class Units in the Magellan Global Fund may continue trading on the ASX provided that the Magellan Global Fund continues to comply with the AQUA Rules. If the Magellan Global Fund ceases to comply with the AQUA Rules, the ASX Operator may suspend trading of Open Class Units in the Magellan Global Fund on the ASX.

#### **c) Compulsory redemptions**

Magellan Global Fund RE may redeem some or all of an investor's Open Class Units without asking them in accordance with the Constitution or as permitted by law, upon providing a Magellan Global Fund Unitholder with a minimum of three business days' notice. As an example, this may occur where an investor breaches their obligations to the Magellan Global Fund RE (for example, where the Magellan Global Fund RE believes that the Open Class Units are held in breach of prohibitions contained within the Constitution) or where the Magellan Global Fund RE believes that the Open Class Units are held in circumstances which might result in a violation of an applicable law or regulation. This only applies to Closed Class Units if the Listing Rules or ASX permits the redemption.

#### d) Transfer and conversion of units

An investor's stockbroker will initiate the conversion or transfer of units in the following scenarios:

- i) An investor holds units directly with the Magellan Global Fund (SRN holding on the issuer sponsored sub-register) and wishes to convert or transfer their units to an account with a stockbroker (HIN holding on the CHESS sub-register). An investor will need to provide their stockbroker with their SRN. An investor can only convert or transfer whole units and any partial unit remaining after the conversion or transfer will be cancelled and become property of the Magellan Global Fund.
- ii) An investor holds units in an account with their stockbroker (HIN holding on the CHESS sub-register) and wishes to transfer their units to another HIN or to transfer or convert their units to an account directly with the Magellan Global Fund (SRN holding on the issuer sponsored sub-register).

The Unit Registry handles transfers of units for investors who hold units directly with the Magellan Global Fund (SRN holdings on the issuer sponsored sub-register) and wish to transfer to another existing account or a new account directly with the Magellan Global Fund. Transfer instructions must be made in a form and manner approved by Magellan Global Fund RE. Original standard transfer forms must be mailed to the Unit Registry and cannot be faxed, emailed or photocopied.

### 7.17 Corporate governance

#### a) Corporate governance policies

Responsibility for the Magellan Global Fund's proper corporate governance rests with Magellan Global Fund RE as the responsible entity. The overarching principle is to always act in good faith and in the best interests of Magellan Global Fund Unitholders. Magellan Global Fund RE's duties and obligations in relation to the Magellan Global Fund principally arise from: the Constitution of the Magellan Global Fund; the compliance plan for the Magellan Global Fund; ASX Corporate Governance Council Principles and Recommendations, 4th Edition March 2019 (**ASX Corporate Governance Principles**), regulatory requirements of ASIC and legislative and regulatory requirements of jurisdictions in which the responsible entity operates.

The board of directors of MFG (**MFG Board**), in consultation with management and Magellan Global Fund RE, determine appropriate corporate governance practices, taking into account the matters outlined in the preceding paragraph. Where, after due deliberation, Magellan Global Fund RE's corporate governance practices differ from the ASX Corporate Governance Principles, the Corporate Governance Statement will set out the reasons for the difference.

MFG has established a governance framework for MFG and its subsidiaries, which includes Magellan Global Fund RE, and has its own Corporate Governance Statement, details of which can be found in the Shareholder Centre section on the Magellan Group's website at [www.magellangroup.com.au](http://www.magellangroup.com.au) under "Corporate Governance". Except for limited exceptions as set out in its Corporate Governance Statement, Magellan Group follows all recommendations of the ASX Corporate Governance Principles.

Magellan Global Fund RE has, as far as practicable, adopted the governance framework of MFG being cognisant of its fiduciary duty. The composition of the boards of each of MFG and Magellan Global Fund RE are near identical.

As part of the governance process, the MFG Board and management periodically review Magellan Group's policies and practices to ensure that they meet the requirements of stakeholders and that there is a process of continual improvement in governance standards.

Wherever possible, the corporate governance practices of the Magellan Global Fund follow those of Magellan Group.

The key elements of the Magellan Global Fund's corporate governance framework are set out below. Magellan Global Fund RE has also adopted a number of corporate governance policies to provide reasonable assurance that the Magellan Global Fund is governed efficiently and effectively, and in accordance with its fiduciary duty. The policies are available on Magellan's website at [www.magellangroup.com.au](http://www.magellangroup.com.au).

The corporate governance framework and policies are summarised below:

- i) **Code of Ethics** – The Code of Ethics applies to all Directors and employees of the Magellan Group. The purpose of the Code of Ethics is to:
  - A) communicate the standards of behaviour that the Magellan Group expects of its employees;
  - B) encourage the observance of obligations and standards of conduct to protect and promote the interests of the Magellan Group, its clients, funds under management, shareholders, unitholders and other stakeholders;
  - C) guide employees through the practices thought necessary to maintain confidence in the Magellan Group's integrity; and
  - D) set out the responsibilities and accountabilities of employees to report and investigate reports of unethical practices.All employees of the Magellan Group are required to make an annual declaration confirming their compliance with the Code of Ethics.
- ii) **Continuous Disclosure Policy** – The Continuous Disclosure Policy assists with clear and effective communication with unitholders by ensuring:
  - A) the Magellan Global Fund has in place policies and procedures reasonably designed to comply with its continuous disclosure obligations under the Corporations Act, the ASX Listing Rules and the AQUA Rules;
  - B) the Magellan Global Fund provides Magellan Global Fund Unitholders, together with the market, timely, direct and equal access to information issued by it; and
  - C) information which is not generally available and which may have a material effect on the price or value of the Magellan Global Fund Units is identified and appropriately considered for disclosure to the market.

## 7 Information about the Magellan Global Fund

### 7.17 Corporate governance *continued*

iii) **Unitholder Communications Policy** – The Unitholder Communications Policy describes the procedures in place to provide Magellan Global Fund Unitholders with appropriate information about the Magellan Global Fund and its governance. In summary, the policy outlines:

- A) methods of communication and types of information provided by Magellan Global Fund RE to unitholders about the Magellan Global Fund;
- B) timing of such reports and communication; and
- C) other general information relevant to a Magellan Global Fund Unitholder.

iv) **Risk Management Framework** – The Risk Management Framework (**RMF**) for the Magellan Group is based on the Australian Standard AS ISO 31000:2018 Risk Management – *Guidelines* and Principle 7 of the ASX Corporate Governance Principles. Consideration has also been given to ASIC RG 259: *Risk management systems of responsible entities*.

The compliance program which sets out the policies and procedures that the Magellan Group has adopted to satisfy its regulatory obligations is an integral part of the RMF. The RMF supports a structured and focused approach to identifying, managing and reviewing risk to complement the strategies adopted to achieve the corporate objectives of the Magellan Group.

v) **Trading Policy** – The Trading Policy sets out the circumstances in which the Directors and employees of the Magellan Group and Magellan Global Fund RE may trade in units in the Magellan Global Fund. The Trading Policy prohibits Directors and employees from dealing when they are in possession of price-sensitive information that is not generally available to the market and also imposes restrictions and notification requirements, including blackout periods and the need to obtain pre-trade approval. The Trading Policy aligns to the ASX Listing Rules, relevant guidelines and the ASX Corporate Governance Principles.

#### b) ASX Corporate Governance Principles

The ASX Corporate Governance Council has developed and released the ASX Corporate Governance Principles for Australian listed entities in order to promote investor confidence and to assist entities to meet stakeholder expectations. The ASX Corporate Governance Principles are not prescriptions, but guidelines. However, under the ASX Listing Rules, the Magellan Global Fund is required to provide a statement in conjunction with its annual report disclosing the extent to which it has followed the ASX Corporate Governance Principles in the reporting period. Where the Magellan Global Fund does not follow a recommendation, it must identify the recommendation that is not being followed and give reasons for not following it. Except as set out below, the responsible entity does not anticipate that the Magellan Global Fund will depart from the ASX Corporate Governance Principles; however, it may do so in the future if it considers that such departure would be reasonable.

The Magellan Global Fund has a Corporate Governance Statement which reports against the ASX Corporate Governance Principles, a summary of which is set out below.

i) **Principle 1:** Lay solid foundations for management and oversight

As the Magellan Global Fund is externally managed by Magellan Global Fund RE, Principle 1 is not applicable.

In operating the Magellan Global Fund, Magellan Global Fund RE's overarching principle is always to act in good faith and in the best interests of Magellan Global Fund Unitholders in accordance with its fiduciary duty. The Directors of Magellan Global Fund RE, in consultation with management, determine appropriate corporate governance practices for the Magellan Global Fund.

ii) **Principle 2:** Structure the board to be effective and add value

As the Magellan Global Fund is externally managed by Magellan Global Fund RE, the following recommendations are not applicable:

- 2.1 Nominations Committee;
- 2.2 Board skills matrix;
- 2.4 Independent Directors;
- 2.5 Board chairman independence; and
- 2.6 New director induction.

In relation to recommendations 2.3 and 2.4, five of the seven Directors of Magellan Global Fund RE are independent Non-Executive Directors. Each Director has served on the Magellan Board for periods of between 2 – 13 years.

iii) **Principle 3:** Instil a culture of acting lawfully, ethically and responsibly

Magellan Global Fund RE has a Code of Ethics in place which also includes provisions relating to anti-bribery and corruption. Magellan Group also maintains a Whistleblower Policy.

iv) **Principle 4:** Safeguard the integrity of corporate reports

Magellan Global Fund RE has in place policies and procedures to align with this principle in respect of the Magellan Global Fund with the exception of recommendation 4.1 which recommends that an audit committee be chaired by an independent director who is not chair of the board.

The Chairman of the MFG Audit and Risk Committee is also the Chairman of the Magellan Global Fund RE Board. For good governance, the Chairman will not chair a Magellan Global Fund RE Board meeting while the financial statements of either Magellan or its managed investment schemes are being considered.

v) **Principle 5:** Make timely and balanced disclosure

The Magellan Global Fund has in place a Continuous Disclosure Policy to provide reasonable assurance that it meets its disclosure obligations under the Corporations Act, the ASX Listing Rules and AQUA Rules.

vi) **Principle 6:** Respect the rights of security holders

The Magellan Global Fund has in place a Unitholder Communication Policy to provide reasonable assurance that it meets its disclosure obligations under the Corporations Act and the ASX Listing Rules.

## 7 Information about the Magellan Global Fund

### 7.17 Corporate governance *continued*

#### vii) **Principle 7:** Recognise and manage risk

The Magellan Group has in place a RMF and related policies and procedures to align with this principle in respect of the Magellan Global Fund with the exception of recommendation 7.1 which recommends a board has in place a committee or committees consisting of a majority of independent directors to oversee risk.

The MFG Audit and Risk Committee is comprised of independent directors and assists the MFG Board to discharge its responsibilities in relation to the effectiveness of the financial risk management framework and associated internal controls.

The Magellan Global Fund RE Board, chaired by an independent non-executive director, otherwise has oversight of the operational risk and compliance frameworks as it considers risk management matters should be a strong focus of the entire Magellan Global Fund RE Board. The RMF is reviewed at least annually by the MFG and Magellan Global Fund RE Boards to ensure that it continues to be adequate.

The Magellan Global Fund RE Board has established a Risk and Compliance Committee (**RCC**) to assist it in discharging its corporate governance and oversight responsibilities in relation to the Magellan Group's obligations, which include the requirement for adequate risk management and compliance systems. The RCC consists of the Chief Executive Officer, responsible managers, and senior Magellan employees including the Chief Compliance Officer.

The Magellan Global Fund RE Board has also established a Management Information Technology Risk Committee (**ITRC**) which has oversight and provides direction on Magellan Group's information technology risk management activities. The ITRC consists of the Chief Executive Officer, Chief Compliance Officer and other senior Magellan Group employees responsible for information technology.

In relation to recommendation 7.3, Magellan does not have an internal audit function although periodic monitoring of compliance with key policies and procedures is performed by Magellan's Risk and Compliance team and the results are reported to the Magellan Global Fund RE Board.

Magellan is subject to an external audit of the design and operating effectiveness of its control environment relating to asset management services. Magellan Group's culture, size, simple and scalable operations, transparent reporting and flat organisational structure allow the Magellan Group Boards and management full and direct visibility of the key activities undertaken.

The MFG and Magellan Global Fund RE Boards and senior management have the skills and expertise to understand and rigorously review and challenge the information provided and recommendations submitted for approval. Where additional assurance is desired, the relevant Board can commission external independent advice and reviews as necessary.

#### viii) **Principle 8:** Remunerate fairly and responsibly

As the Magellan Global Fund is externally managed by Magellan Global Fund RE, the following recommendations are not applicable:

- 8.1 Remuneration committee;
- 8.2 Disclosure of remuneration policies and practices; and
- 8.3 Equity based remuneration schemes.

The remuneration payable to Magellan Global Fund RE in respect of the Magellan Global Fund can be found in this Explanatory Memorandum at Section 10. Further details of actual management costs paid will be published in the Half Yearly Reports and Annual Reports of the Magellan Global Fund and will be available on the Magellan Group website.

#### ix) **Principle 9:** Additional recommendations that apply only in certain cases

In relation to recommendation 9.3 (External Auditor attends AGM), the Magellan Global Fund does not intend to hold an annual general meeting and accordingly this recommendation is not applicable. If the Magellan Global Fund were to hold an annual general meeting this recommendation would be followed.

### 7.18 Reports to unitholders

The Magellan Global Fund is a disclosing entity and is required to meet the continuous disclosure requirements of the Corporations Act, the ASX Listing Rules and the AQUA Rules. Accordingly, the Magellan Global Fund will:

- a) prepare and publish on the ASX both yearly and half yearly financial statements accompanied by a Directors' statement and report and an audit or review report;

Copies of documents set out above that are lodged by the Magellan Global Fund with ASX may be obtained from ASX, or from Magellan Global Fund RE.

Magellan Global Fund RE intends to publish an estimated NAV per Unit and iNAV for each unit class daily on Magellan Group's website at [www.magellangroup.com.au](http://www.magellangroup.com.au). In addition, Magellan Global Fund RE intends to publish weekly on ASX a NAV per Unit for the Closed Class Units and monthly on ASX a NAV per Unit for each unit class. The iNAV for each unit class will be updated in respect of the Magellan Global Fund's portfolio securities or equivalent securities that have live market prices during the ASX trading day and for foreign exchange movements. No assurance can be given that the iNAV will be published continuously or that it will be up to date or free from error. To the extent permitted by law, neither Magellan Global Fund RE nor its appointed agent shall be liable to any person who relies on the iNAV. Magellan will also produce monthly Magellan Global Fund updates, which will be lodged with ASX, and quarterly and annual investment reports, which will be lodged with ASX. All reports will be available at [www.magellangroup.com.au](http://www.magellangroup.com.au).

## 7 Information about the Magellan Global Fund

### 7.20 Financial Information *continued*

#### 7.20.5.1 Proforma Adjustments

- Expenses related to the Restructure will be paid by the Magellan Group. No expenses related to the Restructure will be paid out of the assets of Magellan Global Fund, MGE or MGG.
- As an investment entity defined under AASB 10 Consolidated Financial Statements, Magellan Global Fund will record the acquisition of MGE and MGG at the fair value of the equity interests of MGE and MGG. For the purposes of the Pro Forma Historical Statement of Financial Position, the fair value of MGE and MGG is measured at the respective NAV of each fund as the most meaningful value to reflect the terms of the transaction, as disclosed in Section 7.20.6.
- The Units issued by Magellan Global Fund are classified as a financial liability in the pro forma consolidated statement of financial position as Magellan Global Fund has two classes of units that are differentiated by redemption rights. As a consequence, the two classes of units do not have identical features and meet the classification as a financial liability under AASB 132: *Financial Instruments: Presentation*.

#### a) MFG Commitment Deed

MFG has entered into a commitment deed with Magellan Global Fund RE, whereby MFG covenants in favour of Magellan Global Fund RE to pay the costs and expenses associated with the Restructure, including listing the Magellan Global Fund on the ASX and quotation of the Open Class Units and Closed Class Units (**MFG Commitment Deed**).

MFG has no right to terminate the MFG Commitment Deed. The MFG Commitment Deed will automatically terminate where the Implementation Deed is terminated, if either the MGE Trust Scheme or MGG Trust Scheme does not become Effective by 2 August 2021, or on the retirement or removal of Magellan Global Fund RE as responsible entity of the Magellan Global Fund.

#### b) MFG Equity Commitment Deed

MFG has entered into an equity commitment deed with Magellan Global Fund RE in relation to certain other matters relating to the Restructure and set out in this Explanatory Memorandum (**MFG Equity Commitment Deed**).

Under the terms of the MFG Equity Commitment Deed, MFG covenants in favour of Magellan Global Fund RE to:

- i) bear the economic cost associated with the exercise price of the MGF Options (which incorporates a discount to NAV), being the dilutive effect on the NAV per Closed Class Unit, by paying an amount equal to the discount on the issue of the Closed Class Unit(s) on exercise of the MGF Options; and
- ii) bear the economic cost associated with the additional units issued to applicants under the MGF Partnership Offer, being the dilutive effect on NAV per Closed Class Units, by paying an amount equal to 7.5% of the total value of subscription monies received from applicants who are allotted Closed Class Units.

Under the terms of the MFG Equity Commitment Deed, MFG must provide its consent (not to be unreasonably withheld) to the lodgement by Magellan Global Fund RE of the product disclosure statements issued in relation to the Bonus MGF Option Issue and the MGF Partnership Offer. In addition, Magellan Global Fund RE must consult with MFG on the number of Closed Class Units to be allotted under the MGF Partnership Offer and take all actions to adjust such number as MFG may request and Magellan Global Fund RE considers reasonable.

The MFG Equity Commitment Deed will automatically terminate where the Implementation Deed or MGG Implementation Deed is terminated, if either the MGG Trust Scheme or MGE Trust Scheme does not become effective by 2 August 2021, or on the retirement or removal of Magellan Global Fund RE as responsible entity of the Magellan Global Fund (except where it is replaced as responsible entity by a related body corporate of MFG). ### 7.22 Summary of the Magellan Global Fund's Constitution

Magellan Global Fund is governed under the law and by the Constitution of Magellan Global Fund. If the MGE Trust Scheme is implemented, you agree to be bound by the terms of the Magellan Global Fund Constitution.

In connection with the Restructure, the Magellan Global Fund Constitution is proposed to be amended by way of a special resolution of the members of Magellan Global Fund at an unitholder meeting to be convened on the same date as the Meeting (**Magellan Global Fund Unitholder Meeting**). References to the Magellan Global Fund Constitution in this section refer to the proposed constitution of Magellan Global Fund assuming the relevant amendments have been passed at the Magellan Global Fund Unitholder Meeting.

Investors can inspect a copy of the proposed Magellan Global Fund Constitution at Magellan Global Fund RE's head office or Magellan Global Fund RE will provide a copy free of charge.

A summary of the key rights and obligations attaching to the Magellan Global Fund Open Class Units and Closed Class Units and a description of the material provisions of the Magellan Global Fund Constitution (as amended if the MGE Trust Scheme and the MGG Trust Scheme are approved) are set out below. This summary is not exhaustive, nor does it constitute a definitive statement of the terms of the Magellan Global Fund Constitution.

## 7 Information about the Magellan Global Fund

### 7.22 Summary of the Magellan Global Fund's Constitution *continued*

The rights and obligations attaching to ownership of Magellan Global Fund Open Class Units and Closed Class Units are also conferred or affected by the Corporations Act, the ASX Listing Rules or the AQUA Rules (as applicable) and general law.

#### **a) Units**

The beneficial interest in the Magellan Global Fund is divided into Units. Each Unit confers on its unitholder an undivided beneficial interest in Magellan Global Fund as a whole, subject to Magellan Global Fund's liabilities, not in parts of or single assets. All Units confer identical interests and rights except as otherwise provided by their terms.

MGE Trust Scheme Participants will be issued Open Class Units in connection with the MGE Trust Scheme.

Magellan Global Fund RE may issue Units subject to the terms and conditions of the Magellan Global Fund Constitution, including by way of placement, rights issue, unit purchase plan, distribution reinvestment plan or consideration for a takeover. The Magellan Global Fund Constitution provides Magellan Global Fund RE with the discretion to determine the issue price in relation to Units where permitted by ASIC exemptions and the ASX Listing Rules.

No Units may be issued after the 80th anniversary of the date Magellan Global Fund commenced if to do so would contravene any legal rules.

