Company Announcements Office Australian Securities Exchange Limited Level 4, Exchange Centre 20 Bridge Street SYDNEY NSW 2000

Dear Sir/Madam,

MAGELLAN FINANCIAL GROUP LIMITED CONDENSED FINANCIAL REPORT FOR THE HALF YEAR ENDED 31 DECEMBER 2009

Results Announcement

The net profit after tax of Magellan Financial Group ('the Group') for the six months ended 31 December 2009 was \$1.33 million. The Group's underlying operating result, excluding the significant item, realised and unrealised investment gains and losses and the contribution from the unlisted Magellan funds, was a profit after tax of \$1.16 million. This compares with an underlying profit after tax for the previous corresponding period of \$0.75 million.

During the half year period, funds management fees increased by approximately \$1 million and total operating expenses were reduced by \$0.40 million compared with the previous corresponding period. Based on the current level of funds under management and expenses, the Group's operations are profitable.

The Group has maintained its strong Balance Sheet and financial position, with net assets of approximately \$110 million, no debt and total liabilities of \$0.69 million. As at 31 December 2009, the Group's net assets per share (diluted for the conversion of the Class B shares) was approximately \$0.70, compared with net assets per share at 30 June 2009 of \$0.66.

As at 31 December 2009, the Group had funds under management of approximately \$694 million (30 June 2009: \$393 million).

Investments in Magellan's Funds and Principal Investments

In early 2009 we decided to increase our investment in equities and have done so by progressively increasing our investment in the funds we manage. As at 31 December 2009, Magellan's investment assets comprised \$57.3 million in these three funds, and an investment portfolio of \$18.1 million in other securities (which includes fixed and floating rate debt investments of \$10.4 million).

The fixed and floating rate securities are scheduled to mature in calendar 2010 and earn annualised yields from 5.5% to 9.7% for credit qualities that we believe are comparable with those of the major Australian banks. These securities are liquid and we regard them as comparable to our cash holdings, although we expect to hold them to maturity.

We consider the Group's investments in our funds as "look through" investments in the underlying companies which comprise the portfolios. We are delighted with the quality of the investments in our funds and believe that Magellan has acquired interests in high quality companies on terms that we regard as attractive. The following table aggregates these "look through" investments with the Group's direct portfolio investments to show the ten largest aggregated "look through" equity investments as at 31 December 2009.

Ebay	6.0
Yum! Brands	5.9

As at 31 December 2009, the Group had cash of approximately \$20.2 million in addition to the fixed and floating rate investments mentioned earlier. This conservative Balance Sheet approach has benefitted the Company, particularly during the early stages of the funds and asset management business in the extreme markets of recent years. We also believe that Balance Sheet strength will be a significant future benefit.

Dividends

The Directors do not recommend payment of an interim dividend, and do not expect to recommend payment of a final dividend, for the year ending 30 June 2010.

2. Summary of Significant Accounting Policies

a) Basis of Preparation of Half Year Financial Report

This general purpose condensed consolidated financial report for the half year ended 31 December 2009 has been prepared in accordance with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Act 2001*. This half year financial report does not include all the notes normally included in an annual financial report and it is recommended that it be read in conjunction with the Company's and the Group's annual report for the year ended 30 June 2009 and with public announcements made by the Company during the half year ended 31 December 2009 in accordance with the continuous disclosure requirements of the *Corporations Act 2001* and the ASX.

Comparative information in respect of the previous period has been re-classified where this assists in the understanding of the current period's financial report.

Except as described below, the accounting policies applied by the Group in this interim financial report are the same as those applied by the Group for the year ended 30 June 2009.

NOTES TO THE FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2009

2. Summary of Significant Accounting Policies (continued)

c) Basis of Consolidation (continued)

The comparative Statement of Comprehensive Income for the six months ended 31 December 2008 includes a contribution from two controlled unlisted trusts, Magellan Global Fund and Magellan Infrastructure Fund ('the Funds'), and the effect of the loss of control of these Funds when external investor contributions diluted the Group's percentage holdings to less than 50%.

Magellan Infrastructure Fund was classified as an available-for-sale financial investment from 22 October 2008, the date of loss of control. Changes in the fair value since this date are recognised in the Available For Sale Reserve.

From 4 December 2008 (the date of loss of control) until 3 August 2009, Magellan Global Fund was deemed to be an associate entity as the percentage of units held by the Group was sufficient to provide the Group with significant influence, and accounted for in accordance with AASB 128: *Investments in Associates*. In August 2009, the Company's percentage holding in Magellan Global Fund fell below 20% and from this date is classified as an available-for-sale financial investment.

All inter-entity balances and transactions between entities in the consolidated group, including unrealised profits or losses, have been eliminated on consolidation. Policies of the controlled entities have been changed where necessary to ensure consistency with those policies adopted by the parent entity.

Acquisitions have been accounted for using the purchase method of accounting, which involves allocating the cost of the business combination to the fair value of assets acquired and the liabilities and contingent liabilities assumed at the date of the acquisition.

3. Operating Segment Information

The Group's business activities are organised into the following reportable operating segments for internal management purposes:

Funds and asset management