Key similarities and differences between Open Class Units and Closed Class Units are set out in Sections 7.5 to 7.19 but set out below are specific rights and protections that apply to Open Class Units and Closed Class Units.

#### **b) Open Class Units**

- i) Magellan Global Fund RE must seek approval from holders of Open Class Units for a Control Transaction (which is essentially a transaction that would give someone a majority interest in Magellan Global Fund and would be effected by a trust scheme proposed by Magellan Global Fund RE).
- ii) Holders of Open Class Units must approve any matter that requires approval by unitholders under Chapters 10 and 11 of the ASX Listing Rules (for example, a significant change in the activities of Magellan Global Fund or related party transactions and unit issues to related parties).
- iii) Holders of Open Class Units may, subject to some conditions and qualifications, require Magellan Global Fund RE, by special resolution, to cease the quotation of Open Class Units under the AQUA Rules, and to redeem all Open Class Units.

The first approval right is to allow holders of Open Class Units to separately assess a transaction affecting control of Magellan Global Fund that is put forward by Magellan Global Fund RE. The second approval right is provided because such transactions will be significant for both Classes of Units (and the interests of each Class may not be aligned). The redemption right is to simulate a right to wind up Magellan Global Fund insofar as it relates to holders of Open Class Units.

Approval is by an ordinary resolution (unless the applicable ASX Rules require a special resolution) or the consent in writing of 50% of all holders of Open Class Units.

These rights and other rights conferred on holders of Open Class Units are protected as class rights (that is, they cannot be altered without approval by special resolution by, or written consent of three quarters of, holders of Open Class Units).

#### **c) Closed Class Units**

- i) Magellan Global Fund RE must seek approval from holders of Closed Class Units for a Control Transaction (which is essentially a transaction that would give someone a majority interest in Magellan Global Fund and would be effected by a trust scheme proposed by Magellan Global Fund RE).
- ii) Holders of Closed Class Units must approve any matter that requires approval by unitholders under the ASX Listing Rules (for example, approval of issues of Closed Class Units where the Listing Rules require it).
- iii) Holders of Closed Class Units must approve any issue of Closed Class Units during takeover bids in relation to Closed Class Units or during proposals to remove the responsible entity initiated by a holder of more than 50% of the issued Closed Class Units.
- iv) Holders of Closed Class Units may, subject to some conditions and qualifications, require Magellan Global Fund RE, by special resolution, to apply to de-list Magellan Global Fund from ASX and redeem all Closed Class Units

The first approval right is to allow holders of Closed Class Units to separately assess a transaction affecting control of Magellan Global Fund that is put forward by Magellan Global Fund RE. The second two approval rights are to reflect ASX Listing Rule requirements that would otherwise apply to Magellan Global Fund as a whole. The redemption right is to simulate a right to wind up Magellan Global Fund insofar as it relates to holders of Closed Class Units.

Approval is by an ordinary resolution (unless the applicable ASX Listing Rules require a special resolution) or the consent in writing of 50% of all holders of Closed Class Units.

These rights and other rights conferred on holders of Closed Class Units are protected as class rights (that is, they cannot be altered without approval by special resolution by, or written consent of three quarters of, holders of Closed Class Units).

## 7 Information about the Magellan Global Fund

### 7.22 Summary of the Magellan Global Fund's Constitution *continued*

#### **d) Liability of Unitholders**

Under section 100A of the New South Wales Trustee Act, 1925, a beneficiary under a trust is not liable to indemnify the trustee or make any other payment to the trustee or any other person for any act, default, obligation or liability of the trustee (unless the beneficiary has otherwise agreed in writing or, in summary, in relation to partly-paid interests in the trust). Because the precise effect and extent of this protection is yet to be determined by the courts, the Magellan Global Fund Constitution also states that a Magellan Global Fund Unitholder's liability is limited to the amount the Magellan Global Fund Unitholder subscribed or agreed to be subscribed for their Units (subject to the Magellan Global Fund Constitution itself and the terms of a class of Units) but again, courts are yet to determine the effectiveness of provisions of this kind.

#### **e) Magellan Global Fund RE's powers**

Magellan Global Fund RE has all the power in relation to the Magellan Global Fund, and its assets and liabilities that is legally possible for a natural person, corporation or trustee or responsible entity to have including to invest in, dispose of or otherwise deal with assets, borrow or raise money, incur liabilities and obligations of any kind, grant a security interest over the Magellan Global Fund's assets, accept cash contributions as trust property without issuing units, fetter its discretions, mix and mingle the Magellan Global Fund's assets with the property of others. Magellan Global Fund RE may also delegate its powers to another person, including to a related party or an associate.

#### **f) Magellan Global Fund RE's remuneration and recovery of expenses**

The Magellan Global Fund Constitution provides Magellan Global Fund RE is entitled to charge the fees summarised in Section 10 of this Explanatory Memorandum. All expenses and outgoings reasonably and properly incurred by Magellan Global Fund RE in the proper performance of its duties may be payable or reimbursable out of Magellan Global Fund's assets and, if appropriate, such expenses may be allocated to a particular class of Magellan Global Fund Unitholders.

#### **g) Magellan Global Fund RE's indemnity**

To the extent permitted by the Corporations Act, Magellan Global Fund RE is entitled to be indemnified out of the Trust Property for any liability incurred by it in performing properly any of its duties or exercising any of its powers in relation to Magellan Global Fund. This right of indemnity is not lost by reason of a separate incident that was itself a breach of trust. This indemnity is in addition to any indemnity under law. The Magellan Global Fund RE has ongoing rights of indemnity after it has retired or been removed.

#### **h) Removal and retirement of Magellan Global Fund RE**

Unitholders do not have a right to remove Magellan Global Fund RE as the responsible entity other than the rights granted by the Corporations Act. The Corporations Act provides for when and how a responsible entity can be changed. In accordance with the Corporations Act, Magellan Global Fund RE can be removed as responsible entity by an ordinary resolution of all unitholders, taken as a whole.

Magellan Global Fund RE may retire in accordance with the Corporations Act (and upon giving at least one month's notice) and must retire when required under the Corporations Act.

#### **i) Duration of Magellan Global Fund**

Magellan Global Fund will continue, subject to the Corporations Act, until terminated by Magellan Global Fund RE on a date specified in a notice given to Unitholders.

From the termination date, Magellan Global Fund RE must realise trust assets and pay trust liabilities and then distribute the net proceeds referable to a class of Units pro rata to holders of Units in that class.

#### **j) Changing the Magellan Global Fund Constitution**

Subject to the Corporations Act, Magellan Global Fund RE may amend the Magellan Global Fund Constitution by deed. Under the Corporations Act, a responsible entity may amend a constitution if it reasonably considers the amendments will not adversely affect members' rights. Otherwise, a responsible entity must obtain members' approval by a special resolution at a meeting of members. Any amendment to the Magellan Global Fund Constitution will not be effective until the modification is lodged with ASIC. Additionally, any change that varies or cancels the rights attached to a Class may only be effected with the consent of holders of that Class (either by special resolution by, or written consent of, three quarters of the holders of that Class).

#### **k) Unitholder meetings and voting**

Unitholder meetings are to be held in accordance with the Constitution and the Corporations Act. Under the Corporations Act, Magellan Global Fund RE may convene and conduct a meeting at any time and must do so if required under the Corporations Act. Magellan Global Fund Unitholders also have rights under the Corporations Act to call and hold members' meetings. Votes are by show of hands, unless a poll is validly demanded or required under the Corporations Act or the ASX Listing Rules or AQUA Rules. Meetings of Magellan Global Fund Unitholders in a Class can be called and held in the same manner as applies to Magellan Global Fund Unitholder Meetings.

#### **l) Proportional takeover bid**

The Magellan Global Fund Constitution sets out the process required for a person to obtain approval from Magellan Global Fund Unitholders (or a Class) for a proportional takeover bid.

Transfers of Magellan Global Fund Units resulting from a Magellan Global Fund Unitholder accepting an offer under a proportional takeover bid will be prohibited unless this process is followed.

#### **m) Small holdings**

In certain circumstances, Magellan Global Fund RE may sell any Units in a quoted Class held by a Magellan Global Fund Unitholder which comprise less than a marketable parcel. This is to avoid the administrative cost and inconvenience of maintaining a register of multiple small holdings.

## 7 Information about the Magellan Global Fund

### 7.23 Magellan Global Fund RE's Intentions

## 8 Overview of the Investment Strategy and Investment Manager

The investment strategy of the Magellan Global Fund is the same as the investment strategy that is currently employed for MGE. The investment strategy is managed by the same investment manager and portfolio manager.

### 8.1 Investment objective

The investment objectives of the Magellan Global Fund are to achieve attractive risk-adjusted returns over the medium to long-term, whilst reducing the risk of permanent capital loss.

### 8.2 Investment strategy

The Magellan Global Fund offers investors an opportunity to invest in a specialised and focused global equity fund.

In its capacity as investment manager, the Magellan Global Fund RE aims to invest in companies that have sustainable competitive advantages which translate into returns on capital in excess of their cost of capital for a sustained period of time. The Magellan Global Fund RE endeavours to acquire these companies at discounts to their assessed intrinsic value. The Magellan Global Fund's portfolio comprises 20 to 40 investments. The Magellan Global Fund RE believes such a portfolio will achieve sufficient diversification to ensure the Magellan Global Fund is not overly correlated to a single company, or to industry specific or macroeconomic risks.

It is not the Magellan Global Fund RE's intention to hedge the foreign currency exposure of the Magellan Global Fund arising from investments in overseas markets.

### 8.3 Historical performance

The Magellan Global Fund's investment strategy is the same that Magellan employs in MGE. The below table outlines the performance for Magellan Global Fund as at 30 September 2020 since inception on 1 July 2007. Calculations are based on exit prices with distributions reinvested in the same portfolio, after ongoing fees and expenses but excluding individual tax, member fees and entry fees (if applicable).

Investors should note that Magellan Global Fund's past performance is not indicative of future performance.

Performance	3 months	6 months	1 year	3 years (% per annum)	5 years (% per annum)	Since Inception (% per annum)
Magellan Global Fund	3.42%	5.41%	7.41%	15.99%	11.80%	12.05%

### 8.4 Investment parameters

The key investment parameters for the construction of the Portfolio will be based on the following principles:

Underlying Exposure	Guidelines						
<b>Number of companies</b>	Typically, 20-40 companies.						
<b>Asset classes and asset allocation ranges</b>	Magellan Global Fund's assets are typically invested within the following asset allocation ranges: <table><tr><th>Asset class</th><th>Investment range</th></tr><tr><td>Listed securities</td><td>80% - 100%</td></tr><tr><td>Cash &amp; cash equivalents</td><td>0% - 20%</td></tr></table>	Asset class	Investment range	Listed securities	80% - 100%	Cash & cash equivalents	0% - 20%
Asset class	Investment range						
Listed securities	80% - 100%						
Cash & cash equivalents	0% - 20%						
<b>Investments held</b>	Magellan Global Fund primarily invests in the securities of companies listed on stock exchanges around the world, but will also have some exposure to cash and cash equivalents. Magellan Global Fund can use foreign exchange contracts to facilitate settlement of stock purchases. It is not Magellan Global Fund RE's intention to hedge the foreign currency exposure of the Magellan Global Fund arising from investments in overseas markets. The Magellan Global Fund may hold listed securities directly or by holding units in MGE and MGG. In this case, the Magellan Global Fund's investments are described on a look-through basis, that is, the underlying assets the Magellan Global Fund is exposed to through its investments in MGE and MGG.						
<b>Industry/Sector</b>	No limitations, subject to Magellan's commitment to responsible investing (refer to Section 8.5).						
<b>Single security position limit</b>	10% of the Magellan Global Fund's Portfolio, on a look-through basis.						
<b>Currency hedging</b>	The Magellan Global Fund will not hedge its foreign currency exposure arising from investments in overseas markets.						
<b>Borrowing policy</b>	The Magellan Global Fund may borrow against all or part of the Portfolio, provided that, at the time, aggregated borrowings do not exceed 5% of the Magellan Global Fund's Portfolio.						

## 8 Overview of the Investment Strategy and Investment Manager

### 8.5 Responsible investment

Magellan Global Fund RE is committed to responsible investment and became a signatory to the United Nations-sponsored Principles of Responsible Investment (**PRI**) in March 2012. The PRI is the globally recognised accord for responsible investing. Environmental, social and governance (**ESG**) issues are considered to be a natural component of Magellan Global Fund RE's investment process, as gaining a robust understanding of these issues is a key input to assessing the outlook for future cash flow generation and risks facing investors. Magellan Global Fund RE seeks to apply a rigorous assessment of ESG issues as part of its investment process and act as a responsible owner by engaging with Portfolio companies where a material ESG issue exists and exercising its proxy voting rights where appropriate. Magellan Global Fund RE maintains an ESG policy, which outlines how ESG issues are incorporated into Magellan Global Fund RE's investment analysis framework and investment process.

The Magellan Global Fund will not invest in companies engaged in "high roller" casino gaming and the production of tobacco.

In May 2017, Magellan became a signatory of the PRI Montreal Pledge. Under the Pledge, Magellan Global Fund RE commits to measure and publicly disclose the carbon footprint of its actively managed investment portfolios. As such Magellan Global Fund RE publicly discloses the carbon footprint of the Magellan Global Fund.

### 8.6 Allocation policy

Magellan is also responsible for managing a number of other funds and investment mandates (collectively **Clients**) and it applies the same general investment philosophy and methodology in managing each of them (subject to any investment restrictions or guidelines specific to any vehicle). Therefore, it is not uncommon for Magellan Global Fund RE to be purchasing or selling the same security on behalf of several Clients at or about the same time. Trade allocation is determined on a basis that is fair, reasonable and equitable to all of Magellan Global Fund RE's Clients to avoid any Client receiving preferential treatment. This process is generally facilitated by amalgamating Client orders placed for the same security and trading strategy into a single block-booked trade. In situations where a trade involving two or more Clients receives a partial fill, allocations are applied equitably on a pro-rata basis to the respective Client accounts. In the instance where an allocation to a Client account would be very small, Magellan Global Fund RE's trading procedures allow for allocation discretion.

### 8.7 Labour standards and environmental, social and ethical considerations

Magellan Global Fund RE believes that issues relating to labour standards, and to environmental, social and ethical considerations have the potential to affect the business outcomes of the Global Fund's investment companies. Accordingly, Magellan Global Fund RE reviews labour standards, environmental, social and ethical considerations as part of the risk assessment that is completed when it determines the investment grade status of a company.

### 8.8 Changes to the investment strategy

Magellan Global Fund RE has the right to change the Magellan Global Fund's investment return objective, asset classes and asset allocation ranges and currency strategy (if any), without prior notice in some cases. Magellan Global Fund RE will inform investors of any material changes to the Magellan Global Fund's details in its next regular communication or as otherwise required by law.

## 9 Risk factors

If the MGE Trust Scheme is implemented, MGE Unitholders (other than Ineligible Foreign MGE Unitholders) will receive Open Class Units.

There are a number of risks and uncertainties in relation to the MGE Trust Scheme and the Magellan Global Fund which MGE Unitholders should take into account when considering how to vote on the MGE Trust Scheme Resolutions. These include:

- a) risks specific to the MGE Trust Scheme;
- b) risks specific to Magellan Global Fund;
- c) risks specific to Closed Class Units; and
- d) risks specific to Open Class Units.

All investments carry risk. The likely investment return and the risk of losing money is different for each investment strategy as different strategies carry different levels of risk depending on the underlying mix of assets that makes up each fund. Those assets with potentially the highest long-term return (such as equities) may also have the highest risk of losing money in the shorter term.

Risks can be managed but they cannot be completely eliminated. It is important that you understand that:

- the value of your investment will rise and fall;
- investment returns will vary and future returns may differ from past returns;
- returns are not guaranteed and there is a risk that you may lose some money on any investment you make; and
- laws affecting your investment in a managed investment scheme may change over time.

The appropriate level of risk for you will depend on various factors and may include your age, investment timeframe, where other parts of your wealth are invested and your overall tolerance to risk. You may wish to consult a licensed financial adviser to better understand the risks involved with the MGE Trust Scheme or an investment in the Magellan Global Fund.

The risks identified in this Section 9 are not exhaustive and do not take into account individual MGE Unitholders' investment objectives, financial situation, tax position or particular needs.

### 9.1 Risks specific to the MGE Trust Scheme

#### **a) Implementation and execution risk**

MGE Unitholders may be subject to execution risk if the MGE Trust Scheme is approved by MGE Unitholders and is subsequently implemented. There is a risk that there are inadequacies with systems and procedures or the skill of the personnel managing implementation of the MGE Trust Scheme, which could lead to some or all of the expected benefits of the MGE Trust Scheme not being achieved.

#### **b) Tax consequences for MGE Unitholders**

If the MGE Trust Scheme is implemented, there may be tax consequences for MGE Unitholders. MGE Unitholders should seek their own professional advice regarding the individual tax consequences of the MGE Trust Scheme applicable to them. In addition, MGE Unitholders may be exposed to potentially higher capital gains tax liability when compared to their current investment in MGE. MGE Unitholders who hold Open Class Units will be assessed for tax on their share of net income and net capital gains generated by Magellan Global Fund that is attributed to them under the AMIT rules.

#### **c) Ineligible Foreign MGE Unitholders – Proceeds from sale of Open Class Units by the Sale Nominee is not certain**

The Sale Nominee will be issued Open Class Units attributable to Ineligible Foreign MGE Unitholders. There is no guarantee regarding the market price that will be realised by the Sale Nominee or the future market price of Open Class Units.

## 9 Risk factors

### 9.2 Risks specific to the Magellan Global Fund

The significant risks specific to an investment in the Magellan Global Fund include:

- a) **ASX liquidity risk:** The liquidity of trading in the Magellan Global Fund Units on the ASX may be limited. This may affect an investor's ability to buy or sell Magellan Global Fund Units. Investors will not be able to buy or sell Magellan Global Fund Units on the ASX during any period that ASX suspends trading of Magellan Global Fund Units. Further, in regard to the Open Class Units, where trading in the Open Class Units on the ASX has been suspended, the ability of investors to apply directly to Magellan Global Fund RE to withdraw their investment in Open Class Units may be suspended and will be subject to the provisions of the Magellan Global Fund Constitution and the Corporations Act.
- b) **Company specific risk:** Investments by the Magellan Global Fund in a company's securities will be subject to many of the risks to which that particular company is itself exposed. These risks may impact the value of the securities of that company and the value of the Magellan Global Fund's portfolio. These risks include such factors as changes in management, actions of competitors and regulators, changes in technology and market trends.
- c) **Concentration risk:** As the Magellan Global Fund will hold a concentrated portfolio of 20 to 40 investments, returns of the Magellan Global Fund may be dependent upon the performance of a small number of individual companies. The concentrated exposure, including aggregation of exposures across companies, may lead to increased volatility in the Magellan Global Fund's Unit prices, and also increases the risk of poor performance.
- d) **Conflicts of interest risk:** Magellan and its various service providers may from time to time act as issuer, investment manager, custodian, unit registry, broker, administrator, distributor or dealer to other parties or funds that have similar objectives to those of the Magellan Global Fund. It is therefore possible that any of them may have potential conflicts of interest with the Magellan Global Fund. Such conflicts of interest include, but are not limited to: management of multiple accounts with varying fee arrangements, trade allocation, provision of liquidity by the Magellan Global Fund RE (acting on behalf of the Magellan Global Fund) in accordance with the ASX AQUA Rules, proxy voting and staff personal trading. Magellan may invest in, directly or indirectly, or manage or advise other funds which invest in assets which may also be purchased by the Magellan Global Fund. Neither Magellan Group nor any of its affiliates nor any person connected with it is under any obligation to offer investment opportunities to the Magellan Global Fund. Magellan Global Fund RE maintains a Conflicts of Interest Policy to provide reasonable assurance that it manages its obligations to the Magellan Global Fund such that all conflicts (if any) are resolved fairly.
- e) **Counterparty risk:** There is a risk that the Magellan Global Fund may incur a loss arising from the failure of another party to a contract (the counterparty) to meet its obligations. Counterparty risk arises primarily from investments in cash, derivatives and currency transactions. Substantial losses can be incurred if a counterparty fails to deliver on its contractual obligations.
- f) **Currency risk:** As the Magellan Global Fund's investments in international assets are unhedged, a rise in the Australian dollar relative to other currencies will negatively impact investment values and returns. Currency markets can be extremely volatile and are subject to a range of unpredictable forces. It is not Magellan's intention to hedge the foreign currency exposure of the Magellan Global Fund arising from investments in overseas markets.
- g) **Derivative risk:** The value of a derivative is derived from the value of an underlying asset and can be highly volatile. Changes in the value of derivatives may occur due to a range of factors that include rises or falls in the value of the underlying asset, potential liquidity of the derivative and counterparty credit risk.
- h) **Distribution policy risk:** Under the distribution policy of the Magellan Global Fund, there may be circumstances where the distribution received by Magellan Global Fund Unitholders in cash may be insufficient to cover a unitholder's tax payable on the income of the Magellan Global Fund attributed to the unitholder.
- i) **iNAV risk:** The iNAV for each Magellan Global Fund Unit class published by the Magellan Global Fund is indicative only and might not be up to date or might not accurately reflect the underlying value of the Magellan Global Fund.
- j) **Leverage risk:** The Magellan Global Fund may borrow against all or part of the Portfolio for investment purposes. Borrowings can magnify the gains and losses in the Magellan Global Fund.
- k) **Liquidity of investments risk:** Whilst the Magellan Global Fund is exposed to listed entities which are generally considered to be liquid investments, under extreme market conditions, there is a risk that such investments cannot be readily converted into cash or at an appropriate price. In such circumstances, the Magellan Global Fund may be unable to liquidate sufficient assets to meet its obligations within required timeframes or it may be required to sell assets at a substantial loss in order to do so.
- l) **Magellan Global Fund risk:** Magellan Global Fund risk refers to specific risks associated with the Magellan Global Fund, such as termination and changes to fees and expenses. The performance of the Magellan Global Fund or the security of an investor's capital is not guaranteed. There is no guarantee that the investment strategy of the Magellan Global Fund will be managed successfully or will meet its objectives. Failure to do so could negatively impact the performance of the Magellan Global Fund. An investment in the Magellan Global Fund is governed by the terms of the Constitution, as amended from time to time. The Magellan Global Fund is also governed by the rules of the ASX and is exposed to risks of listing on that platform, including such things as the platform or settlements process being delayed or failing. ASX may suspend or remove the units from quotation on the ASX. Magellan Global Fund RE may elect, in accordance with the Magellan Global Fund Constitution and the Corporations Act, to terminate the Magellan Global Fund for any reason. Magellan Global Fund assets will be invested, in part or in whole, by holding units in two underlying funds, MGE and MGG and the assets held by Magellan Global Fund, MGE and MGG may differ. There may be a risk that redemptions from the underlying funds are not paid in time to satisfy the liquidity requirements of Magellan Global Fund, or that there may be an increase in operational risk.

## 9 Risk factors

### 9.2 Risks specific to the Magellan Global Fund *continued*

- m) **Market risk:** There is a risk that the market price of the Magellan Global Fund's assets will fluctuate. This may be as a result of factors such as economic conditions, government regulations, market sentiment, local and international political events, pandemic outbreaks, environmental and technological issues.
- n) **Operational risk:** Operational risk includes those risks which arise from carrying on a funds management business. The operation of the Magellan Global Fund requires Magellan Global Fund RE, the Custodian, the Unit Registry, the administrator and other service providers to implement sophisticated systems and procedures. Some of these systems and procedures are specific to the operation of the Magellan Global Fund. Inadequacies with these systems and procedures or the people operating them could lead to a problem with the Magellan Global Fund's operation and may result in a loss to the Magellan Global Fund.
- o) **Performance risk:** There is a risk that the Magellan Global Fund may not achieve the investment objectives of its investment strategy.
- p) **Personnel Risk:** The skill and performance of Magellan Global Fund RE as investment manager can have a significant impact (both directly and indirectly) on the investment returns of the Magellan Global Fund. Changes in key personnel and resources of Magellan Global Fund RE may also have a material impact on investment returns on the Magellan Global Fund.
- q) **Pooled investment scheme risk:** Magellan Global Fund is a managed investment scheme that pools investors' capital to acquire assets. An investor's voting power will change with the number and value of Units on issue in Magellan Global Fund and this could result in that investor's voting power being proportionally diluted. Investors will be assessed for tax on their share of net income and net capital gains generated by Magellan Global Fund that is attributed to them under the AMIT rules. The net income and net capital gains may be a result of the activities of other unitholders in the same unit class, such as redemptions of Open Class Units or increased sales of Open Class Units by market participants, or due to actions of Magellan Global Fund RE, such as the provision of liquidity in Open Class Units on ASX, buying back Closed Class Units on ASX or managing the investments of Magellan Global Fund.
- r) **Regulatory risk:** There is a risk that a change in laws and regulations governing a security, sector or financial markets could have an adverse impact on the Magellan Global Fund or on the Magellan Global Fund's investments. A change in laws or regulations can increase the costs of operating a business and/or change the competitive landscape.
- s) **Target Cash Distribution risk:** The Target Cash Distribution is calculated as a percentage of the average of the month-end NAV per Unit for each unit class over a two year rolling period and therefore there is a risk that the Target Cash Distribution in cents per unit may decline in some periods if the Magellan Global Fund's NAV per Unit for each Unit class declines. There is also a risk that, in the future, Magellan Global Fund RE lowers the target level for Target Cash Distributions.
- t) **The Magellan Global Fund may be removed from quotation by the ASX or terminated:** The ASX imposes certain requirements for the continued quotation of securities, such as the Open Class Units, on the ASX under the AQUA Rules and Closed Class Units, on the ASX under the ASX Listing Rules. Investors cannot be assured that the Magellan Global Fund will continue to meet the requirements necessary to maintain quotation on the ASX or admission to the official list. In addition, the ASX may change the quotation requirements. Magellan Global Fund RE may elect, in accordance with the Magellan Global Fund Constitution and Corporations Act, to terminate the Magellan Global Fund for any reason including if units cease to be quoted on the ASX.

### 9.3 Risks specific to Open Class Units

The significant risks specific to an investment in the Magellan Global Fund Open Class Units include:

- a) **Magellan Global Fund provision of liquidity on the ASX risk:** Magellan Global Fund RE, on behalf of the Magellan Global Fund, may provide liquidity to investors on the ASX by acting as a buyer and seller of Open Class Units in the Magellan Global Fund. Magellan Global Fund RE will appoint an agent to transact and facilitate the settlement of such transactions on the Magellan Global Fund's behalf. Open Class Unitholders will bear the risk of these transactions. There is a risk that Open Class Unitholders could suffer a material cost as a result of the Magellan Global Fund providing liquidity to investors on the ASX which may adversely affect the NAV of the Open Class Units. Such a cost could be caused by either an error in the execution and settlement of transactions or in the price at which units are transacted on the ASX. There is a risk that, if the agent appointed by the Magellan Global Fund RE does not fulfil its obligations in a correct and timely manner, Open Class Unitholders could suffer a loss. In order to manage these risks, Magellan Global Fund RE has the right to cease transacting on the ASX, subject to its obligations under the AQUA Rules, may change the prices at which it transacts on the ASX and may, where Magellan Global Fund RE considers it appropriate to do so, hedge the Open Class Unit trading activities.
- b) **Pooled investment scheme risk:** The market prices at which the Magellan Global Fund is able to invest inflows, or sell assets to fulfil outflows of Open Class Units, may differ from the prices used to calculate the NAV per Open Class Unit (and the iNAV of the Open Class Units). Investors in the Open Class Units may therefore be impacted by other investors entering and exiting the Open Class Units. The impact will depend on the size of inflows or outflows relative to the NAV of the Open Class Units, and on the price volatility of the securities in which the Magellan Global Fund invests. Outflows may also affect the taxable income attributed to an investor during a financial year.
- c) **Price of units on the ASX:** The price at which the Open Class Units may trade on the ASX may differ materially from the NAV per Open Class Unit and the iNAV of the Open Class Units.

## 9 Risk factors

### 9.3 Risks specific to Open Class Units *continued*

- d) **Conflict of interest risk:** Magellan Global Fund RE acts as a buyer and seller of Open Class Units on the ASX. A conflict might arise between the Magellan Global Fund and investors buying or selling Open Class Units from the Magellan Global Fund on the ASX due to the Magellan Global Fund RE's desire to benefit from such trading activities. A conflict might also arise due to the fact that the Magellan Global Fund RE could use such trading activities to influence the perception of the performance of the Magellan Global Fund. Magellan Global Fund RE maintains a Conflicts of Interest Policy to ensure that it manages its obligations to the Magellan Global Fund such that all conflicts (if any) are resolved fairly.
- e) **Relative voting power:** The Corporations Act requires that, on a vote of the Magellan Global Fund decided by a poll, each Magellan Global Fund Unitholder will have one vote for each dollar of value of Closed Class Units or Open Class Units held. The value of Closed Class Units and Open Class Units will be determined based on the last sale price on the ASX trading day immediately prior to the day the poll is taken. As the ASX secondary market price of Open Class Units and Closed Class Units may differ, where a vote is taken as a whole, this may have the result of decreasing the relative voting power of Magellan Global Fund Unitholders who hold Open Class Units compared with holders of the Closed Class Units.

### 9.4 Risks specific to Closed Class Units

The significant risks specific to an investment in the Magellan Global Fund Closed Class Units include:

- a) **Credit risk:** The partnership benefits that are being funded by Magellan Group (for example, pursuant to the MGF Partnership Offer and Bonus MGF Option Issue) will expose Closed Class Unitholders to the risk that Magellan Group is not able to pay amounts to Magellan Global Fund when they are due. If Magellan Group is not able to fund the relevant partnership benefits in accordance with the MFG Equity Commitment Deed and MFG DRP Commitment Deed, then the MGF Partnership Offer, Bonus MGF Option Issue and any discounted DRP offer will be dilutive to Closed Class Unitholders. Magellan Global Fund will be managed so as to avoid the value of an investment in the Open Class Units being impacted in these circumstances (except in the very unlikely event of cross-collateralisation default – see Section 3.4).
- b) **DRP issue price risk:** Because Closed Class Units issued under the DRP are issued at the NAV per Closed Class Unit or a discount to the NAV per Closed Class Unit, there is a risk that the DRP issue price could be at a premium to the trading price of Closed Class Units on ASX at the time of issue.
- c) **No right of redemption:** Closed Class Unitholders cannot redeem their Closed Class Units; they can only sell their Closed Class Units on ASX. There is a risk that buyers of Closed Class Units on ASX are not sufficient to allow a Closed Class Unitholder to exit their investment.
- d) **Pooled investment scheme risk:** The market prices at which the Magellan Global Fund is able to invest the proceeds of capital raisings conducted by Magellan Global Fund may differ from the issue price of Closed Class Units issued as a result of those capital raisings. Therefore, Closed Class Unitholders who have not participated in those capital raisings may be impacted by the participation of other Closed Class Unitholders in capital raisings. The impact will depend on the size of the capital raising relative to the NAV of the Closed Class Units and on the price volatility of the securities in which the Magellan Global Fund invests.
- e) **Price of Units on ASX:** The price at which the Magellan Global Fund's Closed Class Units trade on ASX may not equal the underlying value as reflected in its NAV per Closed Class Unit. The Magellan Global Fund's Closed Class Units may trade on ASX at a discount or a premium to the Magellan Global Fund's NAV per Closed Class Unit. As such, there is a risk that Closed Class Unitholders may not be able to sell their investment in the Closed Class Units at the Magellan Global Fund's NAV per Closed Class Unit.
- f) **Relative voting power:** The Corporations Act requires that, on a vote of the Magellan Global Fund decided by a poll, each Magellan Global Fund Unitholder will have one vote for each dollar of value of Closed Class Units or Open Class Units held. The value of Closed Class Units and Open Class Units will be determined based on the last sale price on the ASX trading day immediately prior to the day the poll is taken. As the ASX secondary market price of Closed Class Units and Open Class Units may differ, where a vote is taken as a whole, this may have the result of decreasing the relative voting power of Magellan Global Fund Unitholders who hold Closed Class Units compared with holders of the Open Class Units.

## 10 Fees and other costs

### DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower management costs. Ask the Magellan Global Fund or your financial adviser.

### TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities & Investments Commission (ASIC) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has a managed funds fee calculator to help you check out different fee options.

This section shows fees and other costs that you may be charged if the MGE Trust Scheme is implemented and you become a unitholder in the Magellan Global Fund. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Magellan Global Fund.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

### 10.1 Table 1 – fees and costs for Open Class Units

An estimate is accrued daily in the NAV per Open Class Unit and the fees are payable monthly in arrears from the assets of Magellan Global Fund referable to the Open Class Units.
<b>Estimated performance fee</b>	0.22% <sup>3</sup> per annum Performance fees are 10% <sup>2</sup> of the Excess Return of the Open Class Units of the Magellan Global Fund above the higher of the Index Relative Hurdle (the MSCI World Net Total Return Index (AUD)) and the Absolute Return Performance Hurdle (the yield of 10-year Australian government bonds as at the first Business Day of the Calculation Period pro-rated for the number of days in the Calculation Period).	Estimated daily and accrued in the NAV per Open Class Unit. Calculation of the fee is finalised and the fee is paid at the end of a Calculation Period from the assets of Magellan Global Fund referable to the Open Class Units. The first Calculation Period following the Effective Date will end on 30 June 2021, and thereafter each 6 monthly period ending 31 December and 30 June (each a <b>Calculation Period</b> ).

# 10 Fees and other costs

## 10.1 Table 1 – fees and costs for Open Class Units *continued*

Magellan Global Fund – Open Class Units		
Type of Fee or Cost	Amount	How and When Paid
<b>Service fees</b>		
<b>Switching fee</b> The fee for changing investment options	Nil	Not applicable.

- These fees may be individually negotiated if you are a wholesale client (as defined in the Corporations Act 2001).
- Inclusive of the estimated net effect of GST (i.e. inclusive of 10% GST, less any reduced input tax credits (*RITC*) and other recoveries available to the Magellan Global Fund). As the Magellan Global Fund predominantly invests in international securities, the GST impact on the management costs is currently estimated to be negligible. To the extent the GST impact increases (for example, if the Magellan Global Fund's exposure to Australian securities increases), the actual management costs may exceed the rates stated above. Please see Section 10.3 and Section 10.4 below for more information.
- The estimated performance fee represents Magellan Global Fund RE's reasonable estimate of the prospective performance fee and has been calculated using the actual performance fee incurred by the Magellan Global Fund since inception (up to and including 30 June 2020). As the Magellan Global Fund predominantly invests in international securities, the GST impact on the performance fees for the Magellan Global Fund is currently estimated to be negligible. To the extent the GST impact increases (for example, if the Magellan Global Fund's exposure to Australian securities increases), the actual performance fees may exceed the rate of 10% stated above. Please see Sections 10.3 and 10.4 below for more information. Past performance is not necessarily indicative of future performance and no person guarantees the future performance of the Magellan Global Fund, the amount or timing of any return from it, or that it will achieve its investment objectives.

## 10.2 Table 2 – example of annual fees and costs for the Open Class Units

This table gives an example of how the fees and costs for this product can affect an investment over a one year period. Investors should use this table to compare this product with other managed investment products.

Example <sup>1</sup> – Magellan Global Fund – Open Class Units		Balance of \$50,000 with a contribution of \$5,000 during year <sup>2</sup>
<b>Contribution fees</b>	Nil	For every \$5,000 you put in, you will be charged \$0
<b>PLUS</b> Management costs	1.38% <sup>3</sup> per annum	<b>And</b> , for every \$50,000 you have in the Magellan Global Fund you will be charged \$690 each year.
<b>EQUALS</b> Cost of the Magellan Global Fund Open Class Units	1.38% per annum	If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees of <b>\$690</b> <sup>4</sup>

- This is an example only and does not take into account any movements in the value of Open Class Units that may occur over the course of the year, or any abnormal costs.
- This example assumes the \$5,000 contribution occurs at the end of the first year. Management costs are calculated using the \$50,000 balance only.
- This management cost amount consists of the management fee (1.35%) and the actual performance fee (0.03%) that was incurred by Magellan Global Fund for the year ended 30 June 2020. This rate is inclusive of the estimated net effect of GST (i.e. inclusive of GST, less any reduced input tax credits). Please see Section 10.3 for more details.
- Please note that this example does not capture all the fees and costs that may apply to an individual investor such as transactional and operational costs.

## 10.3 Additional explanation of fees and costs

### a) Management fees

The Magellan Global Fund pays a management fee of 1.35% per annum (inclusive of the estimated net effect of GST net of RITC) of the Net Asset Value (before fees) (**NAV Before Fees**) of Open Class Units in the Magellan Global Fund to Magellan Global Fund RE for managing the assets of the Magellan Global Fund and overseeing the operations of the Magellan Global Fund. The management fees cover the usual fees, costs, charges, expenses and outgoings that are incurred in connection with the Open Class Units and related assets of the Magellan Global Fund (such as administration and accounting costs, registry fees, audit and tax fees, and investor reporting expenses). Management fees are calculated each Business Day based on the NAV Before Fees of Open Class Units in Magellan Global Fund on that Business Day and are payable at the end of each month from the assets of Magellan Global Fund referable to the Open Class Units. Estimated management fees are reflected in the NAV per Open Class Unit.

In addition to the management fee, where the Magellan Global Fund incurs extraordinary expenses and outgoings, Magellan Global Fund RE may pay for these from the assets of Magellan Global Fund. We may pay extraordinary expenses and outgoings from the Magellan Global Fund's assets because, under the constitution of the Magellan Global Fund, in addition to the management fee, Magellan Global Fund RE is entitled to be indemnified from the assets of the Magellan Global Fund for any liability properly incurred by us in performing properly any of its duties or exercising any of its powers in relation to the Magellan Global Fund or attempting to do so.

### b) Performance fees

Depending on how well the Open Class Units in Magellan Global Fund performs, Magellan Global Fund RE may be entitled to a performance fee, payable by the Magellan Global Fund. Performance fees are calculated with reference to the Index Relative Hurdle, the Absolute Return Hurdle and are subject to a High Water Mark requirement and overall cap. The details of the calculation methodology and the hurdles are set out below. An estimate of the fee has been provided in Table 1 and applied in Table 2.

Estimated performance fees for the Units are reflected in the NAV per Open Class Unit and are payable at the end of each Calculation Period from the assets of Magellan Global Fund referable to the Open Class Units.

# 10 Fees and other costs

## 10.3 Additional explanation of fees and costs *continued*

### **Calculation Methodology**

The Total Return per Unit (**Total Return**) for the Open Class Units is the dollar movement in the NAV per Open Class Unit during the Calculation Period (adjusted for any income or capital distributions and before any accrued performance fees during that Calculation Period). Adjustments will be made for any capital re-organisations such as Unit divisions or consolidations. Calculation Periods generally end on 30 June and 31 December of each year. The Calculation Period commencing 1 July 2020 will end on the Effective Date. The next Calculation Period will commence the day after the Effective Date and end on 30 June 2021.

The Magellan Global Fund's Excess Return per Open Class Unit (**Excess Return**) is its Total Return less the higher of the Index Relative Hurdle and Absolute Return Hurdle, expressed in dollar terms. The performance fee per Open Class Unit is 10% (exclusive of GST) of the Excess Return. The total performance fee is the performance fee per Open Class Unit multiplied by the number of Open Class Units on issue at the end of the Calculation Period.

Magellan Global Fund RE will only be entitled to a performance fee where the NAV per Open Class Unit at the end of the Calculation Period exceeds the applicable High Water Mark. The High Water Mark for the Open Class Units is the NAV per Open Class Unit at the end of the most recent Calculation Period for which Magellan Global Fund RE was entitled to a performance fee in the Open Class, less any intervening income or capital distribution.

Furthermore, the fee to which Magellan Global Fund RE is entitled will be subject to a performance fee cap such that the NAV per Open Class Unit (after the accrued performance fee) is not less than the applicable High Water Mark.

Following the Effective Date, the High Water Mark applicable to the Open Class Units will be adjusted to equal the NAV per Open Class Units as at the Effective Date multiplied by the higher of the:

- i) MGE High Water Mark divided by the NAV of MGE per MGE Unit as at the Effective Date;
- ii) MGG High Water Mark divided by the NAV of MGG per MGG Unit as at the Effective Date; and
- iii) The High Water Mark of Magellan Global Fund divided by the NAV per Open Class Unit as at the Effective Date.

The adjustment will set the High Water Mark applicable to the Open Class Units to the level equivalent to the highest High Water Mark across Magellan Global Fund, MGG and MGE.

### **Index Relative Hurdle**

The Index Relative Hurdle for the Open Class Units of the Magellan Global Fund is the return (expressed as a percentage) of the MSCI World Net Total Return Index (AUD). If an index ceases to be published, Magellan Global Fund RE will nominate an equivalent replacement index.

### **Absolute Return Hurdle**

The applicable Absolute Return Hurdle for the Open Class Units of the Magellan Global Fund is the published 10-year Australian Government Bond yield as at the first Business Day of the Calculation Period, pro-rated for the number of days in the Calculation Period.

### **Equalisation Reserve and Units issued during a Calculation Period**

Performance fees are paid on the Excess Return of each Unit on issue at the end of a Calculation Period, less a fund level equalisation reserve (**Equalisation Reserve**). The effect of the Equalisation Reserve is that Magellan Global Fund RE will only receive a performance fee in respect of a specific Open Class Unit on performance generated after that Open Class Unit is created. On each Business Day where there is a net creation of Open Class Units, the Equalisation Reserve is increased by an amount that represents the performance fee per Open Class Unit prior to the net creation of those Open Class Units multiplied by the number of units created (**Equalisation Adjustment**). If the accrued performance fee per Open Class Unit on a particular day is nil, there will be no Equalisation Adjustment made to the Equalisation Reserve in respect of net Units created the following Business Day. The Equalisation Reserve accumulates over a Calculation Period.

The Equalisation Reserve is subject to a ceiling such that the total Equalisation Reserve is the lesser of:

- i) the total of the Equalisation Adjustments calculated on each day of the Calculation Period; and
- ii) the total of the Units created during the Calculation Period multiplied by the prevailing performance fee per Unit.

The ceiling on the Equalisation Reserve ensures that Magellan Global Fund RE's performance fee entitlement is not less than it would have been had no Open Class Units been created during the Calculation Period.

The exact impact of the performance fee on a particular investor will depend on the price at which the investor has acquired Open Class Units, the total number of Open Class Units created during a Calculation Period, the Excess Return achieved from the start of the Calculation Period to the date where new Open Class Units are created and the subsequent movement in the NAV per Open Class Unit to the end of the Calculation Period.

### **Units cancelled during a Calculation Period**

Open Class Units that are either purchased by Magellan Global Fund RE on the ASX or redeemed directly via an off-market withdrawal request will be cancelled. Performance fees will become payable to Magellan Global Fund RE in respect of cancelled Open Class Units.

# 10 Fees and other costs

## 10.3 Additional explanation of fees and costs *continued*

### c) Transactional and operational costs of Open Class Units

Transactional and operational costs such as brokerage and transactional taxes are incurred in relation to the Open Class Units when the Magellan Global Fund RE acquires and disposes of securities. An estimate of transactional and operational costs for the Open Class Units in Magellan Global Fund is provided in the table below. These estimated costs are based on actual transactional and operational costs incurred by the Magellan Global Fund for the year ended 30 June 2020.

Total transactional and operational costs (% pa)	Recovery through buy/sell spread (% pa) <sup>1</sup>	Net transactional and operational costs (% pa)	For every \$50,000 you have in the Magellan Global Fund you will likely incur approximately:
0.04%	0.02%	0.02%	\$10

1. Recovery through the buy/sell spread only includes amounts recovered from investors applying and withdrawing directly from the Magellan Global Fund. It does not include any amount the Responsible Entity intends to recover from the prices at which it buys and sells units on the ASX. For more information, see "Buy and sell spreads".

The net transactional and operational costs take into account the buy / sell spread recovered in respect of the year ended 30 June 2020. The amount of such costs will vary from year to year depending on the volume and value of the trading activity in the Magellan Global Fund and the value of applications and withdrawals processed. Transactional and operational costs are paid out of the assets of the Magellan Global Fund referable to the Open Class Units and are not paid to Magellan Global Fund RE.

### d) Buy-sell spreads

A portion of the total transactional and operational costs are recovered from investors applying to and withdrawing directly from Open Class Units in Magellan Global Fund. New investments into or withdrawals from Open Class Units in Magellan Global Fund will typically cause Magellan Global Fund to incur transaction costs. So that existing investors in Open Class Units do not bear the transaction costs that arise from these investments and withdrawals, Magellan Global Fund RE intends to include an allowance to cover these costs in the prices at which it issues and redeems Open Class Units to investors who transact directly with Magellan Global Fund RE. This allowance to cover transaction costs (sometimes called the 'buy spread' and the 'sell spread') represents an additional cost to investors applying and withdrawing directly from Magellan Global Fund (paid at that time), but are not fees paid to Magellan Global Fund RE.

For an investor applying for Open Class Units directly with Magellan Global Fund RE, the current buy spread is 0.07% of the NAV per Open Class Unit, represented by the difference between the entry price and the NAV per Open Class Unit. For an investor applying directly to Magellan Global Fund RE to withdraw their investment in Magellan Global Fund, the current sell spread is 0.07% of the amount withdrawn, represented as the difference between the exit price and the NAV per Open Class Unit. For example, if an investor invested \$50,000 in Magellan Global Fund, the cost of the buy spread would be \$35, or if an investor withdrew \$50,000 from their investment the cost of the sell spread would be \$35. Magellan Global Fund RE may vary the buy and sell spreads from time to time and prior notice will not ordinarily be provided. Updated information on the buy and sell spreads will be posted on Magellan Global Fund's website at [www.magellangroup.com.au](http://www.magellangroup.com.au).

For an investor that buys or sells Open Class Units on the ASX, the price at which they transact may vary from the prevailing iNAV of Open Class Units. The prices on ASX are determined in the secondary market by market participants who set their own prices at which they wish to buy or sell Open Class Units. The difference, or spread, from the prevailing iNAV may represent a cost, or possible benefit, of an investment in Open Class Units in Magellan Global Fund. Where Magellan Global Fund RE buys or sells Open Class Units on the ASX, the price at which it buys or sells Open Class Units will generally include an allowance to cover transaction costs but will also reflect market conditions and supply and demand for Open Class Units during the Trading Day. As such, the cost of the spread on the ASX may be different to the cost of the 'buy spread' or 'sell spread' for investors who apply or withdraw directly with Magellan Global Fund RE. Where the Magellan Global Fund RE buys or sells Open Class Units, the Open Class Units in Magellan Global Fund retains the benefit of this spread.

### e) Tax

Tax payable by investors is not included in this Section 10. Please refer to the taxation information in Section 7.12.

## 10.4 Changes in fees and costs

Fees may increase or decrease for a number of reasons including changes in the competitive, industry and regulatory environments or simply from changes in costs. Fees are capped by the Magellan Global Fund's Constitution. Management fees and performance fees disclosed above are the maximum permitted by the Magellan Global Fund Constitution. Any increase beyond a fee cap would require unitholder approval. Magellan Global Fund RE may change the fees without an investor's consent provided that the fees remain below the relevant fee cap. Magellan Global Fund RE will provide at least 30 days' notice if it intends without the consent of investors to increase fees below the level of any fee cap.

## 10 Fees and other costs

### 10.5 Stockbroker fees for investors

Investors will incur customary brokerage fees and commissions when buying and selling Open Class Units in Magellan Global Fund on the ASX. Investors should consult their stockbroker or financial adviser for more information in relation to their fees and charges.

### 10.6 Fees for Indirect Investors

For investors accessing Magellan Global Fund through a master trust or wrap account, additional fees and costs may apply. These fees and costs are stated in the offer document provided by your master trust or wrap account operator. These are not fees paid to Magellan Global Fund RE.

### 10.7 Financial adviser fees

An investor's licensed financial adviser may also charge an investor fees for the services they provide. These should be set out in the statement of advice by the adviser. Magellan Global Fund RE pays no commissions related to an investor's investment in the Magellan Global Fund to financial advisers.

### 10.8 Differential fees

A rebate of part of the management fee or a lower management fee may be negotiated with investors who are wholesale clients for the purposes of the Corporations Act 2001. Further information can be obtained by contacting us.

Dear Directors

## Australian Taxation Report

We have been requested to prepare a summary of the Australian tax consequences for Australian resident and non-resident unitholders of the implementation of the Restructure to be included in the Notice of Meeting and Explanatory Memorandum issued by Magellan Asset Management Limited (**Magellan**) (in its capacity as responsible entity of the Magellan Global Equities Fund) (**MGE**) dated on or around 15 October 2020 (the **Explanatory Memorandum**). The information contained in this summary is only general in nature. This summary has been prepared on the assumption that the Restructure described in the Explanatory Memorandum will be carried out in the manner described in the Explanatory Memorandum.

The information provided below is not applicable to all MGE Unitholders. This tax summary applies to Australian tax resident and non-resident unitholders who hold their units on capital account. This summary will not apply to MGE Unitholders who:

- acquired their MGE Units in the course of a business of trading or investing in securities, such as share traders, investment companies, banks or insurance companies, or who otherwise hold MGE Units on revenue account or as trading stock; and/or
- acquired their interests in their MGE Units pursuant to an employee share, option or rights plan; and/or
- are subject to the 'taxation of financial arrangements' rules in Division 230 of the *Income Tax Assessment Act 1997* (Cth) in respect of their MGE Units.

The actual tax consequences to MGE Unitholders of the Restructure may differ depending on their individual circumstances.

***MGE Unitholders are advised to consult their own professional tax adviser regarding the consequences of the Restructure in light of their particular circumstances. MGE Unitholders who are not resident in Australia should obtain advice on the taxation implications arising from the Restructure in their local jurisdiction.***

This summary is based on provisions of the *Income Tax Assessment Act 1936* (**1936 Act**) and the *Income Tax Assessment Act 1997* (**1997 Act**) and regulations and the current administrative practice of the Australian Taxation Office (the **ATO**) as at the date of this Explanatory Memorandum.

Allens is an independent partnership operating in alliance with Linklaters LLP.

Defined terms used in this letter take their meaning from the Explanatory Memorandum, unless the context requires otherwise.

## 1 Income tax consequences of the Restructure

### 1.1 Australian resident MGE Unitholders

#### (a) Disposal of MGE Units

The disposal of MGE Units by an MGE Unitholder will trigger capital gains tax (**CGT**) event A1. The CGT event should occur when the change of ownership of the MGE Units occurs. Under the Restructure, the change of ownership will occur on the Implementation Date. Accordingly, the time of the CGT event will be the Implementation Date.

As the Restructure will trigger a CGT event, MGE Unitholders will need to determine whether a capital gain, or a capital loss, arises in respect of their MGE Units.

Broadly, an MGE Unitholder will:

- make a 'capital gain' if the capital proceeds from the disposal of their MGE Units exceeds the 'cost base' of their MGE Units (subject to CGT scrip for scrip roll-over relief, discussed below); or
- make a 'capital loss' if the capital proceeds from the disposal of their MGE Units are less than the 'reduced cost base' of their MGE Units.

If applicable, the 'CGT discount' may be available to reduce the taxable gain for an MGE Unitholder who is an individual, complying superannuation entity or trust (discussed below).

#### (b) Cost base or reduced cost base

The cost base and reduced cost base of MGE Units will generally include the amount paid, or the market value of any property given, to acquire the MGE Units, plus any incidental costs of acquisition (eg, brokerage fees and stamp duty) that are not otherwise deductible to the MGE Unitholders. The cost base and reduced cost base of MGE Units may also be reduced by any tax deferred or other non-attributable amounts received under previous distributions. The cost base of each MGE Unit will depend on the individual circumstances of each MGE Unitholder.

#### (c) Capital proceeds

The capital proceeds for the CGT event arising from the disposal of MGE Units under the Restructure should include the market value of the Open Class Units received by an MGE Unitholder. In working out the amount that should be included in the capital proceeds for the CGT event, the market value of the Open Class Units should be determined as at the start of the day on the Implementation Date.

#### (d) Net capital gain or loss

Any capital gain (or capital loss) made by an MGE Unitholder will be aggregated with other capital gains and capital losses of the MGE Unitholder in the relevant year of income to determine whether the MGE Unitholder has an overall 'net capital gain' or overall 'net capital loss' for the income year in which the CGT event occurs.

Subject to roll-over relief, a net capital gain, if any, will be included in the MGE Unitholder's assessable income. A net capital loss may not be deducted against other assessable income, but may be carried forward to be offset against net capital gains realised in later income years.

(e) **CGT discount**

If an MGE Unitholder is an individual, complying superannuation entity or a trust, and acquired their MGE Units at least 12 months or more before the disposal, the MGE Unitholder may be entitled to apply the 'CGT discount' for any capital gain made on the disposal of their MGE Units. MGE Unitholders should seek independent advice to determine if their MGE Units have been held for the requisite period.

The 'CGT discount' provisions may entitle MGE Unitholders to reduce their capital gain on the disposal of an MGE Unit (after deducting available capital losses) by half, in the case of individuals and trusts, or by one-third in the case of Australian complying superannuation entities. The 'CGT discount' is not available to companies. As the rules relating to discount capital gains for trusts are complex, we recommend that MGE Unitholders who are trustees seek their own independent advice on how the CGT discount provisions will apply to them and the trusts' beneficiaries, as applicable.

(f) **CGT scrip for scrip roll-over relief**

An Australian resident MGE Unitholder who disposes of their MGE Units in exchange for Open Class Units, and who would otherwise make a capital gain in respect of the disposal of their MGE Units, may choose to obtain CGT scrip for scrip roll-over relief under Subdivision 124-M of the 1997 Act. Roll-over is not available if an MGE Unitholder realises a capital loss on the disposal of their MGE Units.

(i) **Application of scrip for scrip roll-over**

If CGT roll-over relief under Subdivision 124-M of the 1997 Act is available, and an MGE Unitholder elects to apply roll-over relief, then:

- a capital gain that the MGE Unitholder makes from the disposal of their MGE Units under the Restructure should be disregarded and deferred until a subsequent taxable event occurs in respect of the Open Class Units; and
- the cost base and reduced cost base of an Open Class Unit that is received by an MGE Unitholder should be worked out by reasonably attributing to it the cost base and reduced cost base (respectively) of the MGE Unit for which it was exchanged and for which the roll-over was obtained. For example, it may be reasonable for MGE Unitholders to calculate the cost base and reduced cost base of each Open Class Unit by dividing the aggregate cost bases of their MGE Units by the number of Open Class Units received.

(ii) **Acquisition date of Open Class Units**

The MGE Unitholder should be taken to have acquired the Open Class Units under the Restructure:

- for general CGT purposes, on the Implementation Date; and
- for the purposes of applying the CGT discount to any future dealings in the Open Class Units, on the date they acquired the relevant MGE Units.

(iii) **Election to apply CGT roll-over relief**

The MGE Unitholder must make a choice to apply CGT roll-over relief by the day they lodge an income tax return for the income year in which the Implementation Date occurs (that is likely to be the income year ending 30 June 2021). The choice can be evidenced by excluding the disregarded capital gain from assessable income in the MGE Unitholder's income tax return and on the Capital Gains Tax Schedule, if applicable. There is no need to lodge a separate notice with the ATO.

(g) **Where scrip for scrip roll-over is not chosen or available**

Where an MGE Unitholder is not eligible for, or does not choose, CGT roll-over relief:

- any capital gain or capital loss made by the MGE Unitholder from the disposal of their MGE Units will be taken into account in calculating the unitholder's 'net capital gain' (see above) for the income year ending 30 June 2021; and
- the first element of the cost base and reduced cost base of each Open Class Unit in the Magellan Global Fund that the MGE Unitholder receives should be equal to the market value of the MGE Units disposed of on the date the Open Class Unit is issued.

The 'acquisition date' of the Open Class Units should be the Implementation Date. This will be relevant for the purposes of determining whether the MGE Unitholder can be eligible for the CGT discount in relation to a future disposal of the Open Class Units.

## 1.2 Non-Australian tax resident MGE Unitholders

For an MGE Unitholder who:

- is a foreign resident, or the trustee of a foreign trust for CGT purposes; and
- has not used their MGE Units at any time in carrying on a business through a permanent establishment in Australia,

the disposal of the MGE Units would generally only result in Australian CGT implications if, in broad terms:

- that MGE Unitholder together with their associates held an interest of 10% or more in MGE at the time of disposal or for a 12 month period within two years preceding the disposal (referred to as a 'non-portfolio interest'); and
- more than 50% of the market value of MGE's assets is attributable to direct or indirect interests in 'taxable Australian real property' (as defined in the income tax legislation).

On the basis that less than 50% of the market value of MGE's assets is attributable to direct or indirect interests in 'taxable Australian real property' (as defined in the income tax legislation), MGE Unitholders who are non-Australian tax residents should generally be able to disregard any Australian capital gain or loss otherwise arising as a result of the disposal of the MGE Units.

A non-resident individual MGE Unitholder who has previously been an Australian tax resident and chose to disregard a capital gain or loss in respect of their MGE Units from a CGT event on ceasing to be an Australian tax resident may be subject to Australian CGT consequences on disposal of their MGE Units.

MGE Unitholders who are non-Australian tax residents should seek their own independent tax advice as to the tax implications of the Restructure, including tax implications in their country of residence.

## 2 Foreign resident capital gains tax withholding

The foreign resident capital gains withholding regime may impose a 12.5% 'withholding' obligation on an acquirer of units in a trust in certain circumstances.

However, on the basis that less than 50% of the market value of MGE's assets is, and will be on the Implementation Date, attributable to direct and indirect interests in 'taxable Australian real property' (as defined in the income tax legislation), the foreign resident capital gains withholding regime should not apply to the acquisition of MGE Units from an MGE Unitholder. Accordingly, there should not be any obligation on the acquirer to 'withhold' any amount under these rules.

## 3 GST

No GST should be payable by an MGE Unitholder (whether Australian resident or non-resident) in respect of the sale of the MGE Units.

## 4 Stamp Duty

No stamp duty should be payable in respect of the sale of the MGE Units.

## 5 Post-Restructure MGF Partnership Offer

The issue of the right to subscribe for new Closed Class Units and of the MGF Options under the post-Restructure MGF Partnership Offer should not, of itself, result in any amount being included in the assessable income of an MGE Unitholder.

Further information about the tax consequences of participating in the post-Restructure MGF Partnership Offer, and the issue of any MGF Options to an MGE Unitholder following the capital raising, is expected to be contained in subsequent product disclosure statements issued by the Magellan Global Fund RE.

Yours sincerely

Allens

### 12.9 Summary of Supplemental Deed Poll *continued*

Topic	MGE Summary
<b>Transfers to be free of encumbrances</b>	The transfer of all MGE Units is expressly required to be vested in Magellan Global Fund RE (or the Custodian) and must be free from all encumbrances, third party interests and restrictions on transfer of any kind unless otherwise referred to in the MGE Trust Scheme.
<b>Warranty given to Magellan Global Fund RE</b>	Each MGE Trust Scheme Participant, and each Ineligible Foreign MGE Unitholders, warrants to Magellan Global Fund RE that all their MGE Units held as at the date of the transfer will be fully paid and free from encumbrances, and that they have the full power and capacity to sell and transfer their MGE Units.
<b>Irrevocable agreements by the MGE Trust Scheme Participants and the Ineligible Foreign MGE Unitholders</b>	Under the MGE Trust Scheme, the MGE Trust Scheme Participants and the Ineligible Foreign MGE Unitholders irrevocably: <ul style="list-style-type: none"> <li>– acknowledge that they and the MGE RE are bound by the MGE Constitution clauses as inserted by the Supplemental Deed Poll (regardless of whether they attend the Meeting or vote in favour);</li> <li>– agree to the transfer of their MGE Units, and to any variation, cancellation or modification of rights attached to their MGE Units resulting from the MGE Trust Scheme;</li> <li>– agree to provide information reasonably required for MGE RE or Magellan Global Fund RE to comply with law (including AML);</li> <li>– consent to MGE RE and Magellan Global Fund RE doing all things necessary (including execution of transfers and other documents) to give full effect to the MGE Trust Scheme.</li> </ul>

The appointment is made by MGE RE as attorney and agent of each of them. This applies from the Implementation Date until the Magellan Global Fund RE is registered as the holder of all MGE Units.
<b>Treatment of separate parcels held by custodians</b>	For the purposes of implementing the MGE Trust Scheme, each separate parcel of MGE Units held in a capacity as trustee, custodian or nominee for another person will be treated as though it were held by a separate MGE Unitholder.
<b>Sale Facility for Ineligible Foreign Holders</b>	Provisions are inserted to govern and facilitate a sale facility in respect of MGE Units held by Ineligible Foreign Holders. Magellan Global Fund RE must not issue any Open Class Units to Ineligible Foreign Holders and must instead issue them to the Sale Nominee, and that the Sale Nominee sells them in the ordinary course of trading on the ASX, and pay the proceeds (net of all costs) to the Ineligible Foreign Holders proportionate to the number of Open Class Units that they would otherwise have been issued.

<b>Court orders and orders of a regulatory authority</b>	If Magellan Global Fund RE, the MGE Registry or the Unit Registry receive written notice, from a court or other regulatory authority, requiring any Scheme Consideration or Sale Facility proceeds to be given or paid to a person other than the relevant MGE Trust Scheme Participant or Ineligible Foreign MGE Unitholder, then Magellan Fund RE is entitled to comply with the order and, if that involves issuing Scheme Consideration to or paying money to somebody else, then doing so will discharge the obligation to the relevant MGE Trust Scheme Participant or Ineligible Foreign MGE Unitholder.
<b>Determination of scheme units</b>	The MGE Register on the MGE Trust Scheme Record Date will determine the persons that hold MGE Units on the MGE Trust Scheme Record Date (and who therefore is an MGE Trust Scheme Participant or an Ineligible Foreign MGE Unitholder) and entitlement to the Scheme Consideration. CHESS or other registrable transfers must be received on or before the MGE Trust Scheme Record Date.

### 12.10 Constitutional Amendment Resolution

The amendments proposed to be made to the MGE Constitution in order to implement the MGE Trust Scheme as contemplated by the Constitutional Amendment Resolution are set out in full in Schedule 4 of this Explanatory Memorandum.

### 12.11 Related Party Resolution

Chapter 2E (as modified by Part 5C.7) of the Corporations Act (the Related Party Rules) requires that a responsible entity must not give a financial benefit out of scheme property (or which could endanger scheme property) to itself or a related party without member approval (unless an exception applies).

In accordance with the Related Party Rules, Magellan (in its personal capacity and also as the responsible entity of MGE) and MFG are each related parties of Magellan Global Fund RE in connection with the MGE Trust Scheme.

In determining whether the MGE Trust Scheme will confer a 'financial benefit' on Magellan or MFG, the Related Party Rules require the giving of a broad interpretation to the financial benefits being given. Financial benefits may be given indirectly and do not need to involve the payment of money.

Having regard to the Related Party Rules, MGE RE proposes to seek MGE Unitholder approval for the MGE Trust Scheme in the way set out in Chapter 2E as modified by Part 5C.7 of the Corporations Act.

Section 219 of the Corporations Act requires certain information to be provided to unitholders in connection with the Related Party Resolution. This Explanatory Memorandum sets out the following information in connection with the Related Party Resolution.

#### a) Identity of the related party

The parties receiving a financial benefit under the MGE Trust Scheme are MFG and Magellan. MFG owns 100% of Magellan and Magellan is the responsible entity of Magellan Global Fund and are therefore both related parties of MGE RE.

#### b) Nature of the financial benefit

- i) **(Potential for increased and more certain management fee revenue)** The MGF Partnership Offer may result in a significant increase in the number of Closed Class Units on issue. As these Closed Class Units do not have a redemption right, a larger amount of funds under management of the Magellan Global Fund (pursuant to which Magellan derives its management fee revenue) is expected to be more certain compared to the funds under management of Magellan Global Fund and MGE respectively prior to the MGE Trust Scheme (as the units in those trusts are subject to redemption rights by investors) and therefore be of a benefit to Magellan. In addition, Magellan may experience an increase in funds under management as a result of the exercise of MGF Options by holders. This will increase the number of Closed Class Units on issue and increase Magellan's management fee revenue.
- ii) **(Potential for earlier entitlement to MGE performance fee)** The MGE Trust Scheme may result in the performance fee period being brought forward from 31 December 2020 to the Effective Date in order to align the calculation periods for the performance fees of MGE, Magellan Global Fund and MGG Unitholders, as the MGE Unitholders and MGG Unitholders become Open Class Unit and Closed Class Unit holders respectively. This may result in performance fees becoming payable in the funds that would otherwise not have been payable, or becoming payable earlier than they might otherwise have done, resulting in a benefit to Magellan. The impact of this potential change will not be known on the Implementation Date, however, the performance fees are accrued in the daily net asset value of each respective fund and are therefore already reflected in the unit price.

The value of these benefits is not capable of being accurately quantified, as they are based on a number of variables including the likely uptake of Closed Class Units, the number of MGF Options that are issued and exercised and whether MGE RE will be entitled to a performance fee if the calculation is brought forward.

As MFG is the Holding Company of Magellan, any financial benefits given to Magellan will also accrue to MFG.

## 12 Additional Information

### 12.11 Related Party Resolution *continued*

#### c) Governance and conflicts of interest

Magellan is the responsible entity of each of the three entities that are involved in the Restructure (i.e. Magellan Global Fund, MGE and MGG). In discharging the duties that it owes separately to the unitholders of these three entities, Magellan has considered and given separate and independent consideration to what is in the best interests of each set of unitholders in each of Magellan Global Fund, MGE and MGG.

Magellan has also adopted a number of governance measures to the implementation of the Restructure including, without limitation, appointment of separate legal counsel for each of Magellan Global Fund, MGE and MGG, ASIC review, the seeking of judicial advice and the appointment of the Independent Expert and the commission of three separate independent expert's report for each of the Restructure, the MGE Trust Scheme and MGG Trust Scheme.

#### d) Recommendation of each Director of MGE RE

Each of the MGE RE Directors recommend that MGE Unitholders approve the Related Party Resolution for the reasons set out in this Explanatory Memorandum, including that each of the MGE RE Directors consider the MGE Trust Scheme to be in the best interests of the MGE Unitholders.

In forming this recommendation, each MGE RE Director considered the alternatives to the MGE Trust Scheme, specifically:

- i) amending the MGE Constitution to allow applications and redemptions directly with MGE RE;
- ii) whether an alternative transaction could be pursued with MGF involving the acquisition of MGE but no acquisition MGG, and
- iii) not undertaking the MGE Trust Scheme and retaining the status quo,

but determined that the benefits of the MGE Trust Scheme outweighed the potential risks and disadvantages of the MGE Trust Scheme, as set out in this Explanatory Memorandum. Each Director considered the MGE Trust Scheme to be superior to the alternatives considered and that not proceeding with the MGE Trust Scheme would preclude MGE Unitholders from realising the benefits that MGE RE expects the Restructure to bring.

#### e) Interest of each Director in the outcome of the resolution

The MGE RE Directors do not have any direct interest in outcome of the Related Party Resolutions. Certain of the MGE RE Directors are also directors of MFG, however, that interest is not regarded as material for the purposes of the Related Party Resolution.

The MGE RE Directors may have an indirect interest in the outcome of the Related Party Resolution through their holding of any shares in MFG and units in MGE, Magellan Global Fund or MGG (as the case may be). Details of each directors' holding are set out in Section 12.1 of this Explanatory Memorandum.

#### f) Additional Information

All other information that is reasonably required to decide whether or not to vote in favour of the Related Party Resolution is disclosed in other sections of this Explanatory Memorandum.

## 12 Additional Information

### 12.15 Tax file numbers

Under Australian tax law, a fund is entitled to ask its unitholders to disclose their tax file numbers (**TFN**) to the fund. A unitholder can choose to disclose or not disclose their TFN.

If a unitholder chooses not to disclose their TFN or details of any relevant exemptions to the fund, the fund is required under Australian tax law to withhold tax, on distributions paid or income attributed to the unitholder, unless the distribution is a return of capital. If the tax withheld by the fund is more than the unitholder would have paid in tax, the unitholder must wait until he or she lodges an income tax return before being entitled to an income tax offset or refund (as applicable) of any excess tax withheld from the distributions payment. On the other hand, if a unitholder chooses to disclose their TFN or details of any relevant exemptions, the fund does not have to withhold any tax from any distributions paid to the unitholder.

As part of the MGE Trust Scheme, MGE RE (or the MGE Registry) will, unless otherwise directed by MGE Unitholders, transfer the TFNs provided to MGE RE by MGE Unitholders to Magellan Global Fund RE (or the Unit Registry) on behalf of the MGE Unitholders in respect of their tax affairs so that Magellan Global Fund RE will not otherwise be required to withhold tax from any distribution payments as described above.

However, an MGE Unitholder may request that MGE RE not transfer that MGE Unitholder's TFN to Magellan Global Fund RE.

If you would not like MGE RE to transfer your TFN to Magellan Global Fund RE (and therefore you accept that Magellan Global Fund RE may be required to withhold tax), please call the MGE Registry on +61 1800 206 847.

If an MGE Unitholder does not request that they do not wish their TFN to be disclosed and collected in accordance with the process discussed above, they are deemed under the terms of the MGE Trust Scheme to agree to such disclosure and collection of their TFN.

### 12.16 Discretions affecting the amount of consideration to acquire interests and payments for withdrawal

In accordance with ASIC Class Order [CO 13/657], Magellan Global Fund RE has prepared documents that record how Magellan Global Fund RE will exercise a discretion that affects either the amount of the consideration to acquire Units or the terms of any payment arising from withdrawing from Magellan Global Fund. These documents are available from Magellan Global Fund RE at no charge by contacting 1800 6243 5526.

### 12.17 Supplementary Information to Explanatory Memorandum

#### **Subject: Proposed acquisition of Magellan Global Equities Fund by way of Scheme**

Dear Directors

#### **Introduction**

- 1 On 3 August 2020, Magellan Asset Management Limited (Magellan) announced a proposed series of transactions which will have the effect of consolidating its three existing global equities retail funds, being the (unlisted, open ended) Magellan Global Fund (MGF), the (listed, open ended) Magellan Global Equities Fund (MGE) and the (listed, closed ended) Magellan Global Trust (MGG) into a single trust (Proposed Restructure). Should the Proposed Restructure be implemented, the three funds will be consolidated into a single fund (MGF) with two unit classes (an Open Class and a Closed Class). It is intended that both classes of the merged trust be quoted on the Australian Securities Exchange (ASX).
- 2 In order to implement the component of the Proposed Restructure as it relates to existing unitholders in MGE, it is proposed that MGF will acquire all of the units in MGE on a unit for unit basis at net asset value (NAV). Magellan (as responsible entity (RE) for MGE) has entered into a Scheme Implementation Deed with Magellan (as RE for MGF) which outlines the terms and conditions of the proposed acquisition (the Agreement). The acquisition of MGE units is to be implemented via a trust scheme of arrangement between MGE and its unitholders (the Scheme) and is subject to a number of conditions precedent as summarised in Section I of our report.
- 3 If the Scheme is approved and implemented, MGE unitholders will be offered Open Class units in MGF in exchange for the existing MGE open class units they hold on the Scheme Record Date<sup>1</sup>, such that they receive the same underlying NAV of Open Class units in MGF as they hold in MGE units on the Scheme effective date (Scheme Consideration).

<sup>1</sup> The Scheme Record Date is presently expected to be 7:00pm on the second business day after the Scheme becomes effective.

## Schedule 2 Independent Expert's Report

- 4 Should the Proposed Restructure be approved and implemented<sup>2</sup>, Magellan (as RE for MGF) intends to provide the following additional benefits to eligible unitholders in the enlarged MGF:
- (a) offer all unitholders (both Open Class and Closed Class) the ability to subscribe for new MGF Closed Class units, and an option for each new MGF Closed Class unit issued (the MGF Partnership Offer)
  - (b) issue bonus options to holders of Closed Class units on the basis of one bonus option for every two Closed Class units held (the Bonus MGF Option issue)<sup>3</sup>.
- 5 The MGF Partnership Offer will entitle eligible MGF unitholders to subscribe for \$1 of new Closed Class units for every \$4 of MGF units held based on their unit balance at the calculation date<sup>4</sup>, capped at the balance of their unitholding at the Scheme implementation date. The subscription price for the new Closed Class units will be the NAV per Closed Class unit on the business day immediately prior to their allotment. Successful applicants will also receive a benefit in the form of additional Closed Class units worth 7.5% of the amount subscribed<sup>5</sup>.
- 6 Each option issued under the MGF Partnership Offer will be exercisable into a Closed Class unit in MGF, with the exercise price set at a 7.5% discount to the prevailing NAV per unit at the time of exercise<sup>6</sup>. The options will have a three year term and be exercisable daily, subject to an initial hold period. It is intended that all options be quoted on the ASX.

### Purpose of report

- 7 The mechanisms used to implement a trust scheme<sup>7</sup> are based upon and governed by the *Corporations Act 2001* (Cth) (Corporations Act) provisions, Takeovers Panel guidance and general trust law<sup>8</sup>.
- 8 A transfer trust scheme cannot be implemented without a securityholder vote under s611(7) of the Corporations Act. The Corporations Act requires securityholders approving a s611(7) resolution to be provided with all material information in relation to the proposed transaction. The Australian Securities & Investments Commission (ASIC) requires an entity to commission an independent expert's report (IER) or, if it has the expertise, a director's report

---

<sup>2</sup> In addition to approval from MGE unitholders, the Proposed Restructure also requires the approval of MGF and MGG unitholders.

<sup>3</sup> The Bonus MGF Option issue will be for the benefit of MGF Closed Class unitholders only. Existing MGF and MGE Open Class unitholders will not be eligible for the Bonus MGF Option issue.

<sup>4</sup> Expected to be determined in January 2021.

<sup>5</sup> Magellan's parent company, Magellan Financial Group Limited (MFG), will pay into MGF an amount equal to the cost of these additional units to minimise NAV per unit dilution.

<sup>6</sup> MFG will also pay into MGF an amount equal to the 7.5% discount to minimise NAV per unit dilution.

<sup>7</sup> As noted in Section II of our report, whilst MGE is technically not a listed management investment scheme, in the interests of full disclosure we have assessed the proposed Scheme with MGF as if this were the case.

<sup>8</sup> Although a trust scheme in some ways resembles a company scheme of arrangement, listed managed investment schemes cannot be the subject of a company scheme of arrangement under Part 5.1 of the Corporations Act. It should also be noted that there is no specific statutory mechanism for the implementation of a trust scheme, and unlike a Part 5.1 scheme of arrangement, a trust scheme is not supervised in the same way by the courts or ASIC. However, this IER has been prepared as if the same technical rules applied.

## Schedule 2 Independent Expert's Report

to the same standard, in order to discharge the information disclosure requirements imposed upon it by the Corporations Act.

- 9 The Takeovers Panel has assumed jurisdiction of disputes involving trust schemes and has published Takeovers Panel Guidance Note 15 – *Trust scheme mergers* (TPGN 15), which sets out its approach to supervising trust schemes. TPGN 15 requires the Notice of Meeting and Explanatory Memorandum to contain a report by an independent expert that states, inter alia, whether, in the expert's opinion, the terms of the trust scheme are fair and reasonable to the holders of the target other than the acquirer and its associates.
- 10 Further, the Scheme as proposed is subject to a number of conditions precedent, including an independent expert concluding that the Scheme is in the best interests of MGE unitholders. In addition, the Magellan Directors' recommendation of the Scheme (in the absence of a superior proposal) is subject to an independent expert concluding and continuing to conclude that the Scheme is in the best interests of MGE unitholders.
- 11 Accordingly, the Magellan Directors have requested Lonergan Edwards & Associates Limited (LEA) to prepare an IER stating whether, in our opinion, the Scheme is fair and reasonable and in the best interests of MGE unitholders and the reasons for that opinion.
- 12 LEA is independent of MGE and MGF (and MGG and MFG) and has no other involvement or interest in the proposed Scheme.

### Summary of opinion

- 13 In our opinion, the Scheme is fair and reasonable and in the best interests of MGE unitholders in the absence of a superior proposal (which in our view is unlikely). We have formed this opinion for the reasons set out below.

### Fair and reasonable opinion

- 14 Pursuant to ASIC Regulatory Guide 111 – *Content of expert reports* (RG 111), a scheme is "fair" if the value of the scheme consideration is equal to or greater than the value of the securities the subject of the scheme.
- 15 As noted above, if the Scheme is approved and implemented, MGE unitholders will be offered Open Class units in MGF in exchange for the existing MGE open class units they hold such that they receive the same underlying NAV of Open Class units in MGF as they hold in open class units in MGE.
- 16 Accordingly, as the underlying NAV of the Scheme Consideration (Open Class units in MGF) will be equal to the underlying NAV of the open class units in MGE being acquired, in our opinion, the Scheme Consideration is fair to MGE Open Class unitholders when assessed based on the guidelines set out in RG 111.
- 17 Pursuant to RG 111, a transaction is reasonable if it is fair. Further, in our opinion, if the Scheme is "fair and reasonable" it must also be "in the best interests" of unitholders.
- 18 Consequently, in our opinion, the Scheme is also "reasonable" and "in the best interests" of MGE open class unitholders in the absence of a superior proposal.

### Assessment of the Scheme

- 19 We summarise below the likely advantages and disadvantages of the Scheme for MGE unitholders.

#### Advantages

- 20 The Scheme has the following advantages for MGE open class unitholders:
- (a) the liquidity position of existing MGE unitholders will be enhanced pursuant to implementation of the Scheme as a result of both:
    - (i) the increase in the number of units on issue
    - (ii) the advised intention of Magellan (as RE of MGF) to effectively provide existing MGE open class unitholders with a redemption option (subject to the prescribed conditions) at the prevailing NAV per unit by direct application to Magellan. This redemption option is not currently available to MGE unitholders
  - (b) they will be eligible to participate in the MGF Partnership Offer and should they choose to do so, they will receive a significant financial advantage in the form of both additional Closed Class units in MGF (above the number of units subscribed for), together with options (which will be quoted on the ASX and exercisable at a discount). This financial advantage will be in the form of:
    - (i) an immediate increase in the value of a unitholder's investment (based on NAV) of 7.5% of the amount subscribed
    - (ii) an increase of 7.5% in the annual distributions to unitholders on the amount subscribed (noting that this is a "mirror image" of the higher NAV)
    - (iii) three year options offering a further benefit of some 7.5% on further capital able to be subscribed (pursuant to the MGF Partnership Offer)
  - (c) the MGF Partnership Offer provides the potential for a material increase in the number of units on issue without diluting unitholders' equity
  - (d) the MGF Partnership Offer of Closed Class units will provide permanent unitholder capital also without diluting unitholders' equity
  - (e) furthermore, post the Scheme some MGF Open Class unitholders can be expected to arbitrage any price gap that may emerge between Open Class and Closed Class units
  - (f) there will be no associated cost attributable to these financial benefits as the costs of the Scheme, together with the costs of the Proposed Restructure generally, and the costs of the MGF Partnership Offer including the costs of the additional units and options, are to be borne by MFG (the parent company of Magellan, the RE of MGE).

#### Disadvantages

- 21 As a result of the significant increase in the number of units on issue, the relative voting power of existing MGE open class unitholders will reduce. However, in the circumstances of the Scheme, we do not consider this to represent a material disadvantage. Accordingly, in our opinion, there are no material disadvantages that will accrue to existing MGE open class unitholders pursuant to implementation of the Scheme.

### Conclusion

- 22 Given the above analysis, we consider the acquisition of MGE open class units under the Scheme is fair and reasonable and in the best interests of MGE unitholders in the absence of a superior proposal (which in our view is unlikely).

### General

- 23 In preparing this report we have considered the interests of MGE unitholders as a whole. Accordingly, this report only contains general financial advice and does not consider the personal objectives, financial situations or requirements of individual unitholders.
- 24 The impact of approving the Scheme on the tax position of MGE unitholders depends on the individual circumstances of each investor. MGE unitholders should read the Notice of Meeting and Explanatory Memorandum and consult their own professional advisers if in doubt as to the taxation consequences of the Scheme.
- 25 The ultimate decision whether to approve the Scheme should be based on each MGE unitholder's assessment of their own circumstances. If MGE unitholders are in doubt about the action they should take in relation to the Scheme or matters dealt with in this report, unitholders should seek independent professional advice. For our full opinion on the Scheme and the reasoning behind our opinion, we recommend that MGE unitholders read the remainder of our report.

## I Key terms of the Scheme

### Terms

- 26 On 3 August 2020, Magellan Asset Management Limited (Magellan) announced a proposed series of transactions which will have the effect of consolidating its three existing global equities retail funds, being the (unlisted, open ended) Magellan Global Fund (MGF), the (listed, open ended) Magellan Global Equities Fund (MGE) and the (listed, closed ended) Magellan Global Trust (MGG) into a single trust (Proposed Restructure). Should the Proposed Restructure be implemented, the three funds will be consolidated into a single fund (MGF) with two unit classes (an Open Class and a Closed Class). It is intended that both classes of the merged trust be quoted on the ASX.
- 27 In order to implement the component of the Proposed Restructure as it relates to existing unitholders in MGE, it is proposed that MGF will acquire all of the units in MGE on a unit for unit basis with the same underlying NAV. Magellan (as RE for MGE) has entered into a Scheme Implementation Deed with Magellan (as RE for MGF) which outlines the terms and conditions of the proposed acquisition (the Agreement). The acquisition of MGE units is to be implemented via a trust scheme of arrangement between MGE and its unitholders (the Scheme) and is subject to a number of conditions precedent as summarised below.
- 28 If the Scheme is approved and implemented, MGE unitholders will be offered Open Class units in MGF in exchange for the existing MGE units they hold on the Scheme Record Date<sup>9</sup>, such that they receive the same underlying NAV of open class units in MGF as the underlying NAV of the units they hold in MGE units on the Scheme effective date (Scheme Consideration).
- 29 Should the Proposed Restructure be approved and implemented<sup>10</sup>, Magellan (as RE for MGF) intends to provide the following additional benefits to eligible unitholders in the enlarged MGF:
- (a) offer all unitholders (both Open Class and Closed Class) the ability to subscribe for new MGF Closed Class units, and an option for each new Closed Class unit issued (the MGF Partnership Offer)
  - (b) issue bonus options to holders of Closed Class units on the basis of one bonus option for every two Closed Class units held (the Bonus MGF Option issue)<sup>11</sup>.
- 30 The MGF Partnership Offer will entitle eligible MGF unitholders to subscribe for \$1 of new Closed Class units for every \$4 of MGF units held based on their unit balance at the calculation date<sup>12</sup>, capped at the balance of their unitholding at the Scheme implementation date. The subscription price for the new Closed Class units will be the NAV per Closed Class

<sup>9</sup> The Scheme Record Date is presently expected to be 7:00pm on the second business day after the Scheme becomes effective.

<sup>10</sup> In addition to approval from MGE unitholders, the Proposed Restructure also requires the approval of MGF and MGG unitholders.

<sup>11</sup> The Bonus MGF Option issue will be for the benefit of existing MGG Closed Class unitholders only. Existing MGF and MGE Open Class unitholders will not be eligible for the Bonus MGF Option issue.

<sup>12</sup> Expected to be determined in January 2021.

unit on the business day immediately prior to their allotment. Successful applicants will also receive a benefit in the form of additional Closed Class units worth 7.5% of the amount subscribed<sup>13</sup>.

- 31 Each option issued will be exercisable into a Closed Class unit in MGF, with the exercise price set at a 7.5% discount to the prevailing NAV per unit at the time of exercise<sup>14</sup>. The options will have a three year term and be exercisable daily, subject to an initial holding period. It is intended that all options be quoted on the ASX.

### Conditions

- 32 The Scheme is subject to the satisfaction of a number of conditions precedent, including the following which are outlined in the Agreement dated 2 August 2020:

  - (b) MGE unitholder approval by the requisite majorities at the Scheme meeting
  - (c) MGF unitholder approval of the Proposed Restructure
  - (d) MGG (the other target trust) unitholder approval by the requisite majorities at the MGG Scheme meeting
  - (e) no government or governmental agency action prohibits, materially restricts, makes illegal or restrains the completion of the Scheme
  - (f) no prescribed occurrence occurs with respect to MGE
  - (g) judicial advice from the Court relating to the Scheme
  - (h) judicial advice from the Court relating to the MGF unitholder resolutions
  - (i) an independent expert issues a report which concludes that the Scheme is in the best interests of MGE unitholders
  - (j) an independent expert issues a report which concludes that the Proposed Restructure is in the best interests of MGF unitholders
  - (k) ASX approves the admission of MGF to the official list of ASX and the official quotation of the Closed Class units
  - (l) ASX approves the admission to Trading Status of the MGF Open Class units.

### Resolution

- 33 MGE unitholders will be asked to vote on the Scheme in accordance with the resolutions contained in the Notice of Meeting and Explanatory Memorandum:
- (a) a special resolution (i.e. at least 75% of the votes cast) for the purposes of s601GC(1) of the Corporations Act to approve amendments to MGE's Constitution in order to facilitate the implementation of the Scheme
  - (b) an ordinary resolution (i.e. majority of votes cast) to approve the Scheme pursuant to Chapter 2E of the Corporations Act (as modified by Part 5C.7 of the Corporations Act).

<sup>13</sup> Magellan's parent company, MFG, will pay into MGF an amount equal to the cost of these additional units to minimise NAV per unit dilution.

<sup>14</sup> MFG will also pay into MGF an amount equal to the 7.5% discount to minimise NAV per unit dilution.

## II Scope of our report

### Purpose

- 34 MGE is quoted on AQUA rather than listed on the ASX and accordingly MGE is technically not a listed management investment scheme. Notwithstanding, we have assessed the proposed Scheme with MGF as if MGE was a listed management investment scheme.
- 35 Although a trust scheme in some ways resembles a company scheme of arrangement, listed managed investment schemes cannot be the subject of a company scheme of arrangement under Part 5.1 of the Corporations Act. It should also be noted that there is no specific statutory mechanism for the implementation of a trust scheme, and unlike a Part 5.1 scheme of arrangement, a trust scheme is not supervised in the same way by the courts or ASIC. Rather, the mechanisms used to implement a trust scheme are governed by the Corporations Act provisions (e.g. s611(7)), Takeovers Panel guidance and general trust law.

### Corporations Act

- 36 Section 606 of the Corporations Act generally prohibits the acquisition of a relevant interest in issued voting securities of an entity if the acquisition results in a person's voting power in a company increasing from below 20% to more than 20%, or from a starting point between 20% and 90%, unless a permissible exception applies. Section 604 of the Corporations Act extends the s606 prohibition to managed investment schemes.
- 37 A permissible exception to the s606 prohibition is set out in s611(7), whereby such an acquisition is allowed when it is approved by a majority of securityholders at a general meeting and no votes are cast by the proposed acquirer, vendor or any of their respective associates. Transfer trust schemes cannot be implemented without a vote under s611(7), which must be modified by ASIC in order to enable the vendors not associated with the acquirer to vote on the scheme.
- 38 The Corporations Act requires securityholders approving a s611(7) resolution to be provided with all material information in relation to the proposed transaction. ASIC requires an entity to commission an IER or, if it has the expertise, a director's report to the same standard, in order to discharge the information disclosure requirements imposed upon it by the Corporations Act.

### Takeovers Panel

- 39 The Takeovers Panel has assumed jurisdiction of disputes involving trust schemes and considers that the principles in s602 of the Corporations Act and the other policies and protections of Chapter 6 (which concern takeovers) should apply to trust schemes.
- 40 TPGN 15 sets out the Takeover Panel's approach to supervising trust schemes. TPGN 15 requires the Notice of Meeting and Explanatory Memorandum to contain a report by an independent expert. This mandatory requirement is supported by usual practice, the absence of judicial and/or ASIC scrutiny, and the fact that every trust scheme is recommended by the RE of the target even though it has an interest because its management rights are affected.
- 41 The expert report should state:
- (a) whether, in the expert's opinion, the terms of the trust scheme are fair and reasonable to the holders of the target other than the acquirer and its associates

## Schedule 2 Independent Expert's Report

- (b) the expert's reason for forming that opinion (taking into account acquisitions by the acquirer and its associates in the past four months)
- (c) the particulars required by s648A(3) of the Corporations Act (which deals with independence).

### Other relevant considerations

- 42 The Scheme as proposed is subject to a number of conditions precedent, including an independent expert concluding that the Scheme is in the best interests of MGE unitholders. In addition, the Magellan Directors' recommendation of the Scheme (in the absence of a superior proposal) is subject to an independent expert concluding and continuing to conclude that the Scheme is in the best interests of MGE unitholders.

### Our engagement

- 43 Given the above, the Directors of Magellan (as RE of MGE) have requested LEA to prepare an IER stating whether the proposed acquisition of the units in MGE by MGF under the Scheme is fair and reasonable and in the best interests of MGE unitholders and the reasons for that opinion.
- 44 This report has been prepared by LEA for the benefit of MGE unitholders to assist them in considering the resolutions to approve the Scheme. Our report will accompany the Notice of Meeting and Explanatory Memorandum to be sent to MGE unitholders. The sole purpose of our report is to determine whether, in our opinion, the Scheme is fair and reasonable and in the best interests of MGE unitholders. This report should not be used for any other purpose.
- 45 The ultimate decision whether to approve the Scheme should be based on each MGE unitholder's assessment of their own circumstances. If in doubt about the action they should take in relation to the Scheme or matters dealt with in this report, unitholders should seek independent professional advice.

### Basis of assessment

- 46 In preparing our report we have given due consideration to the Regulatory Guides issued by ASIC including, in particular, RG 111, which outlines the approaches which should be used in IERs when opining on public company transactions.
- 47 We have also had regard to TPGN 15, which requires us to form a view as to whether the Scheme is fair and reasonable to the MGE unitholders. TPGN 15 does not define fair and reasonable but does state that the takeover provisions (i.e. Chapter 6) of the Corporations Act apply to trust schemes.
- 48 RG 111 distinguishes "fair" from "reasonable" and considers:
- (a) the scheme to be "fair" if the value of the scheme consideration is equal to or greater than the value of the securities that are the subject of the scheme. A comparison must be made assuming 100% ownership of the target company
  - (b) the scheme to be "reasonable" if it is fair. The scheme may also be "reasonable" if, despite not being "fair" but after considering other significant factors, there are sufficient reasons for unitholders to approve the scheme in the absence of a superior proposal.

## Schedule 2 Independent Expert's Report

- 49 There is no legal definition of the expression “in the best interests”. However, RG 111 states that a scheme may be “*in the best interests of the members of the company*” if there are sufficient reasons for securityholders to vote in favour of the scheme in the absence of a higher offer.
- 50 In our opinion, if the Scheme is “fair” and “reasonable” under RG 111 it must also be “in the best interests” of MGE unitholders.
- 51 Our report has therefore considered:
- (a) the market value of 100% of the open class units in MGE
  - (b) the value of the consideration offered by MGF, being Open Class units in MGF
  - (c) the extent to which (a) and (b) differ (in order to assess whether the Scheme is fair under RG 111)
  - (d) the comparative position of MGE open class unitholders prior to the Scheme and on the assumption that the Scheme is implemented
  - (e) the advantages and disadvantages of the Scheme generally from the perspective of MGE unitholders
  - (f) other qualitative and strategic issues associated with the Scheme.

### Limitations and reliance on information

- 52 Our opinions are based on the economic, share market, financial and other conditions and expectations prevailing at the date of this report. Such conditions can change significantly over relatively short periods of time.
- 53 Our report is also based upon financial and other information provided by MGE and its advisers. We understand the accounting and other financial information that was provided to us has been prepared in accordance with the Australian equivalents to International Financial Reporting Standards. We have considered and relied upon this information and believe that the information provided is reliable, complete and not misleading and we have no reason to believe that material facts have been withheld.
- 54 The information provided was evaluated through analysis, enquiry and review to the extent considered appropriate for the purpose of forming an opinion on the Scheme from the perspective of MGE securityholders. However, we do not warrant that our enquiries have identified or verified all of the matters which an audit, extensive examination or “due diligence” investigation might disclose. Whilst LEA has made what it considers to be appropriate enquiries for the purpose of forming its opinion, “due diligence” of the type undertaken by companies and their advisers in relation to (for example) prospectuses or profit forecasts is beyond the scope of an IER.
- 55 Accordingly, this report and the opinions expressed therein should be considered more in the nature of an overall review of the anticipated commercial and financial implications of the proposed transaction, rather than a comprehensive audit or investigation of detailed matters. Further, this report and the opinions therein, must be considered as a whole. Selecting specific sections or opinions without context or considering all factors together, could create a

misleading or incorrect view or opinion. This report is a result of a complex assessment process that does not lend itself to a partial analysis or summary.

- 56 An important part of the information base used in forming an opinion of the kind expressed in this report is comprised of the opinions and judgement of management of the relevant companies. This type of information has also been evaluated through analysis, enquiry and review to the extent practical. However, it must be recognised that such information is not always capable of external verification or validation.
- 57 In forming our opinion, we have also assumed that:
- (a) the information set out in the Notice of Meeting and Explanatory Memorandum is complete, accurate and fairly presented in all material respects
  - (b) if the Scheme becomes legally effective, it will be implemented in accordance with the terms set out in the Agreement and the terms of the Scheme itself.

The management fees cover all fees, costs, charges, expenses and outgoings that are incurred, such as administration and accounting costs, registry fees, audit and tax advice fees, and investor reporting expenses. ### Strategy

#### Investment objectives

- 63 MGE's investment objectives are to provide attractive risk-adjusted returns of 9% per annum over the medium to long term, whilst reducing the risk of permanent capital loss. Magellan aims to achieve these objectives by investing in a portfolio of high quality global companies that provide potential for capital growth over the medium to long term.

## Schedule 2 Independent Expert's Report

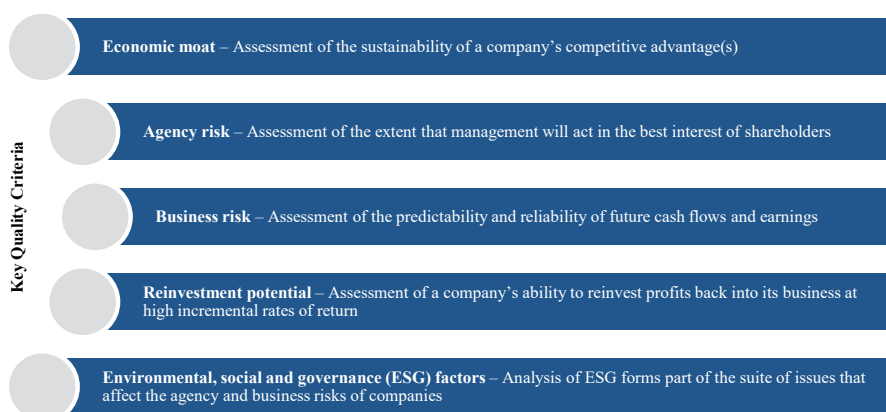

### Investment strategy

- 64 Magellan invests in a focused portfolio of outstanding global companies, which are considered to have a competitive advantage that can be sustainably exploited in order to earn returns on capital that are in excess of the company's cost of capital. Magellan undertakes extensive fundamental company analysis and seeks to purchase investments when they are trading at a discount to their assessed intrinsic value.
- 65 Magellan also undertakes detailed macroeconomic analysis in order to take advantage of mispricing of economic cycles to manage investment risk. Magellan is able to invest up to 20% of MGE's gross assets in cash and cash equivalents and borrow up to 5% of MGE's gross assets.
- 66 MGE's investment strategy focuses on risk-adjusted returns, rather than benchmark-relative returns. Notwithstanding this, Magellan's performance fee is calculated with reference to benchmark indices.

### Investment process

- 67 Magellan's investment process integrates three key disciplines:
- (a) **intensive bottom-up stock analysis and industry research** – through in-depth, proprietary company research, seeking to identify sustainable competitive advantages that enable businesses to generate excess returns on capital and predictable cash flow streams. This information is then used to identify stock valuation anomalies. Company research includes an assessment of a company's inherent quality based on the following specific key quality criteria:

#### MGE – key quality criteria

- (b) **broad and detailed macroeconomic insight** – Magellan also undertakes proprietary macroeconomic research in order to identify and manage risks and opportunities presented by the macroeconomic environment which can be applied in most market conditions to protect the portfolio from external shocks

- (c) **rigorous portfolio construction and risk discipline** – Magellan utilises portfolio construction and formal risk control processes to provide downside protection in falling markets, whilst also providing the flexibility to participate in varying stages of the market cycle.

## Permitted investments

- 68 MGE is permitted to invest in global listed securities (80% to 100% of fund assets) and cash and cash equivalents (0% to 20% of fund assets). The fund may also enter into foreign exchange contracts to settle stock purchases.

## Investment parameters

Asset classes and allocation ranges	Securities – 80% to 100% Cash and cash equivalents – 0% to 20%

  - 2 On 5 May 2016, a new tax regime applying to Attributable Managed Investment Trusts (AMIT) was established under the *Tax Laws Amendment (New Tax System for Managed Investment Trusts) Act 2016* (Cth). The AMIT regime allows managed investment trusts that meet certain requirements to make an irrevocable choice to be an AMIT. MGE elected into the AMIT regime effective 30 June 2018. As a consequence, at 30 June 2018, the units in MGE met the definition of equity under AASB 132 – *Financial Instruments: Presentation*. As a result, equity transactions including distributions have been included in the Statement of Changes in Equity.
- 

- 73 Regarding MGE's FY19 financial performance and outlook, MGE's Annual Fund Review 2019 stated the following:

***“Performance***

*Global stocks rose in the 12 months to June 2019 after companies posted higher-than-expected earnings, the US economy expanded briskly without generating inflation, the Federal Reserve indicated it would stop, and possibly reverse, its gradual tightening of US monetary policy, and the European Central Bank said it would ‘use all the instruments that are in the toolbox’ to help the eurozone’s weak economy. Gains were capped by concerns global growth might slow, driven by China-US tensions and rising political uncertainty in Europe.*

*The portfolio recorded a return after fees of 20.0% for the 12 months...*

*The stocks that performed best included the investments in Starbucks (+3.7% of the total portfolio return), Microsoft (+2.5%), Visa (+2.00%), Yum! Brands (+1.7%), Mastercard (+1.6%) and HCA Healthcare (+1.5%)...*

*The only stocks to detract from performance to any extent were Kraft Heinz (-2.8%) and Wells Fargo (-0.2%)...*

***Outlook***

*Equity prices rose in the June quarter even though risks remain elevated.*

*While the likelihood of a deal between China and the US plummeted in May, an agreement to restart talks following the G20 meeting in June raised hopes that the two sides would ultimately settle their differences. This buoyed equity prices, as did central banks signalling their willingness to loosen monetary policy in order to counter risks to growth. But the risk persists that protracted China-US negotiations could undermine global growth so much the deterioration would not be offset by a deal or easier central bank settings...*

*Notwithstanding the risks confronting equities, we reduced the cash position in the strategy from 18% to 8% over the 12 months, allocating that cash primarily to ‘defensive’ stocks. This reflects our decision to adopt a lower-than-historical interest rate in our valuation models and our view that the probability of the third scenario occurring has fallen over the past six months.”*

## Schedule 2 Independent Expert's Report

- 74 Regarding MGE's FY20 financial performance and outlook, MGE's Annual Fund Review 2020 stated the following:

***"Performance***

*Global stocks rose in the 12 months to June 2020 after huge fiscal and monetary stimulus offset the damage from the coronavirus to economic activity, company profits and investor confidence. Over the last three months of 2019-2020, stocks recovered from post-virus lows after an ebbing in infection rates in developed countries allowed governments to ease restrictions on everyday life, even though the economic hit from the virus was so stark that the US entered its first recession in nearly 11 years.*

*The portfolio recorded a return after fees of 8.9% for the 12 months...*

*The stocks that performed best included the investments in Microsoft (+3.3% of the total portfolio return), Alphabet (+1.9%) and Apple (+1.6%)...*

*The stocks that detracted from performance included the investments in Yum! Brands (-0.9%), Anheuser-Busch InBev (-0.9%) and HCA Healthcare (-0.3%)...*

***Outlook***

*The outlooks for the economy and equity markets remain uncertain. Key will be the pace of economic reopening and policymaker responses. We continue to see four scenarios.*

*The best scenario is a V-shaped recovery; a fleeting recession. This would require a quick and successful reopening supported by policymakers, with most furloughed workers returning to their pre-pandemic hours. This scenario still appears relatively unlikely.*

*The worst scenario is a depression, where reopening is very slow and there is a policy error, hurting employment and output. This would be the worst outcome for markets but also appears relatively unlikely.*

*The two middle scenarios are a U-shaped recovery from a recession and a prolonged and deep recession. The downturn that occurred after the global financial recession lay between these two scenarios. It is still challenging to definitively predict if the current downturn will be more or less severe than the recession of 2008-2009.*

*Due to our cautious economic outlook and the risks confronting equities, we raised the cash position in the strategy from 8% to 15% over the 12 months."*

### Strategy

#### Investment objectives

- 90 MGF's investment objectives are to provide attractive risk-adjusted returns of 9% per annum over the medium to long term, whilst reducing the risk of permanent capital loss. Magellan aims to achieve these objectives by investing in a portfolio of high quality global companies that provide potential for capital growth over the medium to long term.

## Schedule 2 Independent Expert's Report

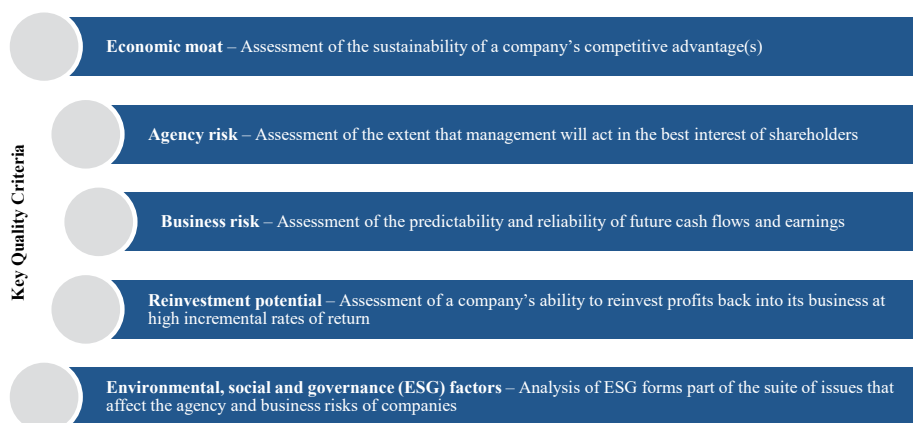

### Investment strategy

- 91 Magellan invests in a focused portfolio of high quality global companies, which are distinguished as having a competitive advantage that can be sustainably exploited in order to earn returns on capital that are in excess of the company's cost of capital. Magellan undertakes extensive fundamental company analysis and seeks to purchase investments when they are trading at a discount to their assessed intrinsic value.
- 92 Magellan also undertakes detailed macroeconomic analysis in order to take advantage of mis-pricing of economic cycles to manage investment risk. Magellan is able to invest up to 20% of MGF's gross assets in cash and cash equivalents and borrow up to 5% of MGF's gross assets.
- 93 MGF's investment strategy is benchmark agnostic, as it aims to achieve attractive absolute returns, rather than benchmark-relative returns, and has few similarities to market benchmarks or share market indices. Notwithstanding this, Magellan's performance fee is calculated with reference to benchmark indices.

### Investment process

- 94 Magellan's investment process integrates three key disciplines:
- (a) **intensive bottom-up stock analysis and industry research** – through in-depth, proprietary company research, seeking to identify sustainable competitive advantages that enable businesses to generate excess returns on capital and predictable cash flow streams. This information is then used to identify stock valuation anomalies. Company research includes an assessment of a company's inherent quality based on the following specific key quality criteria:

#### MGF – key quality criteria

- (b) **broad and detailed macroeconomic insight** – Magellan also undertakes proprietary macroeconomic research in order to identify and manage risks and opportunities presented by the macroeconomic environment which can be applied in most market conditions to protect the portfolio from external shocks

- (c) **rigorous portfolio construction and risk discipline** – Magellan utilises portfolio construction and formal risk control processes to provide downside protection in falling markets, whilst also providing the flexibility to participate in varying stages of the market cycle.

## Permitted investments

- 95 Whilst MGF predominantly invests in global listed securities, it is permitted to invest in a wide variety of assets, including but not limited to the following:
- (a) securities quoted (or soon to be quoted) on a global securities exchange (including the ASX)
  - (b) specialised investment trusts and other pooled investment vehicles
  - (c) unlisted securities
  - (d) options to purchase or sell any investment which is a permitted investment
  - (e) discounted or purchased bills of exchange, promissory notes or other negotiable instruments accepted, drawn or endorsed by any bank or any corporation
  - (f) convertible notes or preference shares
  - (g) equity swaps; and
  - (h) foreign exchange contracts.

## Investment parameters

- 96 The key investment parameters for the construction of MGF's portfolio are based on the following principles:

MGF – key investment parameters	
Exposure	Guidelines
Number of companies	Typically 20 to 40 companies
Asset classes and allocation ranges	Securities – 80% to 100%
Geographical	Cash and cash equivalents – 0% to 20%
Currency hedging	MGF invests in securities on global securities exchanges
Borrowing policy	MGF's foreign currency exposures arising from investment in overseas markets are unhedged
	MGF may borrow against all or part of the portfolio, provided that, at the time, aggregated borrowings do not exceed 5% of MGF's gross asset value

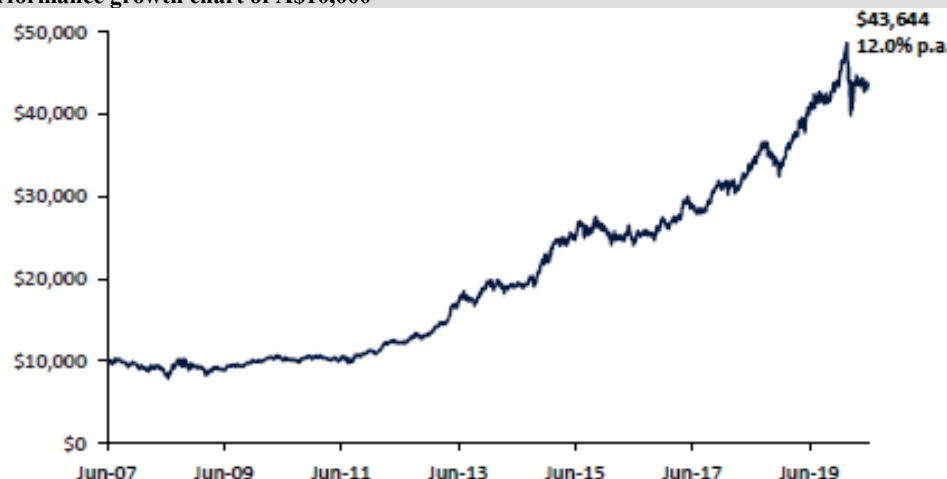

## Fund performance

- 97 As at 30 June 2020, MGF had returned an average of 12% per annum since inception, as indicated in the chart below:

- 100 Regarding MGF's FY19 financial performance and outlook, MGF's Annual Fund Review 2019 stated the following:

***“Performance***

*Global stocks rose in the 12 months to June 2019 after companies posted higher-than-expected earnings, the US economy expanded briskly without generating inflation, the Federal Reserve indicated it would stop, and possibly reverse, its gradual tightening of US monetary policy, and the European Central Bank said it would ‘use all the instruments that are in the toolbox’ to help the eurozone’s weak economy. Gains were capped by concerns global growth might slow, driven by China-US tensions and rising political uncertainty in Europe.*

*The portfolio recorded a return after fees of 20.2% for the 12 months, while the hedged version’s return after fees was 13.8%. The stocks that performed best included the investments in Starbucks (+3.7% of the total portfolio return), Microsoft (+2.5%), Visa (+2.0%), Yum! Brands (+1.7%), Mastercard (+1.6%) and HCA Healthcare (+1.5%)...*

*The only stocks to detract from performance to any extent were Kraft Heinz (-2.8%) and Wells Fargo (-0.2%)...*

### **Outlook**

*Equity prices rose in the June quarter even though risks remain elevated.*

*While the likelihood of a deal between China and the US plummeted in May, an agreement to restart talks following the G20 meeting in June raised hopes that the two sides would ultimately settle their differences. This buoyed equity prices, as did central banks signalling their willingness to loosen monetary policy in order to counter risks to growth. But the risk persists that protracted China-US negotiations could undermine global growth so much the deterioration would not be offset by a deal or easier central bank settings...*

*Notwithstanding the risks confronting equities, we reduced the cash position in the strategy from 18% to 8% over the 12 months, allocating that cash primarily to 'defensive' stocks. This reflects our decision to adopt a lower-than-historical interest rate in our valuation models and our view that the probability of the third scenario occurring has fallen over the past six months."*

- 101 Regarding MGF's FY20 financial performance and outlook, MGF's Annual Fund Review 2020 stated the following:

### **"Performance**

*Global stocks rose in the 12 months to June 2020 after huge fiscal and monetary stimulus offset the damage from the coronavirus to economic activity, company profits and investor confidence. Over the last three months of 2019-2020, stocks recovered from postvirus lows after an ebbing in infection rates in developed countries allowed governments to ease restrictions on everyday life, even though the economic hit from the virus was so stark that the US entered its first recession in nearly 11 years.*

*The portfolio recorded a return after fees of 9.0% for the 12 months, while the hedged version's return after fees was 4.5%. The stocks that performed best included the investments in Microsoft (+3.3% of the total portfolio return), Alphabet (+1.9%) and Apple (+1.6%)...*

*The stocks that detracted from performance included the investments in Yum! Brands (-0.9%) and Anheuser-Busch InBev (-0.9%)...*

### **Outlook**

*The outlooks for the economy and equity markets remain uncertain. Key will be the pace of economic reopening and policymaker responses. We continue to see four scenarios.*

*The best scenario is a V-shaped recovery; a fleeting recession. This would require a quick and successful reopening supported by policymakers, with most furloughed workers returning to their pre-pandemic hours. This scenario still appears relatively unlikely.*

*The worst scenario is a depression, where reopening is very slow and there is a policy error, hurting employment and output. This would be the worst outcome for markets but also appears relatively unlikely.*

*The two middle scenarios are a U-shaped recovery from a recession and a prolonged and deep recession. The downturn that occurred after the global financial recession lay between*

## Schedule 2 Independent Expert's Report

*these two scenarios. It is still challenging to definitively predict if the current downturn will be more or less severe than the recession of 2008-2009.*

*Due to our cautious economic outlook and the risks confronting equities, we raised the cash position in the strategy from 8% to 15% over the 12 months."*

### Currency exposure

- 105 MGF has significant foreign currency exposure arising from its investments in foreign securities, which are predominantly domiciled in the US. Magellan does not hedge the foreign currency exposure of MGF arising from investments in global markets. MGF's total net exposure to fluctuations in foreign currency exchange rates as at 30 June 2019 and 30 June 2020 is shown below:

MGF – exposure to foreign currency		
Assets and liabilities denominated in	30 Jun 19 \$m	30 Jun 20 \$m

Swiss francs	852.3	896.5
Hong Kong dollars	-	776.3
Euros	971.4	579.5
British pounds	402.7	540.1

### Distributions payable

- 106 MGF pays an annual distribution for the 12 months to 30 June. A distribution payable is recognised on the balance sheet where the distribution has been declared but remains unpaid as at the balance sheet date.
- 107 On 24 September 2020 Magellan (as RE of MGF) announced a change in distribution policy to reflect an intention to target a rate of distribution of 4% per annum of the underlying NAV to be paid semi-annually in respect of the Open Class units in MGF.

### NAV per unit performance

- 108 MGF's NAV per unit has outperformed the MSCI World Net Total Return Index (AUD) since the fund's inception in July 2007, as shown in the following chart:

### Unit redemptions

- 109 MGF redemptions can be undertaken at any time provided the withdrawal is for at least \$5,000<sup>18</sup>. Unitholders must send a completed withdrawal form or written notice of withdrawal indicating the specified dollar amount to be withdrawn, a specified number of units to be withdrawn, or a full redemption of the unitholder's investment.
- 110 Redemption payments are usually paid into a nominated bank account within seven business days after receipt and acceptance of the withdrawal request. However, during July of each year, or at any other time when MGF is processing a distribution, withdrawal payments may be delayed by up to 15 business days. There may also be other circumstances, such as a freeze on withdrawals or where MGF is illiquid (as defined in the Corporations Act), where the ability to withdraw from MGF is restricted and unitholders may have to wait a period of time before they can withdraw some or all of their investment.

<sup>18</sup> If the withdrawal request results in the remaining investment in MGF falling below \$5,000, the unitholder may be required to withdraw their entire balance.

### V Valuation of MGE and MGF

#### Valuation methodology

111 RG 111 outlines the appropriate methodologies that a valuer should consider when valuing assets or securities for the purposes of, amongst other things, share buybacks, selective capital reductions, schemes of arrangement, takeovers and prospectuses. These include:

- (a) the discounted cash flow (DCF) methodology
- (b) the application of earnings multiples appropriate to the businesses or industries in which the company or its profit centres are engaged, to the estimated future maintainable earnings or cash flows of the company, added to the estimated realisable value of any surplus assets
- (c) the amount that would be available for distribution to unitholders in an orderly realisation of assets
- (d) the quoted price of listed securities, when there is a liquid and active market and allowing for the fact that the quoted market price may not reflect the value of a security on a 100% controlling interest basis
- (e) any recent genuine offers received by the target for any business units or assets as a basis for valuation of those business units or assets.

#### Stock market value of underlying listed investments

112 As set out in Sections III and IV respectively, the portfolios of both MGE and MGF comprise a number of investments in listed securities, together with cash and cash equivalents. As there is a liquid and active market in respect of these investments, in assessing the value of the open class units in MGE and MGF we have had regard to:

- (a) the quoted price of the respective listed securities
- (b) the market value of the underlying investments, together with cash and cash equivalents.

#### Valuation of MGE

113 Pursuant to RG 111, in considering whether the Scheme is fair, we are required to assess the value of MGE (effectively the target) on a 100% controlling interest basis.

114 In this regard, in considering the extent (if any) to which a notional acquirer of MGE would pay a premium over the pro-rata value of a portfolio (minority) interest therein to acquire a 100% interest in MGE, we have had regard to the following:

- (a) the MGE investment portfolio comprises portfolio interests in a number of underlying listed investments, together with cash and cash equivalents
- (b) given the nature and composition of the portfolio an investor could readily replicate the portfolio
- (c) whilst transaction costs would be incurred in replicating the portfolio, these are unlikely to be material for professional / sophisticated investors and would likely be not greater

## Schedule 2 Independent Expert's Report

than (and most likely less than) the unavoidable corporate / regulatory costs, delays and uncertainties that would be incurred by a notional acquirer seeking a 100% controlling interest in MGE

- (d) it is unlikely that a notional acquirer would want an investment in all the entities that comprise the MGE portfolio, nor the proportionate distribution thereof and would therefore be acquiring some shares to immediately sell them (with associated transaction costs)
  - (e) a notional acquirer would not want to acquire those parts of the MGE portfolio where the tax cost base was less than the current stock market value.
- 115 Based on the above, we are of the view that a notional acquirer of MGE would not pay a premium over the pro-rata value of a portfolio interest therein to acquire a 100% interest in MGE.
- 116 As noted above, it is proposed that MGF will acquire all of the open class units in MGE on a NAV for NAV basis. If the Scheme is approved and implemented, MGE open class unitholders will be offered Open Class units in MGF in exchange for the existing MGE open class units they hold, such that they receive the same underlying NAV of Open Class units in MGF as the underlying NAV in open class MGE units.
- 117 Whilst the respective values attributable to these open class units will be a function of the NAV of the underlying portfolio at the time the Scheme becomes effective, for illustrative purposes in this report we have calculated the NAV of the existing open class units in both MGE and MGF as at 30 June 2020 (based on the respective financial statements of MGE and MGF as at that date).
- 118 In this regard we have reviewed the calculations prepared by Magellan (as RE of MGE and MGF) and have sought to replicate the Magellan calculations. In particular we have:
- (a) checked the quoted prices of the respective listed securities adopted for NAV calculation purposes to prices quoted on the respective security exchanges
  - (b) calculated the value of the investment portfolio, after appropriate allowance for estimated future selling costs
  - (c) allowed for outstanding receivables and payables
  - (d) adjusted for declared but unpaid distributions
  - (e) aggregated (b), (c) and (d) above with cash and cash equivalents to determine the total NAV
  - (f) divided the total NAV by the number of units on issue to determine NAV per unit.
- 119 Based on the reported position as at 30 June 2020, the NAV of MGE was \$1,627.1 million and the NAV per open class unit for MGE was \$3.8284, calculated as follows:

## Schedule 2 Independent Expert's Report

MGE – NAV per unit	
	30 Jun 20
NAV of MGE (\$m)	1,627.1
Number of units (m)	425.0
<b>NAV per unit (\$)</b>	<b>3.8284</b>

### Valuation of MGF

- 120 In calculating the NAV of Open Class units in MGF as at 30 June 2020 we have adopted the same approach as set out in paragraph 118 above in respect of open class units in MGE.
- 121 Based on the reported position as at 30 June 2020, the NAV of MGF was \$11,133.2 million and the NAV per Open Class unit for MGF was \$2.5204 calculated as follows:

MGF – NAV per unit	
	30 Jun 20
NAV of MGF (\$m)	11,133.2
Number of units (m)	4,417.3
<b>NAV per unit (\$)</b>	<b>2.5204</b>

- 122 As noted above, the Scheme Consideration to be offered to existing MGE open class unitholders comprises Open Class units in MGF in exchange for the existing MGE open class units they hold, such that they receive the same NAV of Open Class units in MGF as they hold in open class units in MGE.
- 123 Accordingly, had the Scheme become effective on 30 June 2020, for each open class unit they held in MGE unitholders would have received 1.519 Open Class units in MGF, calculated as follows:

Exchange ratio		
		\$
MGE NAV per unit	(A)	3.8284
MFG NAV per unit	(B)	2.5204
<b>Exchange ratio</b>	<b>(A/B)</b>	<b>1.519</b>

### Deferred tax liability

- 124 Magellan (as RE of both MGE and MGF) has advised that, consistent with listed fund industry practice, the calculation of NAV for both MGE and MGF does not reflect the deferred tax liability on the difference between the respective market value of NAV of both MGE and MGF and the respective tax cost base of those assets.
- 125 There are a number of reasons for this practice, including:
- (a) both MGE and MGF are unit trusts and, provided their taxable income is distributed to unitholders, are not themselves liable to pay tax
  - (b) it is the policy of both MGE and MGF to make regular annual cash distributions to unitholders which include an element of realised capital gains

## Schedule 2 Independent Expert's Report

- (c) although unitholders may, depending on their tax status and level of taxable income, be taxed on the income attributed to them, the individual tax circumstances of unitholders vary widely
  - (d) both MGE and MGF are generally long term investors and it may be many years before either crystallises significant capital gains
  - (e) the present value of any capital gains tax liabilities (albeit in the hands of unitholders) is significantly less than the prima facie capital gain
  - (f) this present value will be further reduced by the favourable tax treatment of capital gains for many unitholders and would be passed on to subsequent unitholders if the units are sold.
- 126 Based on the advised cost base and market value of investments (as at 30 June 2020) of the respective investment portfolios of MGE and MGF, there is a difference as a percentage of the portfolio value in the respective potential deferred tax liability positions. However, given the likely period over which the respective tax liabilities may crystallise, in our opinion, the net present value of the deferred tax liability differential is not material.

### VI Evaluation of the Scheme

- 127 In our opinion, the Scheme is fair and reasonable and in the best interests of MGE unitholders in the absence of a superior proposal. We have formed this opinion for the following reasons.

#### Assessment of the Scheme

##### Fair and reasonable opinion

- 128 Pursuant to RG 111 a scheme is “fair” if the value of the scheme consideration is equal to or greater than the value of the securities the subject of the scheme.
- 129 As noted above, if the Scheme is approved and implemented, MGE unitholders will be offered Open Class units in MGF in exchange for the existing MGE open class units they hold such that they receive the same underlying NAV of Open Class units in MGF as they hold in open class units in MGE.
- 130 Accordingly, as the underlying NAV of the Scheme Consideration (Open Class units in MGF) will be equal to the underlying NAV of the open class units in MGE being acquired, in our opinion, the Scheme Consideration is fair to MGE open class unitholders when assessed based on the guidelines set out in RG 111.
- 131 Pursuant to RG 111, a transaction is reasonable if it is fair. Further, in our opinion, if the Scheme is “fair and reasonable” it must also be “in the best interests” of unitholders.
- 132 Consequently, in our opinion, the Scheme is also “reasonable” and “in the best interests” of MGE open class unitholders in the absence of a superior proposal (which in our view is unlikely).
- 133 In assessing whether the Scheme is reasonable and in the best interests of MGE open class unitholders LEA has also considered, in particular:
- (a) the comparative position of MGE open class unitholders prior to the Scheme and on the assumption that the Scheme is implemented
  - (b) the advantages and disadvantages of the Scheme generally from the perspective of MGE unitholders
  - (c) other qualitative and strategic issues associated with the Scheme.
- 134 These issues are discussed in detail below.

##### Comparative position of MGE unitholders

- 135 We have considered the comparative position of MGE unitholders prior to the Scheme and on the assumption that the Scheme is implemented, in particular as regards annual distributions received by unitholders, the annual level of management fees payable, the liquid nature of the investment in MGE units, the underlying NAV, together with the underlying portfolio mix of investments and associated investment risk.

### Annual distributions

- 136 MGE presently pays an annual distribution to unitholders for the 12 months to 30 June. MGE generally pays a cash distribution and offers a distribution re-investment plan, which allows unitholders to reinvest in MGE at the NAV per unit 10 business days prior to the payment date. The level of annual distributions has generally been dependent on the respective income received, of both a capital gain and investment income nature.
- 137 Magellan (as RE of MGF) has announced:
- (a) an intention to target a rate of distribution of 4% per annum of the underlying NAV to be paid semi-annually in respect of the Open Class units in MGF
  - (b) a proposed distribution reinvestment plan, which will allow MGF Open Class unitholders to reinvest in Open Class units in MGF at the NAV per unit.
- 138 We note that the proposed distribution reinvestment plan in respect of Open Class units in MGF will operate in a consistent manner with the existing corresponding plan in respect of MGE open class units.
- 139 The proposed target rate of distribution in respect of Open Class units in MGF (which is consistent with the proposed target rate of distribution in respect of new Closed Class units in MGF) will be consistent with the change in distribution policy announced by Magellan (as RE of MGE) on 24 September 2020 (refer Section III above). This policy change will occur irrespective of the outcome of the Scheme.
- 140 As noted in Section III, the investment return of the MGE portfolio has generally outperformed relevant benchmarks. Assuming a continuation of this investment performance, together with the implied reinvestment rather than distribution of investment returns pursuant to the advised MGF targeted rate of distribution, we would expect existing MGE open class unitholders to be in no different a position from a total return / value perspective, as any change in annual distribution would be offset by a corresponding change in the level of capital appreciation.

### Management fees

- 141 As set out in Section III, MGE pays both management fees and performance fees to Magellan:
- (a) **management fees** – 1.35% per annum (inclusive of the estimated net effect of GST less any reduced input tax credits), which is calculated daily based on the underlying NAV of MGE on that business day. The management fees cover all fees, costs, charges, expenses and outgoings that are incurred, such as administration and accounting costs, registry fees, audit and tax advice fees, and investor reporting expenses. Management fees are paid monthly in arrears, however an estimate is accrued daily and allowed for in the NAV per unit calculation
  - (b) **performance fees** – Magellan may be entitled to a performance fee of 10% (inclusive of the estimated net effect of GST less any reduced input tax credits) of the excess return of MGE above the higher of the Index Relative Hurdle (MSCI World Net Total Return Index (AUD)), and the Absolute Return Hurdle (the yield of 10-year Australian Government bonds) over each six month period ending 30 June and 31 December each year. Performance fees are accrued daily in the NAV and are paid subject to the achievement of performance hurdles (and the high water mark) for the relevant period.

- 142 Pursuant to the Scheme, Magellan (as RE of MGF) has announced that the same 1.35% per annum management fee and the same basis of performance fees will apply in respect of the Open Class units in MGF. Accordingly, we would not expect there to be any change to the annual level of management (including performance) fees payable by existing open class MGE unitholders subsequent to implementation of the Scheme.

### **Liquidity of investment**

- 143 Existing open class units in MGE are traded on the ASX (under the AQUA rules). MGE units do not presently have a redemption option directly with the RE. Since the commencement of trading on the ASX, MGE's unit price has closely tracked its NAV per unit, consistent with the structure and nature of the fund.
- 144 Pursuant to the Scheme, Magellan (as RE of MGF) has advised an intention to:
- (a) seek approval to list the proposed new Open Class MGF units on the ASX
  - (b) provide Open Class unitholders with a redemption option directly with the RE, subject to the prescribed conditions, at the prevailing NAV per unit by direct application to Magellan.
- 145 The liquidity position of existing MGE unitholders will be enhanced pursuant to implementation of the Scheme, due to both the introduction of the redemption option, as well as the larger number of Open Class MGF units on issue. Consistent with historical trading in open class units in MGE, we would expect the new Open Class units in MGF to trade at a tight spread to the prevailing NAV per unit.

### **Underlying investment portfolio**

- 146 Magellan (as RE of both MGE and MGF) has advised that the investment funds that comprise the majority of the net assets of MGE (which will effectively be acquired by MGF pursuant to the Scheme) will be merged within MGF on implementation of the Scheme.
- 147 The MGE investment portfolio mirrors (to all intents and purposes) the MGF investment portfolio. Accordingly, we would not expect there to be any material change in the investment risk profile of existing MGE unitholders subsequent to implementation of the Scheme.

### **MGF Partnership Offer**

- 148 As noted above, should the Proposed Restructure be approved and implemented<sup>19</sup>, Magellan (as RE for MGF) intends to provide the following additional benefits to eligible unitholders in the enlarged MGF:
- (a) offer all unitholders (both Open Class and Closed Class) the ability to subscribe for new Closed Class units, and an option for each new Closed Class unit issued (the MGF Partnership Offer)

---

<sup>19</sup> In addition to approval from MGE unitholders, the Proposed Restructure also requires the approval of MGF and MGG unitholders.

## Schedule 2 Independent Expert's Report

- (b) issue bonus options to holders of Closed Class units on the basis of one bonus option for every two Closed Class units held (the Bonus MGF Option issue)<sup>20</sup>.
- 149 The MGF Partnership Offer will entitle eligible MGF unitholders to subscribe for \$1 of new Closed Class units for every \$4 of MGF units held based on their unit balance at the calculation date<sup>21</sup>, capped at the balance of their unitholding at the Scheme implementation date. The subscription price for the new Closed Class units will be the NAV per Closed Class unit on the business day immediately prior to their allotment. Successful applicants will also receive a benefit in the form of additional Closed Class units worth 7.5% of the amount subscribed<sup>22</sup>.
- 150 Each option issued under the MGF Partnership Offer will be exercisable into a Closed Class unit in MGF, with the exercise price set at a 7.5% discount to the prevailing NAV per unit at the time of exercise<sup>23</sup>. The options will have a three year term and be exercisable daily, subject to an initial holding period. It is intended that all options be quoted on the ASX.
- 151 Those existing open class MGE unitholders that elect to participate in the MGF Partnership Offer (as Open Class unitholders in MGF) will therefore receive a financial advantage in the form of both additional Closed Class units in MGF (above the number of units subscribed for) together with options (which will be quoted on the ASX and exercisable at a discount). In the prevailing low interest rate environment, we consider these to be significant financial advantages for those MGE open class unitholders that participate in the MGF Partnership Offer.

### Arbitrage

- 152 One of the perceived benefits of the Proposed Restructure is that in circumstances where Closed Class units are trading at a discount to the respective NAV, the market value of Closed Class units should increase if investors can arbitrage the price gap between Open Class units and Closed Class units. It would appear to follow that if this potential arbitrage can result in an increase in the market value of listed Closed Class units, then there must be an opposite effect on the market value of Open Class units.
- 153 In our view, this theoretical potential market price impact is unlikely. This is because the buyback value of redeemed units is a function of the underlying NAV of the portfolio. This provides an effective market price support function, thus protecting the stock market value of the Open Class units.
- 154 There are actually two elements to this price support protection. The first being the underlying NAV that can be accessed via redemption, subject to the prescribed conditions. The second being that market participants are well aware of this price support alternative even if it does not have to actually be accessed. (In technical terms it is an “in substance put option” held by Open Class unitholders, subject to the prescribed conditions.)

<sup>20</sup> The Bonus MGF Option issue will be for the benefit of MGF Closed Class unitholders only (which may include existing MGF unitholders). Existing MGF and MGE open class unitholders will not be eligible for the Bonus MGF Option issue.

<sup>21</sup> Expected to be determined in January 2021.

<sup>22</sup> Magellan's parent company, MFG, will pay into MGF an amount equal to the cost of these additional units to minimise NAV per unit dilution.

<sup>23</sup> MFG will also pay into MGF an amount equal to the 7.5% discount to minimise NAV per unit dilution.

### Costs of the Scheme

- 155 The costs of the Scheme, together with the costs of the Proposed Restructure generally, are to be borne by MFG (the parent company of Magellan, the RE of MGE). Accordingly, there will be no negative impact on the NAV of the existing Open Class units in MGE pursuant to the operation of the Scheme.

### Summary of opinion on the Scheme

- 156 We summarise below the likely advantages and disadvantages for MGE unitholders if the Scheme proceeds.

### Advantages

- 157 The Scheme has the following advantages for MGE open class unitholders:
- (a) the liquidity position of existing MGE unitholders will be enhanced pursuant to implementation of the Scheme as a result of both:
    - (i) the increase in the number of units on issue
    - (ii) the advised intention of Magellan (as RE of MGF) to effectively provide existing MGE open class unitholders with a redemption option (subject to the prescribed conditions) at the prevailing NAV per unit by direct application to Magellan. This redemption option is not currently available to MGE unitholders
  - (b) they will be eligible to participate in the MGF Partnership Offer and should they choose to do so, they will receive a significant financial advantage in the form of both additional Closed Class units in MGF (above the number of units subscribed for), together with options (which will be quoted on the ASX and exercisable at a discount). This financial advantage will be in the form of:
    - (i) an immediate increase in the value of a unitholder's investment (based on the NAV) of 7.5% of the amount subscribed
    - (ii) an increase of 7.5% in the annual distributions to unitholders on the amount subscribed (noting that this is a "mirror image" of the higher NAV)
    - (iii) three year options offering a further benefit of some 7.5% on further capital able to be subscribed (pursuant to the MGF Partnership Offer)
  - (c) the MGF Partnership Offer provides the potential for a material increase in the number of units on issue without diluting unitholders' equity
  - (d) the MGF Partnership Offer of Closed Class units will provide permanent unitholder capital also without diluting unitholders' equity
  - (e) furthermore, post the Scheme some MGF Open Class unitholders can be expected to arbitrage any price gap that may emerge between Open Class and Closed Class units
  - (f) there will be no associated cost attributable to these financial benefits as the costs of the Scheme, together with the costs of the Proposed Restructure generally, and the costs of the MGF Partnership Offer including the costs of the additional units and options, are to be borne by MFG (the parent company of Magellan, the RE of MGE).

## Schedule 2 Independent Expert's Report

### **Disadvantages**

- 158 As a result of the significant increase in the number of units on issue, the relative voting power of existing MGE open class unitholders will reduce. However, in the circumstances of the Scheme, we do not consider this to represent a material disadvantage. Accordingly, in our opinion, there are no material disadvantages that will accrue to existing MGE open class unitholders pursuant to implementation of the Scheme.

### **Conclusion**

- 159 Given the above analysis, we consider the acquisition of MGE open class units under the Scheme is fair and reasonable and in the best interests of MGE unitholders in the absence of a superior proposal (which in our view is unlikely).

**Magellan Asset Management Limited (ACN 120 593 946) as responsible entity of the Magellan Global Fund (ARSN 126 366 961)** of MLC Centre, Level 36, 19 Martin Place, Sydney NSW 2000 (**MGF RE**).

**In favour of each Scheme Unitholder**

## **Recitals**

- A MGF RE and Magellan Asset Management Limited as responsible entity of the Magellan Global Equities Fund (ARSN 603 395 302) (the **Target RE**) have entered into an implementation deed dated 2 August 2020 (the **Implementation Deed**).
- B The Target RE has agreed in the Implementation Deed to propose the Scheme, pursuant to which, subject to the satisfaction or waiver of certain conditions precedent, MGF RE will acquire all the Scheme Units from the Scheme Unitholders for the Scheme Consideration.
- C In accordance with the Implementation Deed, MGF RE is entering into this Deed Poll for the purpose of covenanting in favour of the Scheme Unitholders that it will observe and perform the obligations contemplated of it under the Scheme.

**It is agreed** as follows.

## **1 Definitions and Interpretation**

### **1.1 Definitions**

Terms defined in the Implementation Deed have the same meaning in this Deed Poll, unless the context requires otherwise.

### **1.2 Interpretation**

The provisions of clause 1.2 of the Implementation Deed form part of this Deed Poll as if set out in full in this Deed Poll, and on the basis that references to 'this Deed' and 'this document' in that clause are references to 'this Deed Poll' and clause references are amended as applicable.

## **2 Nature of Deed Poll**

MGF RE acknowledges that:

- (a) this Deed Poll may be relied on and enforced by any Scheme Unitholder in accordance with its terms, even though the Scheme Unitholders are not party to it; and
- (b) under the Scheme, each Scheme Unitholder appoints the Target RE and each of its directors, officers and secretaries (jointly and each of them severally) as its agent and attorney to enforce this Deed Poll against MGF RE on behalf of that Scheme Unitholder.

## **3 Conditions Precedent and Termination**

### **3.1 Conditions precedent**

MGF RE's obligations under this Deed Poll are subject to the Scheme becoming Effective.

## 3.2 Termination

If the Implementation Deed is terminated before the Effective Date or the Scheme does not become Effective on or before the End Date, the obligations of MGF RE under this Deed Poll will automatically terminate and the terms of this Deed Poll will be of no further force or effect, unless the Target RE and MGF RE otherwise agree in accordance with the Implementation Deed.

## 3.3 Consequences of termination

If this Deed Poll is terminated under clause 3.2, then, in addition and without prejudice to any other rights, powers or remedies available to it:

- (a) MGF RE is released from its obligations under this Deed Poll, except those obligations under clause 8.6; and
- (b) each Scheme Unitholder retains any rights, powers or remedies that the Scheme Unitholder has against MGF RE in respect of any breach of its obligations under this Deed Poll that occurred before termination of this Deed Poll.

## 4 Compliance with Scheme Obligations

### 4.1 Obligations of MGF RE

Subject to clause 3, in consideration for the transfer to MGF RE of the Scheme Units in accordance with the Scheme, MGF RE covenants in favour of each Scheme Unitholder that it will observe and perform all obligations contemplated of it under the Scheme, including the obligations relating to the provision of the Scheme Consideration in accordance with the terms of the Scheme.

### 4.2 Undertaking to issue the Scheme Consideration

On the Implementation Date, MGF RE undertakes in favour of each Scheme Unitholder to provide, or procure the provision of, the Scheme Consideration to each Scheme Unitholder in accordance with the terms of the Scheme.

### 4.3 Scheme Consideration to rank equally

MGF RE covenants in favour of each Scheme Unitholder that the Open Class Units issued as Scheme Consideration will:

- (a) have the rights set out in the MGF Constitution;
- (b) rank equally in all respects among themselves; and
- (c) be fully paid and free from any Encumbrance.

### 4.4 General warranties

MGF RE represents and warrants in favour of each Scheme Unitholder that:

- (a) it is a corporation validly existing under the laws of its place of incorporation;
- (b) it has the power to enter into and perform its obligations under this Deed Poll and to carry out the transactions contemplated by this Deed Poll;
- (c) it has taken all necessary corporate action to authorise the entry into this Deed Poll and has taken or will take all necessary corporate action to authorise the performance of this Deed Poll;
- (d) this Deed Poll is its valid and binding obligation enforceable in accordance with its terms;
- (e) the execution and performance by it of this Deed Poll and each transaction contemplated by this Deed Poll did not and will not violate in any respect a provision of:

### Scheme Deed Poll

Allens & Linklaters

- (i) a law or treaty or a judgment, ruling, order or decree binding on it or any of its Controlled Entities;
- (ii) the MGF Constitution; or
- (iii) any other document or agreement that is binding on it or any of its Controlled Entities;
- (f) neither it nor MGF is Insolvent;
- (g) MGF has been duly established and has not been terminated and is a registered managed investment scheme;
- (h) it is the responsible entity of MGF and no action has been taken or proposed to remove it as responsible entity of MGF;
- (i) no action has been taken or proposed to, either:
  - (i) terminate MGF; or
  - (ii) wind-up MGF, whether under Chapter 5C of the Corporations Act or otherwise;
- (j) it has the authorisations necessary for it to enter into the documents to which it is a party, perform obligations under them and allow them to be enforced (including any authorisation required under the MGF Constitution (if any));
- (k) entry into the documents to which it is a party is a valid exercise of its powers under the MGF Constitution for the benefit of the MGF Unitholders; and
- (l) it has a right, in accordance with the terms of the MGF Constitution, to be fully indemnified out of the property of MGF in respect of obligations incurred by it under the documents to which it is a party, and, to the best of its knowledge and after reasonable and due enquiry, it is not aware of anything that would prevent it from being fully indemnified out of the property of MGF, in accordance with the terms of the MGF Constitution, for any obligations under or in connection with this Deed Poll, or any of the transactions contemplated by this Deed Poll.

### 5 Limited liability of MGF RE

- (a) MGF RE enters into this Deed Poll only in its capacity as trustee of MGF and in no other capacity. A liability arising under or in connection with this Deed Poll is limited to and can be enforced against MGF RE only to the extent to which it can be satisfied out of the assets out of which MGF RE is entitled to be indemnified for the liability. This limitation of MGF RE's liability applies despite any other provision of this Deed Poll and extends to all liabilities and obligations of MGF RE in any way connected with any representation, warranty, conduct, omission, agreement or transaction related to this Deed Poll.
- (b) A Scheme Unitholder may not sue MGF RE under or in respect of this Deed Poll in any capacity other than as trustee of MGF, including the appointment of a receiver (except in relation to property of MGF), a liquidator, an administrator or any similar person to MGF RE or prove in any liquidation, administration or arrangement of or affecting MGF RE (except in relation to assets of MGF).
- (c) MGF RE does not have to incur any obligation under this Deed Poll unless its liability in respect of that obligation is limited in the same manner as in this clause 5.
- (d) The provisions of this clause 5 shall not apply to any obligation or liability of MGF RE to the extent that it is not satisfied because under the MGF Constitution by operation of applicable law there is a reduction in the extent of MGF RE's indemnification out of the assets of MGF, as a result of MGF RE's fraud, negligence or breach of trust.

## 6 Continuing Obligations

This Deed Poll is irrevocable and, subject to clause 3, remains in full force and effect until the earlier of:

- (a) MGF RE having fully performed its obligations under this Deed Poll; and
- (b) termination of this Deed Poll under clause 3.

## 7 Further Assurances

MGF RE will, on its own behalf and, to the extent authorised by the Scheme, on behalf of each Scheme Unitholder, do all things and execute all deeds, instruments, transfers or other documents as may be necessary or desirable to give full effect to the provisions of this Deed Poll and the transactions contemplated by it.

### 8.2 No waiver

No failure to exercise nor any delay in exercising any right, power or remedy by MGF RE or by any Scheme Unitholder operates as a waiver. A single or partial exercise of any right, power or remedy does not preclude any other or further exercise of that or any other right, power or remedy. A waiver of any right, power or remedy on one or more occasions does not operate as a waiver of that right, power or remedy on any other occasion, or of any other right, power or remedy. A waiver is not valid or binding on the person granting that waiver unless made in writing and signed by the party granting the waiver.

All duty (including stamp duty and any fines, penalties and interest) payable on or in connection with this Deed Poll and any instrument executed under or any transaction evidenced by this Deed Poll must be borne by MGF RE (or a MGF Group Member). (Hereafter the "Pro Forma Historical Financial Information").

The Pro Forma Historical Statement of Financial Position has been prepared in accordance with the recognition and measurement principles contained in AAS other than that it includes adjustments which have been prepared in a manner consistent with AAS, that reflect the impact of certain transactions as if they occurred as at 30 June 2020.

### 3. Directors' Responsibility

The directors of MAM as Responsible Entity for MGE, MGG and Magellan Global Fund are responsible for the preparation and presentation of the Historical Financial Information and Pro Forma Historical Financial Information, including the basis of preparation, selection and determination of pro forma adjustments made to the Historical Financial Information and included in the Pro Forma Historical Financial Information. This includes responsibility for such internal controls as the directors determine are necessary to enable the preparation of Historical Financial Information and Pro Forma Historical Financial Information that are free from material misstatement, whether due to fraud or error.

### 4. Our Responsibility

Our responsibility is to express a limited assurance conclusion on the Historical Financial Information and Pro Forma Historical Financial Information based on the procedures performed and the evidence we have obtained.

We have conducted our engagement in accordance with the Standard on Assurance Engagements ASAE 3450 *Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information*.

Our limited assurance procedures consisted of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other limited assurance procedures. A limited assurance engagement is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain reasonable assurance that we would become aware of all significant matters that might be identified in a reasonable assurance engagement. Accordingly, we do not express an audit opinion.

Our engagement did not involve updating or re-issuing any previously issued audit or limited assurance reports on any financial information used as a source of the Financial Information.

### 5. Conclusions
